

Open source disclosure

Last updated June 2020

When we talk about transparent managed security it includes being transparent about the open source software we use to deliver our service. After all, how we secure ourselves (including the security of our code and third-party code we integrate into our Workbench) is a key part of our customers' security posture.

System

Open Source Software Name	Description	Type of Open Source License
CentOS	Operating System	Various
Fedora Project Extra Packages for Enterprise Linux (EPEL)	Additional applications for CentOS	Various
Confluent Kafka	Stream Processing	Apache License Version 2.0
Zookeeper	Service Discovery	Apache License Version 2.0
Consul	Service Discovery	Mozilla Public License 2.0
Redis	NoSQL DB	Three Clause BSD
Burrow	Kafka monitoring	Apache License Version 2.0
Timesketch	Collaborative forensic timeline analysis	Apache License Version 2.0
Vault	Managing secrets	Mozilla Public License 2.0
oauth2_proxy	Authentication	MIT
Gravitational Teleport	SSH proxy	Apache License Version 2.0
Postgres	Database	PostgreSQL License
Packer	Image building	Mozilla Public License 2.0
Terraform	Infrastructure Management	Mozilla Public License 2.0
OpenResty	Web server	Three Clause BSD, Two Clause BSD, MIT, OpenSSL
ElasticSearch	Document indexing and search	Apache License Version 2.0
snoopy	Command logging	GNU General Public License v2.0
ship_it	Python RPM building	MIT

Python

Open Source Software Name	Description	Type of Open Source License
simplejson	Simple, fast, extensible JSON encoder/decoder for Python	Academic Free License, MIT
aiohttp	Async http client/server framework (asyncio)	Apache License Version 2.0
ansible-tower-cli	A CLI tool for Ansible Tower and AWX.	Apache License Version 2.0
apache-libcloud	A standard Python library that abstracts away differences among multiple cloud provider APIs. For more information and documentation, please see https://libcloud.apache.org	Apache License Version 2.0
async-timeout	Timeout context manager for asyncio programs	Apache License Version 2.0
avro	Avro is a serialization and RPC framework.	Apache License Version 2.0
bandit	Security oriented static analyser for python code.	Apache License Version 2.0
boto3	The AWS SDK for Python	Apache License Version 2.0
confluent-kafka	Confluent's Python client for Apache Kafka	Apache License Version 2.0
coverage	Code coverage measurement for Python	Apache License Version 2.0
dulwich	Python Git Library	Apache License Version 2.0
elasticsearch	Python client for Elasticsearch	Apache License Version 2.0
elasticsearch-dsl	Python client for Elasticsearch	Apache License Version 2.0
google-api-python-client	Google API Client Library for Python	Apache License Version 2.0
google-auth	Google Authentication Library	Apache License Version 2.0
google-auth-oauthlib	Google Authentication Library	Apache License Version 2.0
google-cloud-monitoring	Stackdriver Monitoring API client library	Apache License Version 2.0
google-cloud-pubsub	Google Cloud Pub/Sub API client library	Apache License Version 2.0
google-cloud-storage	Google Cloud Storage API client library	Apache License Version 2.0
google-cloud-trace	Stackdriver Trace API client library	Apache License Version 2.0
grpcio	HTTP/2-based RPC framework	Apache License Version 2.0
grpcio-health-checking	Standard Health Checking Service for gRPC	Apache License Version 2.0
grpcio-opentracing	Python OpenTracing Extensions for gRPC	Apache License Version 2.0
grpcio-tools	Protobuf code generator for gRPC	Apache License Version 2.0
hvac	HashiCorp Vault API client	Apache License Version 2.0

Open Source Software Name	Description	Type of Open Source License
launchdarkly-server-sdk	LaunchDarkly SDK for Python	Apache License Version 2.0
multidict	multidict implementation	Apache License Version 2.0
prometheus_client	Python client for the Prometheus monitoring system.	Apache License Version 2.0
pykafka	Full-Featured Pure-Python Kafka Client	Apache License Version 2.0
pymongo	Python driver for MongoDB < http://www.mongodb.org >	Apache License Version 2.0
pyOpenSSL	Python wrapper module around the OpenSSL library	Apache License Version 2.0
PyPika	A SQL query builder API for Python	Apache License Version 2.0
python-editor	Programmatically open an editor, capture the result.	Apache License Version 2.0
python-registry	Read access to Windows Registry files.	Apache License Version 2.0
ravello-sdk	Python SDK for the Ravello API	Apache License Version 2.0
regrippy	A modern Python-3-based alternative to RegRipper	Apache License Version 2.0
requests	Python HTTP for Humans.	Apache License Version 2.0
requests-toolbelt	A utility belt for advanced users of python-requests	Apache License Version 2.0
responses	A utility library for mocking out the `requests` Python library.	Apache License Version 2.0
retrying	Retrying	Apache License Version 2.0
slacker	Slack API client	Apache License Version 2.0
thrift	Python bindings for the Apache Thrift RPC system	Apache License Version 2.0
yaml	Yet another URL library	Apache License Version 2.0
streamlit	Frontend library for machine learning engineers	Apache License Version 2.0
cryptography	cryptography is a package which provides cryptographic recipes and primitives to Python developers.	Apache License Version 2.0, BSD
python-dateutil	Extensions to the standard Python datetime module	Apache License Version 2.0, BSD
pycryptodome	Cryptographic library for Python	Apache License Version 2.0, BSD, Public Domain
structlog	Structured Logging for Python	Apache License Version 2.0, MIT

Open Source Software Name	Description	Type of Open Source License
altair	Altair: A declarative statistical visualization library for Python.	BSD
aniso8601	A library for parsing ISO 8601 strings.	BSD
cached-property	A decorator for caching properties in classes.	BSD
capstone	Capstone disassembly engine	BSD
celery	Distributed Task Queue.	BSD
click	Composable command line interface toolkit	BSD
colorama	Cross-platform colored terminal text.	BSD
datadog	The Datadog Python library	BSD
dateparser	Date parsing library designed to parse dates from HTML pages	BSD
decorator	Decorators for Humans	BSD
Django	A high-level Python Web framework that encourages rapid development and clean, pragmatic design.	BSD
duo-client	Reference client for Duo Security APIs	BSD
file-magic	(official) libmagic Python bindings	BSD
Flask	A simple framework for building complex web applications.	BSD
Flask-Bcrypt	Bcrypt hashing for Flask.	BSD
Flask-RESTful	Simple framework for creating REST APIs	BSD
Flask-Script	Scripting support for Flask	BSD
Flask-SQLAlchemy	Adds SQLAlchemy support to your Flask application.	BSD
Flask-WTF	Simple integration of Flask and WTForms.	BSD
hiredis	Python wrapper for hiredis	BSD
idna	Internationalized Domain Names in Applications (IDNA)	BSD
invoke	Pythonic task execution	BSD
iocextract	Advanced Indicator of Compromise (IOC) extractor.	BSD
ipdb	IPython-enabled pdb	BSD
ipython	IPython: Productive Interactive Computing	BSD

Open Source Software Name	Description	Type of Open Source License
ipython_genutils	Vestigial utilities from IPython	BSD
ipywidgets	IPython HTML widgets for Jupyter	BSD
isodate	An ISO 8601 date/time/duration parser and formatter	BSD
itsdangerous	Various helpers to pass data to untrusted environments and back.	BSD
Jinja2	A very fast and expressive template engine.	BSD
jira	Python library for interacting with JIRA via REST APIs.	BSD
jsonpickle	Python library for serializing any arbitrary object graph into JSON	BSD
lxml	Powerful and Pythonic XML processing library combining libxml2/libxslt with the ElementTree API.	BSD
lz4	LZ4 Bindings for Python	BSD
MarkupSafe	Safely add untrusted strings to HTML/XML markup.	BSD
mock	Rolling backport of unittest.mock for all Pythons	BSD
msg-parser	This module enables reading, parsing and converting Microsoft Outlook MSG E-Mail files.	BSD
nodeenv	Node.js virtual environment builder	BSD
notebook	A web-based notebook environment for interactive computing	BSD
npyscreen	Writing user interfaces without all that ugly mucking about in hyperspace	BSD
oauthlib	A generic, spec-compliant, thorough implementation of the OAuth request-signing logic	BSD
prompt-toolkit	Library for building powerful interactive command lines in Python	BSD
psutil	Cross-platform lib for process and system monitoring in Python.	BSD
py-trello	Python wrapper around the Trello API	BSD
Pygments	Pygments is a syntax highlighting package written in Python.	BSD
pytest-cov	Pytest plugin for measuring coverage.	BSD
python-snappy	Python library for the snappy compression library from Google	BSD

Open Source Software Name	Description	Type of Open Source License
raven	Raven is a client for Sentry (https://getsentry.com)	BSD
requests-oauthlib	OAuthlib authentication support for Requests.	BSD
rq	RQ is a simple, lightweight, library for creating background jobs, and processing them.	BSD
scipy	SciPy: Scientific Library for Python	BSD
seaborn	seaborn: statistical data visualization	BSD
Sphinx	Python documentation generator	BSD
sphinxcontrib-confluencebuilder	Sphinx extension to output Atlassian Confluence Storage Markup documents and publish to Confluence instances.	BSD
sphinxcontrib-restbuilder	Sphinx extension to output reST files.	BSD
sqlalchemy_json_api	Fast SQLAlchemy query builder for returning JSON API responses.	BSD
SQLAlchemy-Utils	Various utility functions for SQLAlchemy.	BSD
tlextract	Accurately separate the TLD from the registered domain and subdomains of a URL, using the Public Suffix List. By default, this includes the public ICANN TLDs and their exceptions. You can optionally support the Public Suffix List's private domains as well.	BSD
traitlets	Traitlets Python config system	BSD
ujson	Ultra fast JSON encoder and decoder for Python	BSD
unicodcsv	Python2's stdlib csv module is nice, but it doesn't support unicode. This module is a drop-in replacement which *does*.	BSD
WeasyPrint	The Awesome Document Factory	BSD
websocket_client	WebSocket client for Python. hybi13 is supported.	BSD
Werkzeug	The comprehensive WSGI web application library.	BSD
Werkzeug	The comprehensive WSGI web application library.	BSD
wrapt	Module for decorators, wrappers and monkey patching.	BSD
WTForms	A flexible forms validation and rendering library for Python web development.	BSD
xlrd	Library for developers to extract data from Microsoft Excel (tm) spreadsheet files	BSD

Open Source Software Name	Description	Type of Open Source License
XlsxWriter	A Python module for creating Excel XLSX files.	BSD
netaddr	A network address manipulation library for Python	BSD, MIT
mmh3	Python wrapper for MurmurHash (MurmurHash3), a set of fast and robust hash functions.	Creative Commons CC0 1.0 Universal
eml-parser	Python EML parser library	GNU Affero General Public License v3
dicttoxml	Converts a Python dictionary or other native data type into a valid XML string.	GNU General Public License v2.0
fuzzywuzzy	Fuzzy string matching in python	GNU General Public License v2.0
mysql-connector	MySQL driver written in Python	GNU General Public License v2.0
pylint	python code static checker	GNU General Public License v2.0
python-Levenshtein	Python extension for computing string edit distances and similarities.	GNU General Public License v2.0
scapy	Scapy: interactive packet manipulation tool	GNU General Public License v2.0
uWSGI	The uWSGI server	GNU General Public License v2.0
neo4jrestclient	Object-oriented Python library to interact with Neo4j standalone REST server	GNU General Public License v3.0
tkcalendar	Calendar and DateEntry widgets for Tkinter	GNU General Public License v3.0
argh	An unobtrusive argparse wrapper with natural syntax	GNU Lesser General Public License v2
chardet	Universal encoding detector for Python 2 and 3	GNU Lesser General Public License v2
paramiko	SSH2 protocol library	GNU Lesser General Public License v2
psycopg2cffi	.. image:: https://travis-ci.org/htd/psycopg2cffi.svg?branch=master	GNU Lesser General Public License v2
PyGithub	Use the full Github API v3	GNU Lesser General Public License v2
pymssql	DB-API interface to Microsoft SQL Server for Python. (new Cython-based version)	GNU Lesser General Public License v2

Open Source Software Name	Description	Type of Open Source License
psycopg2	psycopg2 - Python-PostgreSQL Database Adapter	GNU Lesser General Public License v2, Zope Public License v2.1
psycopg2-binary	psycopg2 - Python-PostgreSQL Database Adapter	GNU Lesser General Public License v2, Zope Public License v2.1
argumentparser	Python 2/3 compatible commandline argument parser	GNU Lesser General Public License v3.0
sigmatools	Tools for the Generic Signature Format for SIEM Systems	GNU Lesser General Public License v3.0
extract-msg	Extracts emails and attachments saved in Microsoft Outlook's .msg files	GNU Lesser General Public License v3.0
Pillow	Python Imaging Library (Fork)	Historical Permission Notice and Disclaimer
pan-python	Multi-tool set for Palo Alto Networks PAN-OS, Panorama, WildFire and AutoFocus	ISC
pexpect	Pexpect allows easy control of interactive console applications.	ISC
ptyprocess	Run a subprocess in a pseudo terminal	ISC
arnparse	Parse ARNs using Python	MIT
bs4	Dummy package for BeautifulSoup	MIT
onelogin	OneLogin Python SDK. Use this API client to interact with OneLogin's platform	MIT
plotly	An open-source, interactive graphing library for Python	MIT
slackeventsapi	Python Slack Events API adapter	MIT
alembic	A database migration tool for SQLAlchemy.	MIT
appdirs	A small Python module for determining appropriate platform-specific dirs, e.g. a "user data dir".	MIT
aspyyaml	A few extensions to pyyaml.	MIT
attrs	Classes Without Boilerplate	MIT
autopep8	A tool that automatically formats Python code to conform to the PEP 8 style guide	MIT
backoff	Function decoration for backoff and retry	MIT

Open Source Software Name	Description	Type of Open Source License
blinker	Fast, simple object-to-object and broadcast signaling	MIT
cachetools	Extensible memoizing collections and decorators	MIT
cbapi	Carbon Black REST API Python Bindings	MIT
dash	A Python framework for building reactive web-apps. Developed by Plotly.	MIT
datasketch	Probabilistic data structures for processing and searching very large datasets	MIT
editdistance	Fast implementation of the edit distance(Levenshtein distance)	MIT
emailrep	Python interface for the EmailRep API	MIT
eventlet	Highly concurrent networking library	MIT
factory-boy	A versatile test fixtures replacement based on thoughtbot's factory_bot for Ruby.	MIT
fake-factory	The `fake-factory` package was deprecated on December 15th, 2016. Use the `Faker` package instead.	MIT
Faker	Faker is a Python package that generates fake data for you.	MIT
fastavro	Fast read/write of AVRO files	MIT
filetype	Infer file type and MIME type of any file/buffer. No external dependencies.	MIT
flake8	the modular source code checker: pep8, pyflakes and co	MIT
flake8-bugbear	A plugin for flake8 finding likely bugs and design problems in your program. Contains warnings that don't belong in pyflakes and pycodestyle.	MIT
flake8-docstrings	Extension for flake8 which uses pydocstyle to check docstrings	MIT
flake8-rst	flake8 for code in rst files and docstrings	MIT
flake8-rst-docstrings	Python docstring reStructuredText (RST) validator	MIT
Flask-Login	User session management for Flask	MIT
Flask-Migrate	SQLAlchemy database migrations for Flask applications using Alembic	MIT

Open Source Software Name	Description	Type of Open Source License
Flask-Migrate	SQLAlchemy database migrations for Flask applications using Alembic	MIT
geopy	Python Geocoding Toolbox	MIT
gunicorn	WSGI HTTP Server for UNIX	MIT
humanfriendly	Human friendly output for text interfaces using Python	MIT
inflect	Correctly generate plurals, singular nouns, ordinals, indefinite articles; convert numbers to words	MIT
inflection	A port of Ruby on Rails inflector to Python	MIT
jsonschema	An implementation of JSON Schema validation for Python	MIT
lightgbm	LightGBM Python Package	MIT
Mako	A super-fast templating language that borrows the best ideas from the existing templating languages.	MIT
marshmallow	A lightweight library for converting complex datatypes to and from native Python datatypes.	MIT
marshmallow-jsonapi	JSON API 1.0 (https://jsonapi.org) formatting with marshmallow	MIT
marshmallow-oneofschema	marshmallow multiplexing schema	MIT
marshmallow-sqlalchemy	SQLAlchemy integration with the marshmallow (de) serialization library	MIT
mypy	Optional static typing for Python	MIT
netifaces	Portable network interface information.	MIT
pickleshare	Tiny 'shelve'-like database with concurrency support	MIT
pre-commit	A framework for managing and maintaining multi-language pre-commit hooks.	MIT
py	library with cross-python path, ini-parsing, io, code, log facilities	MIT
pydocstyle	Python docstring style checker	MIT
pyjq	Binding for jq JSON processor.	MIT
PyJWT	JSON Web Token implementation in Python	MIT
PyMySQL	Pure Python MySQL Driver	MIT
pystream-protobuf	Python implementation of stream library	MIT

Open Source Software Name	Description	Type of Open Source License
pytest	pytest: simple powerful testing with Python	MIT
pytest-flask	A set of py.test fixtures to test Flask applications.	MIT
pytest-timeout	py.test plugin to abort hanging tests	MIT
pytest-watch	Local continuous test runner with pytest and watchdog.	MIT
pytest-xdist	pytest xdist plugin for distributed testing and loop-on-failing modes	MIT
python-magic	File type identification using libmagic	MIT
python-rapidjson	Python wrapper around rapidjson	MIT
pytz	World timezone definitions, modern and historical	MIT
PyYAML	YAML parser and emitter for Python	MIT
redis	Python client for Redis key-value store	MIT
ruamel.yaml	ruamel.yaml is a YAML parser/emitter that supports roundtrip preservation of comments, seq/map flow style, and map key order	MIT
six	Python 2 and 3 compatibility utilities	MIT
slackbot	A simple chat bot for Slack	MIT
slackclient	Slack API clients for Web API and RTM API	MIT
spacy	Industrial-strength Natural Language Processing (NLP) in Python	MIT
SQLAlchemy	Database Abstraction Library	MIT
SQLAlchemy-JSONAPI	JSONAPI Mixin for SQLAlchemy	MIT
strictyaml	Strict, typed YAML parser	MIT
tabulate	Pretty-print tabular data	MIT
termcolor	ANSII Color formatting for output in terminal.	MIT
typeguard	Run-time type checker for Python	MIT
urllib3	HTTP library with thread-safe connection pooling, file post, and more.	MIT
vcrcpy	Automatically mock your HTTP interactions to simplify and speed up testing	MIT
virtualenv	Virtual Python Environment builder	MIT
wcwidth	Measures number of Terminal column cells of wide-character codes	MIT

Open Source Software Name	Description	Type of Open Source License
WebOb	WSGI request and response object	MIT
wheel	A built-package format for Python	MIT
xmltodict	Makes working with XML feel like you are working with JSON	MIT
zeep	A modern/fast Python SOAP client based on lxml / requests	MIT
certifi	Python package for providing Mozilla's CA Bundle.	Mozilla Public License 2.0
defusedxml	XML bomb protection for Python stdlib modules	PSFL
futures	Backport of the concurrent.futures package from Python 3	PSFL
matplotlib	Python plotting package	PSFL
typing	Type Hints for Python	PSFL
filelock	A platform independent file lock.	Public Domain
versioneer	Easy VCS-based management of project version strings	Public Domain
pyramid	The Pyramid Web Framework, a Pylons project	Repoze Public License
hdbscan	Clustering based on density with variable density clusters	Three Clause BSD
numpy	NumPy is the fundamental package for array computing with Python.	Three Clause BSD
pandas	Powerful data structures for data analysis, time series, and statistics	Three Clause BSD
protobuf	Protocol Buffers	Three Clause BSD
scikit-learn	A set of python modules for machine learning and data mining	Three Clause BSD
simplegeneric	Simple generic functions (similar to Python's own len(), pickle.dump(), etc.)	Zope Public License v2.1
waitress	Waitress WSGI server	Zope Public License v2.1

Javascript

Open Source Software Name	Description	Type of Open Source License
chai-timers	Allows the Chai Assertion library to create and measure timers.	MIT
CyberChef	The Cyber Swiss Army Knife for encryption, encoding, compression and data analysis.	Apache License Version 2.0
harmony-reflect	ES5 shim for ES6 (ECMAScript 6) Reflect and Proxy objects	Apache License Version 2.0
@sinonjs/text-encoding	Polyfill for the Encoding Living Standard's API.	Apache License Version 2.0
qrcode-terminal	QR Codes, in the terminal	Apache License Version 2.0
rx-lite	Lightweight library for composing asynchronous and event-based operations in JavaScript	Apache License Version 2.0
rx-lite-aggregates	Lightweight library with aggregate functions for composing asynchronous and event-based operations in JavaScript	Apache License Version 2.0
@cnakazawa/watch	Utilities for watching file trees.	Apache License Version 2.0
@google-cloud/common	Common components for Cloud APIs Node.js Client Libraries	Apache License Version 2.0
@google-cloud/paginator	A result paging utility used by Google node.js modules	Apache License Version 2.0
@google-cloud/projectify	A simple utility for replacing the projectid token in objects.	Apache License Version 2.0
@google-cloud/promisify	A simple utility for promisifying functions and classes.	Apache License Version 2.0
@google-cloud/storage	Cloud Storage Client Library for Node.js	Apache License Version 2.0
@xtuc/long	A Long class for representing a 64-bit two's-complement integer value.	Apache License Version 2.0
accessibility-developer-tools	This is a library of accessibility-related testing and utility code.	Apache License Version 2.0
ansi-html	An elegant lib that converts the chalked (ANSI) text to HTML.	Apache License Version 2.0
aot-test-generators	Generate test suites for checks that already happened at build-time	Apache License Version 2.0
aria-query	Programmatic access to the ARIA specification	Apache License Version 2.0
ascli	A uniform foundation for unobtrusive (ASCII art in) cli apps.	Apache License Version 2.0

Open Source Software Name	Description	Type of Open Source License
aws-sign2	AWS signing. Originally pulled from LearnBoost/knox, maintained as vendor in request, now a standalone module.	Apache License Version 2.0
axobject-query	Programmatic access to information about the AXObject Model	Apache License Version 2.0
better-ajv-errors	JSON Schema validation for Human	Apache License Version 2.0
bootstrap-colorpicker	Fancy and customizable colorpicker plugin for Twitter Bootstrap	Apache License Version 2.0
bser	JavaScript implementation of the BSER Binary Serialization	Apache License Version 2.0
bson	A bson parser for node.js and the browser	Apache License Version 2.0
bytebuffer	The swiss army knife for binary data in JavaScript.	Apache License Version 2.0
caseless	Caseless object set/get/has, very useful when working with HTTP headers.	Apache License Version 2.0
cyberchef	The Cyber Swiss Army Knife for encryption, encoding, compression and data analysis.	Apache License Version 2.0
denque	The fastest javascript implementation of a double-ended queue. Maintains compatability with deque.	Apache License Version 2.0
detect-libc	Node.js module to detect the C standard library (libc) implementation family and version	Apache License Version 2.0
doctrine	JSDoc parser	Apache License Version 2.0
ecdsa-sig-formatter	Translate ECDSA signatures between ASN.1/DER and JOSE-style concatenation	Apache License Version 2.0
ejs	Embedded JavaScript templates	Apache License Version 2.0
elasticsearch	The official low-level Elasticsearch client for Node.js and the browser.	Apache License Version 2.0
ember-href-to	A lightweight alternative to <code>link-to</code>	Apache License Version 2.0
ember-i18n	Internationalization for Ember	Apache License Version 2.0
eslint-visitor-keys	Constants and utilities about visitor keys to traverse AST.	Apache License Version 2.0
faye-websocket	Standards-compliant WebSocket server and client	Apache License Version 2.0
fb-watchman	Bindings for the Watchman file watching service	Apache License Version 2.0
find-yarn-workspace-root	Algorithm for finding the root of a yarn workspace, extracted from yarnpkg.com	Apache License Version 2.0

Open Source Software Name	Description	Type of Open Source License
forever-agent	HTTP Agent that keeps socket connections alive between keep-alive requests. Formerly part of mikeal/request, now a standalone module.	Apache License Version 2.0
gaxios	A simple common HTTP client specifically for Google APIs and services.	Apache License Version 2.0
gcp-metadata	Get the metadata from a Google Cloud Platform environment	Apache License Version 2.0
google-auth-library	Google APIs Authentication Client Library for Node.js	Apache License Version 2.0
grpc	gRPC Library for Node	Apache License Version 2.0
human-signals	Human-friendly process signals	Apache License Version 2.0
js2xmlparser	Parses JavaScript objects into XML	Apache License Version 2.0
jsdoc	An API documentation generator for JavaScript.	Apache License Version 2.0
kew	a lightweight promise library for node	Apache License Version 2.0
ldclient-node	LaunchDarkly SDK for Node.js	Apache License Version 2.0
long	A Long class for representing a 64-bit two's-complement integer value.	Apache License Version 2.0
mixpanel-browser	The official Mixpanel JavaScript browser client library	Apache License Version 2.0
node-environment-flags	> Polyfill/shim for `process.allowedNodeEnvironmentFlags`	Apache License Version 2.0
oauth-sign	OAuth 1 signing. Formerly a vendor lib in mikeal/request, now a standalone module.	Apache License Version 2.0
phantomjs-prebuilt	Headless WebKit with JS API	Apache License Version 2.0
puppeteer	A high-level API to control headless Chrome over the DevTools Protocol	Apache License Version 2.0
request	Simplified HTTP request client.	Apache License Version 2.0
rxjs	Reactive Extensions for modern JavaScript	Apache License Version 2.0
spdx-correct	correct invalid SPDX expressions	Apache License Version 2.0
sumchecker	Checksum validator	Apache License Version 2.0
teeny-request	Like request, but smaller.	Apache License Version 2.0
true-case-path	Given a possibly case-variant version of an existing filesystem path, returns the case-exact, normalized version as stored in the filesystem.	Apache License Version 2.0

Open Source Software Name	Description	Type of Open Source License
tslib	Runtime library for TypeScript helper functions	Apache License Version 2.0
tunnel-agent	HTTP proxy tunneling agent. Formerly part of mikeal/request, now a standalone module.	Apache License Version 2.0
typescript	TypeScript is a language for application scale JavaScript development	Apache License Version 2.0
validate-npm-package-license	Give me a string and I'll tell you if it's a valid npm package license string	Apache License Version 2.0
walker	A simple directory tree walker.	Apache License Version 2.0
websocket-driver	WebSocket protocol handler with pluggable I/O	Apache License Version 2.0
workerpool	Offload tasks to a pool of workers on node.js and in the browser	Apache License Version 2.0
xml-name-validator	Validates whether a string matches the production for an XML name or qualified name	Apache License Version 2.0
xmlcreate	Simple XML builder for Node.js	Apache License Version 2.0
es6-templates	ES6 template strings compiled to ES5.	Apache License Version 2.0
fast-text-encoding	Fast polyfill for TextEncoder and TextDecoder, only supports utf-8	Apache License Version 2.0
foreachasync	A node- and browser-ready async counterpart of Array.prototype.forEach	Apache License Version 2.0
grpc-tools	Tools for developing with gRPC on Node.js	Apache License Version 2.0
revalidator	A cross-browser / node.js validator used by resourceful	Apache License Version 2.0
dompurify	DOMPurify is a DOM-only, super-fast, uber-tolerant XSS sanitizer for HTML, MathML and SVG. It's written in JavaScript and works in all modern browsers (Safari, Opera (15+), Internet Explorer (10+), Firefox and Chrome - as well as almost anything else using Blink or WebKit). DOMPurify is written by security people who have vast background in web attacks and XSS. Fear not.	Apache License Version 2.0
@csstools/convert-colors	Convert colors between RGB, HSL, and HWB	CC0-1.0
spdx-exceptions	list of SPDX standard license exceptions	Creative Commons Attribution 3.0 Unported
caniuse-lite	A smaller version of caniuse-db, with only the essentials!	Creative Commons Attribution 4.0 International
bzip-deflate	A very simple bzip deflator, a wrapper around github.com/kirilloid/bzip2-js	Creative Commons Attribution-ShareAlike 3.0 Unported

Open Source Software Name	Description	Type of Open Source License
@csstools/normalize.css	A cross-browser CSS foundation	Creative Commons CC0 1.0 Universal
30-seconds-of-code	A collection of useful JavaScript snippets.	Creative Commons CC0 1.0 Universal
css-blank-pseudo	Style form elements when they are empty	Creative Commons CC0 1.0 Universal
css-has-pseudo	Style elements relative to other elements in CSS	Creative Commons CC0 1.0 Universal
css-prefers-color-scheme	Use light and dark color schemes in all browsers	Creative Commons CC0 1.0 Universal
cssdb	A comprehensive list of CSS features and their positions in the process of becoming implemented web standards	Creative Commons CC0 1.0 Universal
locale-emoji	Convert a locale id string (LCID) to a unicode regional indicator symbol.	Creative Commons CC0 1.0 Universal
mdn-data	Open Web data by the Mozilla Developer Network	Creative Commons CC0 1.0 Universal
node-md6	MD6 Implementation in Node	Creative Commons CC0 1.0 Universal
postcss-browser-comments	Keep only the CSS you need based on comments and your browserslist	Creative Commons CC0 1.0 Universal
postcss-color-functional-notation	Use space and slash separated color notation in CSS	Creative Commons CC0 1.0 Universal
postcss-color-mod-function	Modify colors using the color-mod() function in CSS	Creative Commons CC0 1.0 Universal
postcss-dir-pseudo-class	Use the :dir pseudo-class in CSS	Creative Commons CC0 1.0 Universal
postcss-double-position-gradients	Use double-position gradients in CSS	Creative Commons CC0 1.0 Universal
postcss-env-function	Use env() variables in CSS	Creative Commons CC0 1.0 Universal
postcss-focus-visible	Use the :focus-visible pseudo-selector in CSS	Creative Commons CC0 1.0 Universal
postcss-focus-within	Use the :focus-within pseudo-selector in CSS	Creative Commons CC0 1.0 Universal
postcss-gap-properties	Use the gap, column-gap, and row-gap shorthand properties in CSS	Creative Commons CC0 1.0 Universal

Open Source Software Name	Description	Type of Open Source License
postcss-image-set-function	Display resolution-dependent images using the image-set() function in CSS	Creative Commons CC0 1.0 Universal
postcss-lab-function	Use lab() and lch() color functions in CSS	Creative Commons CC0 1.0 Universal
postcss-logical	Use logical properties and values in CSS	Creative Commons CC0 1.0 Universal
postcss-nesting	Nest style rules inside each other	Creative Commons CC0 1.0 Universal
postcss-normalize	Use the parts of normalize.css you need from your browserslist	Creative Commons CC0 1.0 Universal
postcss-overflow-shorthand	Use the overflow shorthand in CSS	Creative Commons CC0 1.0 Universal
postcss-place	Use a place-* shorthand for align-* and justify-* in CSS	Creative Commons CC0 1.0 Universal
postcss-preset-env	Convert modern CSS into something browsers understand	Creative Commons CC0 1.0 Universal
postcss-pseudo-class-any-link	Use the :any-link pseudo-class in CSS	Creative Commons CC0 1.0 Universal
spdx-license-ids	A list of SPDX license identifiers	Creative Commons CC0 1.0 Universal
line-stream	simple line parsing string emitting stream. tired of implementing line delimited streams ;)	ISC
node-sha1	Exports a SHA1 function that uses node's crypto module under the hood	ISC
JSONSelect	CSS-like selectors for JSON	ISC
@istanbuljs/load-nyc-config	Utility function to load nyc configuration	ISC
@webassemblyjs/helper-fsm	FSM implementation	ISC
abbrev	Like ruby's abbrev module, but in js	ISC
access-sniff	A node/iojs library & CLI for HTML_Codesniffer	ISC
ansi-align	align-text with ANSI support for CLIs	ISC
anymatch	Matches strings against configurable strings, globs, regular expressions, and/or functions	ISC
aproba	A ridiculously light-weight argument validator (now browser friendly)	ISC

Open Source Software Name	Description	Type of Open Source License
are-we-there-yet	Keep track of the overall completion of many disparate processes	ISC
ast-types-flow	Flow types for the Javascript AST	ISC
bind-obj-methods	Bind methods to an object from that object or some other source. Optionally specify a set of methods to skip over.	ISC
block-stream	a stream of blocks	ISC
boolbase	two functions: One that returns true, one that returns false	ISC
broccoli-funnel-reducer		ISC
broccoli-templater	easily use lodash templates to template many files	ISC
browser-stdout	<code>`process.stdout`</code> in your browser.	ISC
browserify-sign	adds node crypto signing for browsers	ISC
cacache	Fast, fault-tolerant, cross-platform, disk-based, data-agnostic, content-addressable cache.	ISC
canvas-confetti	performant confetti animation in the browser	ISC
capture-exit	safely cleanup in signal handlers	ISC
chownr	like <code>`chown -R`</code>	ISC
cldr-compact-number	Compact number formatting logic	ISC
clean-base-url		ISC
cli-color	Colors, formatting and other tools for the console	ISC
cli-width	Get stdout window width, with two fallbacks, <code>tty</code> and then a default.	ISC
cliui	easily create complex multi-column command-line-interfaces	ISC
color-support	A module which will endeavor to guess your terminal's level of color support.	ISC
console-control-strings	A library of cross-platform tested terminal/console command strings for doing things like color and cursor positioning. This is a subset of both <code>ansi</code> and <code>vt100</code> . All control codes included work on both Windows & Unix-like OSes, except where noted.	ISC
console-ui	common interface for abstracting a console ui	ISC

Open Source Software Name	Description	Type of Open Source License
copy-concurrently	Promises of copies of files, directories and symlinks, with concurrency controls and win32 junction fallback.	ISC
css-color-keywords	A list of all CSS color keywords.	ISC
d	Property descriptor factory	ISC
deglob	Take a list of glob patterns and return an array of file locations, respecting <code>.gitignore</code> and allowing for ignore patterns via <code>package.json</code> .	ISC
detect-node	Detect Node.JS (as opposite to browser environment) (reliable)	ISC
electron-to-chromium	Provides a list of electron-to-chromium version mappings	ISC
ember-cli-build-config-editor	Utility for ember blueprints to use to modify ember-cli-build.js	ISC
ember-cli-get-component-path-option		ISC
ember-cli-is-package-missing	extracted for use in blueprints and addons	ISC
ember-cli-lodash-subset	Custom lodash build used by ember-cli	ISC
ember-cli-normalize-entity-name	extracted for blueprints and addons	ISC
ember-cli-path-utils	path utils extracted for blueprints and addons	ISC
ember-cli-string-utils	string utils extracted for other addons and blueprints	ISC
ember-cli-test-info	extracted test info for blueprints and addons	ISC
ensure-posix-path	[[Build Status]](https://travis-ci.org/stefanpenner/ensure-posix-path.svg)](https://travis-ci.org/stefanpenner/ensure-posix-path) [[Build status]](https://ci.appveyor.com/api/projects/status/bt015k54b2ohk1oi?svg=true)](https://ci.appveyor.com/project/embercli/ensure-posix-path)	ISC
es5-ext	ECMAScript extensions and shims	ISC
es6-symbol	ECMAScript 6 Symbol polyfill	ISC
es6-weak-map	ECMAScript6 WeakMap polyfill	ISC
eslint-plugin-promise	Enforce best practices for JavaScript promises	ISC
events-to-array	Put a bunch of emitted events in an array, for testing.	ISC

Open Source Software Name	Description	Type of Open Source License
exists-sync	existsSync that also checks for symlinks	ISC
ext	JavaScript utilities with respect to emerging standard	ISC
fast-ordered-set	quick and dirty ordered-set	ISC
fastq	Fast, in memory work queue	ISC
figgy-pudding	Delicious, festive, cascading config/opts definitions	ISC
flatted	A super light and fast circular JSON parser.	ISC
fluffy	Expel's guard dog	ISC
foreground-child	Run a child as if it's the foreground process. Give it stdio. Exit when it exits.	ISC
fs-exists-cached	Just like `fs.exists` and `fs.existsSync`, but cached	ISC
fs-write-stream-atomic	Like `fs.createWriteStream(...)`, but atomic.	ISC
fs.realpath	Use node's fs.realpath, but fall back to the JS implementation if the native one fails	ISC
fstream	Advanced file system stream things	ISC
function-loop	Run a list of functions in order in a given object context. The functions can be callback-taking or promise-returning.	ISC
gauge	A terminal based horizontal guage	ISC
get-caller-file	[[Build Status]](https://travis-ci.org/stefanpenner/get-caller-file.svg?branch=master)](https://travis-ci.org/stefanpenner/get-caller-file) [[Build status]](https://ci.appveyor.com/api/projects/status/ol2q94g1932cy14a/branch/master?svg=true)](https://ci.appveyor.com/project/embercli/get-caller-file/branch/master)	ISC
get-own-enumerable-property-symbols	Returns an array of all enumerable symbol properties found directly upon a given object	ISC
glob	a little globber	ISC
glob-parent	Extract the non-magic parent path from a glob string.	ISC
graceful-fs	A drop-in replacement for fs, making various improvements.	ISC
har-schema	JSON Schema for HTTP Archive (HAR)	ISC
has-unicode	Try to guess if your terminal supports unicode	ISC

Open Source Software Name	Description	Type of Open Source License
hash-for-dep	generates a hash that represents a module and its dependencies uniqueness	ISC
heapdump	Make a dump of the V8 heap for later inspection.	ISC
heimdalljs-fs-monitor	fs operation monitoring for heimdalljs	ISC
himalaya	HTML to JSON parser	ISC
hosted-git-info	Provides metadata and conversions from repository urls for Github, Bitbucket and Gitlab	ISC
https	https mediation	ISC
icss-replace-symbols	Replacing symbols during the linking phase of ICSS	ISC
icss-utils	ICSS utils for postcss ast	ISC
ignore-by-default	A list of directories you should ignore by default	ISC
in-publish	Detect if we were run as a result of `npm publish`	ISC
infer-owner	Infer the owner of a path based on the owner of its nearest existing parent	ISC
inflight	Add callbacks to requests in flight to avoid async duplication	ISC
inherits	Browser-friendly inheritance fully compatible with standard node.js inherits()	ISC
ini	An ini encoder/decoder for node	ISC
is-resolvable	Check if a module ID is resolvable with require()	ISC
isexe	Minimal module to check if a file is executable.	ISC
istanbul-lib-processinfo	A utility for managing the `processinfo` folder that NYC uses.	ISC
json-stringify-safe	Like JSON.stringify, but doesn't blow up on circular refs.	ISC
killable	Keeps track of a server's open sockets so they can be destroyed at a moment's notice.	ISC
log-driver	log-driver is a simple logging framework for logging to stdout	ISC
lru-cache	A cache object that deletes the least-recently-used items.	ISC
macgyver	Primary API for public and internal access to the Expel.io infrastructure	ISC

Open Source Software Name	Description	Type of Open Source License
macgyver-smoketests	Smoketests that exercise Workbench features and MacGyver endpoints	ISC
make-error	Make your own error types!	ISC
make-plural	Translates Unicode CLDR pluralization rules to executable JavaScript	ISC
matcher-collection	Minimatch but for collections of minimatcher matchers.	ISC
memoizee	Memoize/cache function results	ISC
minimalistic-assert	minimalistic-assert ===	ISC
minimatch	a glob matcher in javascript	ISC
minipass	minimal implementation of a PassThrough stream	ISC
move-concurrently	Promises of moves of files or directories with rename, falling back to recursive rename/copy on EXDEV errors, with configurable concurrency and win32 junction support.	ISC
mute-stream	Bytes go in, but they don't come out (when muted).	ISC
node-modules-path		ISC
nopt	Option parsing for Node, supporting types, shorthands, etc. Used by npm.	ISC
npm-package-arg	Parse the things that can be arguments to `npm install`	ISC
npmlog	logger for npm	ISC
npx	execute npm package binaries	ISC
nyc	the Istanbul command line interface	ISC
o365onboard	Proof of concept for connecting to Azure APIs for automatic provisioning.	ISC
objectdefs	Expel Global Object Definitions	ISC
once	Run a function exactly one time	ISC
osenv	Look up environment settings specific to different operating systems	ISC
own-or	Either use the object's own property, or a fallback	ISC
own-or-env	Use an objects own property, or an environment variable. Optionally treat as a boolean if the env should be set to 1 or 0.	ISC

Open Source Software Name	Description	Type of Open Source License
package-hash	Generates a hash for an installed npm package, useful for salting caches	ISC
parse-asn1	utility library for parsing asn1 files for use with browserify-sign.	ISC
path-posix	posix-specific core path module	ISC
pg-int8	64-bit big-endian signed integer-to-string conversion	ISC
phantom	PhantomJS integration module for NodeJS	ISC
pixelmatch	The smallest and fastest pixel-level image comparison library.	ISC
postcss-color-gray	Use the gray() color function in CSS	ISC
postcss-modules-extract-imports	A CSS Modules transform to extract local aliases for inline imports	ISC
postcss-modules-scope	A CSS Modules transform to extract export statements from local-scope classes	ISC
postcss-modules-values	PostCSS plugin for CSS Modules to pass arbitrary values between your module files	ISC
process-relative-require		ISC
promise-inflight	One promise for multiple requests in flight to avoid async duplication	ISC
proto-list	A utility for managing a prototype chain	ISC
pseudomap	A thing that is a lot like ES6 `Map`, but without iterators, for use in environments where `for..of` syntax and `Map` are not available.	ISC
read	read(1) for node programs	ISC
release-zalgo	Helps you write code with promise-like chains that can run both synchronously and asynchronously	ISC
remove-trailing-separator	Removes separators from the end of the string.	ISC
request-promise-core	Core Promise support implementation for the simplified HTTP request client 'request'.	ISC
request-promise-native	The simplified HTTP request client 'request' with Promise support. Powered by native ES6 promises.	ISC
require-main-filename	shim for require.main.filename() that works in as many environments as possible	ISC
rimraf	A deep deletion module for node (like `rm -rf`)	ISC

Open Source Software Name	Description	Type of Open Source License
run-queue	A promise based, dynamic priority queue runner, with concurrency limiting.	ISC
sax	An evented streaming XML parser in JavaScript	ISC
saxes	An evented streaming XML parser in JavaScript	ISC
semver	The semantic version parser used by npm.	ISC
set-blocking	set blocking stdio and stderr ensuring that terminal output does not truncate	ISC
setprototypeof	A small polyfill for Object.setprototypeof	ISC
sigmund	Quick and dirty signatures for Objects.	ISC
signal-exit	when you want to fire an event no matter how a process exits.	ISC
silent-error	stackless unless otherwise requested error	ISC
snackbarjs	SnackbarJS is a lightweight and jQuery powered plugin made to work in Bootstrap style, just like the Bootstrap tooltips work.	ISC
spawn-wrap	Wrap all spawned Node.js child processes by adding environs and arguments ahead of the main JavaScript file argument.	ISC
split2	split a Text Stream into a Line Stream, using Stream 3	ISC
ssri	Standard Subresource Integrity library -- parses, serializes, generates, and verifies integrity metadata according to the SRI spec.	ISC
standard-json	Format JavaScript Standard Style output to a JSON array.	ISC
stealthy-require	The closest you can get to require something with bypassing the require cache	ISC
tap	A Test-Anything-Protocol library	ISC
tap-mocha-reporter	Format a TAP stream using Mocha's set of reporters	ISC
tar	tar for node	ISC
test-exclude	test for inclusion or exclusion of paths using globs	ISC
timers-ext	Timers extensions	ISC
tmatch	This module exists to facilitate the <code>t.match()</code> method in <code>[tap]</code> (http://npm.im/tap).	ISC

Open Source Software Name	Description	Type of Open Source License
touch	like touch(1) in node	ISC
tree-sync	A module for repeated efficient synchronizing two directories.	ISC
trivial-deferred	The most dead-simple trivial Deferred implementation	ISC
tsame	the logic behind tap's t.same() and t.strictSame()	ISC
type	Runtime validation and processing of JavaScript types	ISC
unique-filename	Generate a unique filename for use in temporary directories or caches.	ISC
unique-slug	Generate a unique character string suitable for use in files and URLs.	ISC
unix-dgram	Unix datagram socket	ISC
use-strict	Makes all modules in Node get loaded in strict mode.	ISC
validate-npm-package-name	Give me a string and I'll tell you if it's a valid npm package name	ISC
vinyl-sourcemaps-apply	Apply a source map to a vinyl file, merging it with preexisting source maps	ISC
which	Like which(1) unix command. Find the first instance of an executable in the PATH.	ISC
which-module	Find the module object for something that was require()d	ISC
wide-align	A wide-character aware text alignment function for use on the console or with fixed width fonts.	ISC
wrappy	Callback wrapping utility	ISC
write-file-atomic	Write files in an atomic fashion w/configurable ownership	ISC
wtfnode	Utility to help find out why Node isn't exiting	ISC
y18n	the bare-bones internationalization library used by yargs	ISC
yallist	Yet Another Linked List	ISC
yaml	JavaScript parser and stringifier for YAML	ISC
yapool	Yet Another object pool in JavaScript	ISC
yargs-parser	the mighty option parser used by yargs	ISC

Open Source Software Name	Description	Type of Open Source License
jsonapi-server	Implementation of json:api and GraphQL	MIT
ember-metrics-pendo	Ember-metrics-pendo allows to configure the Pendo service in your ember project using ember-metrics.	MIT
orca	Plotly's image-exporting utilities	MIT
es6-polyfills	ES6 polyfills that use native implementation if available and do not pollute the global namespace	MIT
rc	hardwired configuration loader	MIT
sha.js	Streamable SHA hashes in pure javascript	MIT
jshint	Static analysis tool for JavaScript	MIT
pako	zlib port to javascript - fast, modularized, with browser support	MIT
@ember/test-helpers	Helpers for testing Ember.js applications	MIT
atob	atob for Node.JS and Linux / Mac / Windows CLI (it's a one-liner)	MIT
JSONStream	rawStream.pipe(JSONStream.parse()). pipe(streamOfObjects)	MIT
walk	A node port of python's os.walk	MIT
type-fest	A collection of essential TypeScript types	MIT
expand-template	Expand placeholders in a template string	MIT
opener	Opens stuff, like webpages and files and executables, cross-platform	MIT
path-is-inside	Tests whether one path is inside another path	MIT
jison	A parser generator with Bison's API	MIT
nomnom	Option parser with generated usage and commands	MIT
keybase-ecurve	Elliptic curve cryptography, which uses keybase/bn for bignums	MIT
@babel/code-frame	Generate errors that contain a code frame that point to source locations.	MIT
@babel/compat-data		MIT
@babel/core	Babel compiler core.	MIT
@babel/generator	Turns an AST into code.	MIT

Open Source Software Name	Description	Type of Open Source License
@babel/helper-annotate-as-pure	Helper function to annotate paths and nodes with <code>#__PURE__</code> comment	MIT
@babel/helper-builder-binary-assignment-operator-visitor	Helper function to build binary assignment operator visitors	MIT
@babel/helper-builder-react-jsx	Helper function to build react jsx	MIT
@babel/helper-call-delegate	Helper function to call delegate	MIT
@babel/helper-compilation-targets	Engine compat data used in @babel/preset-env	MIT
@babel/helper-create-class-features-plugin	Compile class public and private fields, private methods and decorators to ES6	MIT
@babel/helper-create-regexp-features-plugin	Compile ESNext Regular Expressions to ES5	MIT
@babel/helper-define-map	Helper function to define a map	MIT
@babel/helper-explode-assignable-expression	Helper function to explode an assignable expression	MIT
@babel/helper-function-name	Helper function to change the property 'name' of every function	MIT
@babel/helper-get-function-arity	Helper function to get function arity	MIT
@babel/helper-hoist-variables	Helper function to hoist variables	MIT
@babel/helper-member-expression-to-functions	Helper function to replace certain member expressions with function calls	MIT
@babel/helper-module-imports	Babel helper functions for inserting module loads	MIT
@babel/helper-module-transforms	Babel helper functions for implementing ES6 module transformations	MIT
@babel/helper-optimise-call-expression	Helper function to optimise call expression	MIT
@babel/helper-plugin-utils	General utilities for plugins to use	MIT
@babel/helper-regex	Helper function to check for literal RegEx	MIT
@babel/helper-remap-async-to-generator	Helper function to remap async functions to generators	MIT
@babel/helper-replace-supers	Helper function to replace supers	MIT
@babel/helper-simple-access	Babel helper for ensuring that access to a given value is performed through simple accesses	MIT
@babel/helper-split-export-declaration	>	MIT

Open Source Software Name	Description	Type of Open Source License
@babel/helper-validator-identifier	Validate identifier/keywords name	MIT
@babel/helper-wrap-function	Helper to wrap functions inside a function call.	MIT
@babel/helpers	Collection of helper functions used by Babel transforms.	MIT
@babel/highlight	Syntax highlight JavaScript strings for output in terminals.	MIT
@babel/parser	A JavaScript parser	MIT
@babel/plugin-proposal-async-generator-functions	Turn async generator functions into ES2015 generators	MIT
@babel/plugin-proposal-class-properties	This plugin transforms static class properties as well as properties declared with the property initializer syntax	MIT
@babel/plugin-proposal-class-decorators	Compile class and object decorators to ES5	MIT
@babel/plugin-proposal-dynamic-import	Transform import() expressions	MIT
@babel/plugin-proposal-json-strings	Escape U+2028 LINE SEPARATOR and U+2029 PARAGRAPH SEPARATOR in JS strings	MIT
@babel/plugin-proposal-nullish-coalescing-operator	Remove nullish coalescing operator	MIT
@babel/plugin-proposal-numeric-separator	Remove numeric separators from Decimal, Binary, Hex and Octal literals	MIT
@babel/plugin-proposal-object-rest-spread	Compile object rest and spread to ES5	MIT
@babel/plugin-proposal-optional-catch-binding	Compile optional catch bindings	MIT
@babel/plugin-proposal-optional-chaining	Transform optional chaining operators into a series of nil checks	MIT
@babel/plugin-proposal-unicode-property-regex	Compile Unicode property escapes in Unicode regular expressions to ES5.	MIT
@babel/plugin-syntax-async-generators	Allow parsing of async generator functions	MIT
@babel/plugin-syntax-decorators	Allow parsing of decorators	MIT
@babel/plugin-syntax-dynamic-import	Allow parsing of import()	MIT
@babel/plugin-syntax-flow	Allow parsing of the flow syntax	MIT

Open Source Software Name	Description	Type of Open Source License
@babel/plugin-syntax-json-strings	Allow parsing of the U+2028 LINE SEPARATOR and U+2029 PARAGRAPH SEPARATOR in JS strings	MIT
@babel/plugin-syntax-jsx	Allow parsing of jsx	MIT
@babel/plugin-syntax-nullish-coalescing-operator	Allow parsing of the nullish-coalescing operator	MIT
@babel/plugin-syntax-numeric-separator	Allow parsing of Decimal, Binary, Hex and Octal literals that contain a Numeric Literal Separator	MIT
@babel/plugin-syntax-object-rest-spread	Allow parsing of object rest/spread	MIT
@babel/plugin-syntax-optional-catch-binding	Allow parsing of optional catch bindings	MIT
@babel/plugin-syntax-optional-chaining	Allow parsing of optional properties	MIT
@babel/plugin-syntax-top-level-await	Allow parsing of top-level await in modules	MIT
@babel/plugin-syntax-typescript	Allow parsing of TypeScript syntax	MIT
@babel/plugin-transform-arrow-functions	Compile ES2015 arrow functions to ES5	MIT
@babel/plugin-transform-async-to-generator	Turn async functions into ES2015 generators	MIT
@babel/plugin-transform-block-scoped-functions	Babel plugin to ensure function declarations at the block level are block scoped	MIT
@babel/plugin-transform-block-scoping	Compile ES2015 block scoping (const and let) to ES5	MIT
@babel/plugin-transform-classes	Compile ES2015 classes to ES5	MIT
@babel/plugin-transform-computed-properties	Compile ES2015 computed properties to ES5	MIT
@babel/plugin-transform-destructuring	Compile ES2015 destructuring to ES5	MIT
@babel/plugin-transform-dotall-regex	Compile regular expressions using the `s` ('dotAll') flag to ES5.	MIT
@babel/plugin-transform-duplicate-keys	Compile objects with duplicate keys to valid strict ES5	MIT
@babel/plugin-transform-exponentiation-operator	Compile exponentiation operator to ES5	MIT

Open Source Software Name	Description	Type of Open Source License
@babel/plugin-transform-flow-strip-types	Strip flow type annotations from your output code.	MIT
@babel/plugin-transform-for-of	Compile ES2015 for...of to ES5	MIT
@babel/plugin-transform-function-name	Apply ES2015 function.name semantics to all functions	MIT
@babel/plugin-transform-literals	Compile ES2015 unicode string and number literals to ES5	MIT
@babel/plugin-transform-member-expression-literals	Ensure that reserved words are quoted in property accesses	MIT
@babel/plugin-transform-modules-amd	This plugin transforms ES2015 modules to AMD	MIT
@babel/plugin-transform-modules-commonjs	This plugin transforms ES2015 modules to CommonJS	MIT
@babel/plugin-transform-modules-systemjs	This plugin transforms ES2015 modules to SystemJS	MIT
@babel/plugin-transform-modules-umd	This plugin transforms ES2015 modules to UMD	MIT
@babel/plugin-transform-named-capturing-groups-regex	Compile regular expressions using named groups to ES5.	MIT
@babel/plugin-transform-new-target	Transforms new.target meta property	MIT
@babel/plugin-transform-object-assign	Replace Object.assign with an inline helper	MIT
@babel/plugin-transform-object-super	Compile ES2015 object super to ES5	MIT
@babel/plugin-transform-parameters	Compile ES2015 default and rest parameters to ES5	MIT
@babel/plugin-transform-property-literals	Ensure that reserved words are quoted in object property keys	MIT
@babel/plugin-transform-react-constant-elements	Treat React JSX elements as value types and hoist them to the highest scope	MIT
@babel/plugin-transform-react-display-name	Add displayName to React.createClass calls	MIT
@babel/plugin-transform-react-jsx	Turn JSX into React function calls	MIT
@babel/plugin-transform-react-jsx-self	Add a __self prop to all JSX Elements	MIT

Open Source Software Name	Description	Type of Open Source License
@babel/plugin-transform-react-jsx-source	Add a <code>__source</code> prop to all JSX Elements	MIT
@babel/plugin-transform-regenerator	Explode async and generator functions into a state machine.	MIT
@babel/plugin-transform-reserved-words	Ensure that no reserved words are used.	MIT
@babel/plugin-transform-runtime	Externalise references to helpers and builtins, automatically polyfilling your code without polluting globals	MIT
@babel/plugin-transform-shorthand-properties	Compile ES2015 shorthand properties to ES5	MIT
@babel/plugin-transform-spread	Compile ES2015 spread to ES5	MIT
@babel/plugin-transform-sticky-regex	Compile ES2015 sticky regex to an ES5 RegExp constructor	MIT
@babel/plugin-transform-template-literals	Compile ES2015 template literals to ES5	MIT
@babel/plugin-transform-typeof-symbol	This transformer wraps all typeof expressions with a method that replicates native behaviour. (ie. returning "symbol" for symbols)	MIT
@babel/plugin-transform-typescript	Transform TypeScript into ES.next	MIT
@babel/plugin-transform-unicode-regex	Compile ES2015 Unicode regex to ES5	MIT
@babel/polyfill	Provides polyfills necessary for a full ES2015+ environment	MIT
@babel/preset-env	A Babel preset for each environment.	MIT
@babel/preset-modules	A Babel preset that targets modern browsers by fixing engine bugs.	MIT
@babel/preset-react	Babel preset for all React plugins.	MIT
@babel/preset-typescript	Babel preset for TypeScript.	MIT
@babel/register	babel require hook	MIT
@babel/runtime	babel's modular runtime helpers	MIT
@babel/template	Generate an AST from a string template.	MIT
@babel/traverse	The Babel Traverse module maintains the overall tree state, and is responsible for replacing, removing, and adding nodes	MIT

Open Source Software Name	Description	Type of Open Source License
@babel/types	Babel Types is a Lodash-esque utility library for AST nodes	MIT
@develar/schema-utils	webpack Validation Utils	MIT
@ember-data/-build-infra	The default blueprint for ember-data private packages.	MIT
@ember-data/adapters	The default blueprint for ember-cli addons.	MIT
@ember-data/canary-features	Canary features	MIT
@ember-data/debug	Provides developer ergonomics and dev-mode enhancements for apps built with ember-data	MIT
@ember-data/model	The default blueprint for ember-cli addons.	MIT
@ember-data/private-build-infra	The default blueprint for ember-data private packages.	MIT
@ember-data/record-data	Provides the default RecordData implementation for ember-data	MIT
@ember-data/rfc395-data	JSON data for Ember.js RFC #395	MIT
@ember-data/serializer	The default blueprint for ember-cli addons.	MIT
@ember-data/store	The default blueprint for ember-cli addons.	MIT
@ember-decorators/component	Decorators for Ember Components	MIT
@ember-decorators/object	Decorators for Ember Classes	MIT
@ember-decorators/utils	Utilities used by the Ember Decorators project	MIT
@ember-intl/broccoli-cldr-data	extracts cldr data to a broccoli directory	MIT
@ember-intl/decorators	Decorators for using ember-intl with ES6 class syntax	MIT
@ember/edition-utils	Utilities to detect if a given edition is in use in an ember-cli application.	MIT
@ember/optional-features	The default blueprint for ember-cli addons.	MIT
@ember/ordered-set	The default blueprint for ember-cli addons.	MIT
@ember/render-modifiers	Implements did-insert / did-update / will-destroy modifiers for emberjs/rfcs#415	MIT
@embroider/core	A build system for EmberJS applications.	MIT
@embroider/macros	Standardized build-time macros for ember apps.	MIT
@emotion/is-prop-valid	A function to check whether a prop is valid for HTML and SVG elements	MIT

Open Source Software Name	Description	Type of Open Source License
@emotion/memoize	emotion's memoize utility	MIT
@emotion/unitless	An object of css properties that don't accept values with units	MIT
@glimmer/component	Glimmer component library	MIT
@glimmer/di	Dependency injection support for Glimmer applications.	MIT
@glimmer/env	Glimmer application environment variables stub	MIT
@glimmer/interfaces		MIT
@glimmer/resolver	Resolver for Glimmer apps.	MIT
@glimmer/syntax		MIT
@glimmer/util	Common utilities used in Glimmer	MIT
@html-next/vertical-collection	infinite-scroll, done right. done.	MIT
@istanbuljs/schema	Schemas describing various structures used by nyc and istanbuljs	MIT
@jest/console		MIT
@jest/core	Delightful JavaScript Testing.	MIT
@jest/environment		MIT
@jest/fake-timers		MIT
@jest/reporters	Jest's reporters	MIT
@jest/source-map		MIT
@jest/test-result		MIT
@jest/test-sequencer		MIT
@jest/transform		MIT
@jest/types		MIT
@jimp/bmp	Default Jimp bmp encoder/decoder.	MIT
@jimp/core	Jimp core	MIT
@jimp/custom	Interface to customize jimp configuration	MIT
@jimp/gif	Default Jimp gif encoder/decoder.	MIT
@jimp/jpeg	Default Jimp jpeg encoder/decoder.	MIT
@jimp/plugin-blit	Blit an image.	MIT

Open Source Software Name	Description	Type of Open Source License
@jimp/plugin-blur	blur an image.	MIT
@jimp/plugin-color	Bitmap manipulation to adjust the color in an image.	MIT
@jimp/plugin-contain	contain an image.	MIT
@jimp/plugin-cover	cover an image.	MIT
@jimp/plugin-crop	crop an image.	MIT
@jimp/plugin-displace	displace an image.	MIT
@jimp/plugin-dither	Dither an image.	MIT
@jimp/plugin-flip	flip an image.	MIT
@jimp/plugin-gaussian	gaussian blur an image.	MIT
@jimp/plugin-invert	invert an image.	MIT
@jimp/plugin-mask	mask an image.	MIT
@jimp/plugin-normalize	normalize an image.	MIT
@jimp/plugin-print	print an image.	MIT
@jimp/plugin-resize	Resize an image.	MIT
@jimp/plugin-rotate	Rotate an image.	MIT
@jimp/plugin-scale	scale an image.	MIT
@jimp/plugins	Default Jimp plugin.	MIT
@jimp/png	Default Jimp png encoder/decoder.	MIT
@jimp/tiff	Default Jimp tiff encoder/decoder.	MIT
@jimp/types	Default Jimp encoder/decoders.	MIT
@jimp/utls	Utils for jimp extensions.	MIT
@miragejs/pretender-node-polyfill		MIT
@miragejs/server	A client-side server to help you build, test and demo your JavaScript app	MIT
@mrmlnc/readdir-enhanced	fs.readdir with sync, async, and streaming APIs + filtering, recursion, absolute paths, etc.	MIT
@nodelib/fs.scandir	List files and directories inside the specified directory	MIT
@nodelib/fs.stat	Get the status of a file with some features	MIT

Open Source Software Name	Description	Type of Open Source License
@nodelib/fs.walk	A library for efficiently walking a directory recursively	MIT
@otplib/core	core method for otplib	MIT
@otplib/plugin-crypto	node crypto plugin for otplib	MIT
@otplib/plugin-thirty-two	thirty-two plugin for otplib	MIT
@otplib/preset-default	basic preset for otplib	MIT
@otplib/preset-v11	v11.x compatible interface preset for otplib	MIT
@simple-dom/interface	Simple DOM typescript interfaces	MIT
@sindresorhus/is	Type check values: <code>`is.string(' ') //=> true`</code>	MIT
@slack/bolt	A framework for building Slack apps, fast.	MIT
@slack/logger	Logging utility used by Node Slack SDK	MIT
@slack/types	Shared type definitions for the Node Slack SDK	MIT
@slack/web-api	Official library for using the Slack Platform's Web API	MIT
@svgr/babel-plugin-add-jsx-attribute	Add JSX attribute	MIT
@svgr/babel-plugin-remove-jsx-attribute	Remove JSX attribute	MIT
@svgr/babel-plugin-remove-jsx-empty-expression	Remove JSX empty expression	MIT
@svgr/babel-plugin-replace-jsx-attribute-value	Replace JSX attribute value	MIT
@svgr/babel-plugin-svg-dynamic-title	Transform SVG by adding a dynamic title element	MIT
@svgr/babel-plugin-svg-em-dimensions	Transform SVG to use em-based dimensions	MIT
@svgr/babel-plugin-transform-react-native-svg	Transform DOM elements into react-native-svg components	MIT
@svgr/babel-plugin-transform-svg-component	Transform SVG into component	MIT
@svgr/babel-preset	SVGR preset that apply transformations from config	MIT
@svgr/core	Transform SVG into React Components.	MIT
@svgr/hast-util-to-babel-ast	Transform HAST to Babel AST (JSX)	MIT

Open Source Software Name	Description	Type of Open Source License
@svgr/plugin-jsx	Transform SVG into JSX	MIT
@svgr/plugin-svg	Optimize SVG	MIT
@svgr/webpack	SVGR webpack loader.	MIT
@szmarczak/http-timer	Timings for HTTP requests	MIT
@types/acorn	TypeScript definitions for Acorn	MIT
@types/anymatch	TypeScript definitions for anymatch	MIT
@types/babel__core	TypeScript definitions for @babel/core	MIT
@types/babel__generator	TypeScript definitions for @babel/generator	MIT
@types/babel__template	TypeScript definitions for @babel/template	MIT
@types/babel__traverse	TypeScript definitions for @babel/traverse	MIT
@types/body-parser	TypeScript definitions for body-parser	MIT
@types/broccoli-plugin	TypeScript definitions for broccoli-plugin	MIT
@types/bytebuffer	TypeScript definitions for bytebuffer.js	MIT
@types/chai	TypeScript definitions for chai	MIT
@types/chai-as-promised	TypeScript definitions for chai-as-promised	MIT
@types/color-name	TypeScript definitions for color-name	MIT
@types/connect	TypeScript definitions for connect	MIT
@types/cookiejar	TypeScript definitions for CookieJar	MIT
@types/debug	TypeScript definitions for debug	MIT
@types/ember	TypeScript definitions for Ember.js	MIT
@types/ember__application	TypeScript definitions for @ember/application	MIT
@types/ember__array	TypeScript definitions for @ember/array	MIT
@types/ember__component	TypeScript definitions for @ember/component	MIT
@types/ember__controller	TypeScript definitions for @ember/controller	MIT
@types/ember__debug	TypeScript definitions for @ember/debug	MIT
@types/ember__engine	TypeScript definitions for non-npm package @ember/engine	MIT
@types/ember__error	TypeScript definitions for non-npm package @ember/error	MIT
@types/ember__object	TypeScript definitions for @ember/object	MIT

Open Source Software Name	Description	Type of Open Source License
@types/ember__polyfills	TypeScript definitions for @ember/polyfills	MIT
@types/ember__routing	TypeScript definitions for @ember/routing	MIT
@types/ember__runloop	TypeScript definitions for @ember/runloop	MIT
@types/ember__service	TypeScript definitions for @ember/service	MIT
@types/ember__string	TypeScript definitions for @ember/string	MIT
@types/ember__template	TypeScript definitions for @ember/template	MIT
@types/ember__test	TypeScript definitions for @ember/test	MIT
@types/ember__utils	TypeScript definitions for @ember/utils	MIT
@types/error-stack-parser	TypeScript definitions for ErrorStackParser v1.3.3	MIT
@types/estree	TypeScript definitions for ESTree AST specification	MIT
@types/events	TypeScript definitions for events	MIT
@types/express	TypeScript definitions for Express	MIT
@types/express-serve-static-core	TypeScript definitions for Express	MIT
@types/fs-extra	TypeScript definitions for fs-extra	MIT
@types/glob	TypeScript definitions for Glob	MIT
@types/hapi__joi	TypeScript definitions for @hapi/joi	MIT
@types/htmlbars-inline-precompile	TypeScript definitions for non-npm package htmlbars-inline-precompile	MIT
@types/is-stream	TypeScript definitions for is-stream	MIT
@types/istanbul-lib-coverage	TypeScript definitions for istanbul-lib-coverage	MIT
@types/istanbul-lib-report	TypeScript definitions for istanbul-lib-report	MIT
@types/istanbul-reports	TypeScript definitions for istanbul-reports	MIT
@types/jquery	TypeScript definitions for jquery	MIT
@types/lodash	TypeScript definitions for Lo-Dash	MIT
@types/long	TypeScript definitions for long.js	MIT
@types/mime	TypeScript definitions for mime	MIT
@types/mime-types	TypeScript definitions for mime-types	MIT
@types/minimatch	TypeScript definitions for Minimatch	MIT
@types/node	TypeScript definitions for Node.js	MIT
@types/p-queue	TypeScript definitions for p-queue	MIT

Open Source Software Name	Description	Type of Open Source License
@types/q	TypeScript definitions for Q	MIT
@types/qs	TypeScript definitions for qs	MIT
@types/range-parser	TypeScript definitions for range-parser	MIT
@types/redis	TypeScript definitions for redis	MIT
@types/retry	TypeScript definitions for retry	MIT
@types/rimraf	TypeScript definitions for rimraf	MIT
@types/rsvp	TypeScript definitions for RSVP	MIT
@types/serve-static	TypeScript definitions for serve-static	MIT
@types/sizzle	TypeScript definitions for sizzle	MIT
@types/source-list-map	TypeScript definitions for source-list-map	MIT
@types/stack-utils	TypeScript definitions for stack-utils	MIT
@types/superagent	TypeScript definitions for SuperAgent	MIT
@types/symlink-or-copy	TypeScript definitions for symlink-or-copy	MIT
@types/tapable	TypeScript definitions for tapable	MIT
@types/uglify-js	TypeScript definitions for UglifyJS	MIT
@types/webpack	TypeScript definitions for webpack	MIT
@types/webpack-sources	TypeScript definitions for webpack-sources	MIT
@types/yargs	TypeScript definitions for yargs	MIT
@typescript-eslint/eslint-plugin	TypeScript plugin for ESLint	MIT
@webassemblyjs/ast	AST utils for webassemblyjs	MIT
@webassemblyjs/floating-point-hex-parser	A function to parse floating point hexadecimal strings as defined by the WebAssembly specification	MIT
@webassemblyjs/helper-api-error	Common API errors	MIT
@webassemblyjs/helper-buffer	Buffer manipulation utility	MIT
@webassemblyjs/helper-code-frame		MIT
@webassemblyjs/helper-module-context		MIT
@webassemblyjs/helper-wasm-bytecode	WASM's Bytecode constants	MIT

Open Source Software Name	Description	Type of Open Source License
@webassemblyjs/helper-wasm-section		MIT
@webassemblyjs/ieee754	IEEE754 decoder and encoder	MIT
@webassemblyjs/leb128	LEB128 decoder and encoder	MIT
@webassemblyjs/utf8	UTF8 encoder/decoder for WASM	MIT
@webassemblyjs/wasm-edit	> Rewrite a WASM binary	MIT
@webassemblyjs/wasm-gen	WebAssembly binary format printer	MIT
@webassemblyjs/wasm-opt		MIT
@webassemblyjs/wasm-parser	WebAssembly binary format parser	MIT
@webassemblyjs/wast-parser	WebAssembly text format parser	MIT
@webassemblyjs/wast-printer	WebAssembly text format printer	MIT
7zip-bin	7-Zip precompiled binaries	MIT
abort-controller	An implementation of WHATWG AbortController interface.	MIT
abortcontroller-polyfill	Polyfill/ponyfill for the AbortController DOM API + optional patching of fetch (stub that calls catch, doesn't actually abort request).	MIT
accepts	Higher-level content negotiation	MIT
acorn	ECMAScript parser	MIT
acorn-dynamic-import	Support dynamic imports in acorn	MIT
acorn-globals	Detect global variables in JavaScript using acorn	MIT
acorn-hammerhead	This [Acorn.js](https://github.com/acornjs/acorn) version contains only features used by [TestCafe Hammerhead](https://github.com/DevExpress/testcafe-hammerhead).	MIT
acorn-jsx	Modern, fast React.js JSX parser	MIT
acorn-walk	ECMAScript (ESTree) AST walker	MIT
address	Get current machine IP, MAC and DNS servers.	MIT
after	after - tiny flow control	MIT
agent-base	Turn a function into an `http.Agent` instance	MIT
agentkeepalive	Missing keepalive http.Agent	MIT
aggregate-error	Create an error from multiple errors	MIT

Open Source Software Name	Description	Type of Open Source License
ajv	Another JSON Schema Validator	MIT
ajv-errors	Custom error messages in JSON-Schema for Ajv validator	MIT
ajv-keywords	Custom JSON-Schema keywords for Ajv validator	MIT
align-text	Align the text in a string.	MIT
alphanum-sort	Alphanumeric sorting algorithm	MIT
amd-name-resolver	AMD module name resolver algorithm	MIT
ansi-colors	Easily add ANSI colors to your text and symbols in the terminal. A faster drop-in replacement for chalk, kleur and turbocolor (without the dependencies and rendering bugs).	MIT
ansi-cyan	The color cyan, in ansi.	MIT
ansi-escapes	ANSI escape codes for manipulating the terminal	MIT
ansi-gray	The color gray, in ansi.	MIT
ansi-red	The color red, in ansi.	MIT
ansi-regex	Regular expression for matching ANSI escape codes	MIT
ansi-styles	ANSI escape codes for styling strings in the terminal	MIT
ansi-to-html	Convert ansi escaped text streams to html.	MIT
ansi-wrap	Create ansi colors by passing the open and close codes.	MIT
ansicolors	Functions that surround a string with ansicolor codes so it prints in color.	MIT
any-base	Converter from any base to other any base	MIT
any-promise	Resolve any installed ES6 compatible promise	MIT
app-builder-bin	app-builder precompiled binaries	MIT
app-builder-lib	electron-builder lib	MIT
app-root-path	Determine an app's root path from anywhere inside the app	MIT
append-buffer	Append a buffer to another buffer ensuring to preserve line ending characters.	MIT

Open Source Software Name	Description	Type of Open Source License
append-field	A [W3C HTML JSON forms spec](http://www.w3.org/TR/html-json-forms/) compliant field appender (for lack of a better name). Useful for people implementing `application/x-www-form-urlencoded` and `multipart/form-data` parsers.	MIT
append-transform	Install a transform to `require.extensions` that always runs last, even if additional extensions are added later.	MIT
applause	Pattern replacer that helps creating human-friendly replacements.	MIT
archive-type	Detect the archive type of a Buffer/Uint8Array	MIT
archiver	a streaming interface for archive generation	MIT
archiver-utils	utility functions for archiver	MIT
archy	render nested hierarchies `npm ls` style with unicode pipes	MIT
arg	Another simple argument parser	MIT
argparse	Very powerful CLI arguments parser. Native port of argparse - python's options parsing library	MIT
arr-diff	Returns an array with only the unique values from the first array, by excluding all values from additional arrays using strict equality for comparisons.	MIT
arr-filter	Faster alternative to javascript's native filter method.	MIT
arr-flatten	Recursively flatten an array or arrays.	MIT
arr-map	Faster, node.js focused alternative to JavaScript's native array map.	MIT
arr-union	Combines a list of arrays, returning a single array with unique values, using strict equality for comparisons.	MIT
array-differ	Create an array with values that are present in the first input array but not additional ones	MIT
array-each	Loop over each item in an array and call the given function on every element.	MIT
array-equal	check if two arrays are equal	MIT
array-filter	Array#filter for older browsers.	MIT

Open Source Software Name	Description	Type of Open Source License
array-find	ES6 Array.find ponyfill. Return the first array element which satisfies a testing function.	MIT
array-find-index	ES2015 `Array#findIndex()` ponyfill	MIT
array-flatten	Flatten nested arrays	MIT
array-from	A ponyfill for the ES 2015 (ES6) `Array.from()`.	MIT
array-includes	An ES7/ES2016 spec-compliant `Array.prototype.includes` shim/polyfill/replacement that works as far down as ES3.	MIT
array-initial	Get all but the last element or last n elements of an array.	MIT
array-last	Get the last or last n elements in an array.	MIT
array-map	<code>Array.prototype.map()</code> for older browsers	MIT
array-reduce	<code>Array.prototype.reduce()</code> for old browsers	MIT
array-slice	Array-slice method. Slices `array` from the `start` index up to, but not including, the `end` index.	MIT
array-sort	Fast and powerful array sorting. Sort an array of objects by one or more properties. Any number of nested properties or custom comparison functions may be used.	MIT
array-to-error	Create an error from an array of error messages	MIT
array-to-sentence	Join all elements of an array and create a human-readable string	MIT
array-union	Create an array of unique values, in order, from the input arrays	MIT
array-uniq	Create an array without duplicates	MIT
array-unique	Remove duplicate values from an array. Fastest ES5 implementation.	MIT
array.prototype.flat	An ES2019 spec-compliant `Array.prototype.flat` shim/polyfill/replacement that works as far down as ES3.	MIT
arraybuffer.slice	Exports a function for slicing ArrayBuffers (no polyfilling)	MIT
arrify	Convert a value to an array	MIT
arrive	arrive.js provides events to watch for DOM elements creation and removal. It makes use of Mutation Observers internally.	MIT

Open Source Software Name	Description	Type of Open Source License
asap	High-priority task queue for Node.js and browsers	MIT
asar	Creating Electron app packages	MIT
asn1	Contains parsers and serializers for ASN.1 (currently BER only)	MIT
asn1.js	ASN.1 encoder and decoder	MIT
assert	The node.js assert module, re-packaged for web browsers.	MIT
assert-never	Helper function for exhaustive checks of discriminated unions in TypeScript	MIT
assert-plus	Extra assertions on top of node's assert module	MIT
assertion-error	Error constructor for test and validation frameworks that implements standardized AssertionError specification.	MIT
assign-symbols	Assign the enumerable es6 Symbol properties from an object (or objects) to the first object passed on the arguments. Can be used as a supplement to other extend, assign or merge methods as a polyfill for the Symbols part of the es6 Object.assign method.	MIT
ast-types	Esprima-compatible implementation of the Mozilla JS Parser API	MIT
astral-regex	Regular expression for matching astral symbols	MIT
async	Higher-order functions and common patterns for asynchronous code	MIT
async-disk-cache	Async disk cache	MIT
async-done	Allows libraries to handle various caller provided asynchronous functions uniformly. Maps promises, observables, child processes and streams, and callbacks to callback style.	MIT
async-each	No-bullshit, ultra-simple, 35-lines-of-code async parallel forEach / map function for JavaScript.	MIT
async-exit-hook	Run some code when the process exits (supports async hooks and pm2 clustering)	MIT
async-hook-jl	Inspect the life of handle objects in node	MIT
async-limiter	asynchronous function queue with adjustable concurrency	MIT

Open Source Software Name	Description	Type of Open Source License
async-promise-queue	wrapper around async.queue to make some common usages simpler	MIT
async-settle	Settle an async function.	MIT
asynckit	Minimal async jobs utility library, with streams support	MIT
autolinker	Utility to automatically link the URLs, email addresses, phone numbers, hashtags, and mentions (Twitter, Instagram) in a given block of text/HTML	MIT
autoprefixer	Parse CSS and add vendor prefixes to CSS rules using values from the Can I Use website	MIT
aws4	Signs and prepares requests using AWS Signature Version 4	MIT
axios	Promise based HTTP client for the browser and node.js	MIT
babel-code-frame	Generate errors that contain a code frame that point to source locations.	MIT
babel-core	Babel compiler core.	MIT
babel-eslint	Custom parser for ESLint	MIT
babel-extract-comments	Uses babel (babylon) to extract JavaScript code comments from a JavaScript string or file.	MIT
babel-generator	Turns an AST into code.	MIT
babel-helper-bindify-decorators	Helper function to bindify decorators	MIT
babel-helper-builder-binary-assignment-operator-visitor	Helper function to build binary assignment operator visitors	MIT
babel-helper-call-delegate	Helper function to call delegate	MIT
babel-helper-define-map	Helper function to define a map	MIT
babel-helper-explode-assignable-expression	Helper function to explode an assignable expression	MIT
babel-helper-explode-class	Helper function to explode class	MIT
babel-helper-function-name	Helper function to change the property 'name' of every function	MIT
babel-helper-get-function-arity	Helper function to get function arity	MIT
babel-helper-hoist-variables	Helper function to hoist variables	MIT

Open Source Software Name	Description	Type of Open Source License
babel-helper-optimise-call-expression	Helper function to optimise call expression	MIT
babel-helper-regex	Helper function to check for literal RegEx	MIT
babel-helper-remap-async-to-generator	Helper function to remap async functions to generators	MIT
babel-helper-replace-supers	Helper function to replace supers	MIT
babel-helpers	Collection of helper functions used by Babel transforms.	MIT
babel-jest	Jest plugin to use babel for transformation.	MIT
babel-loader	babel module loader for webpack	MIT
babel-messages	Collection of debug messages used by Babel.	MIT
babel-plugin-check-es2015-constants	Compile ES2015 constants to ES5	MIT
babel-plugin-debug-macros	Debug macros and feature flag stripping	MIT
babel-plugin-dynamic-import-node	Babel plugin to transpile import() to a deferred require(), for node	MIT
babel-plugin-ember-data-packages-polyfill	Polyfill for EmberData Packages API.	MIT
babel-plugin-ember-modules-api-polyfill	Polyfill for Ember JS API.	MIT
babel-plugin-feature-flags	A babel transform for managing feature flags	MIT
babel-plugin-filter-imports	A babel transform for filtering out imports	MIT
babel-plugin-htmlbars-inline-precompile	Babel plugin to replace tagged template strings with precompiled HTMLBars templates	MIT
babel-plugin-jest-hoist	Babel plugin to hoist `jest.disableAutomock`, `jest.enableAutomock`, `jest.unmock`, `jest.mock`, calls above `import` statements. This plugin is automatically included when using [babel-jest] (https://github.com/facebook/jest/tree/master/packages/babel-jest).	MIT
babel-plugin-macros	Allows you to build compile-time libraries	MIT
babel-plugin-module-resolver	Module resolver plugin for Babel	MIT
babel-plugin-named-asset-import	Babel plugin for named asset imports in Create React App	MIT

Open Source Software Name	Description	Type of Open Source License
babel-plugin-styled-components	Improve the debugging experience and add server-side rendering support to styled-components	MIT
babel-plugin-syntax-async-functions	Allow parsing of async functions	MIT
babel-plugin-syntax-async-generators	Allow parsing of async generator functions	MIT
babel-plugin-syntax-class-properties	Allow parsing of class properties	MIT
babel-plugin-syntax-decorators	Allow parsing of decorators	MIT
babel-plugin-syntax-dynamic-import	Allow parsing of import()	MIT
babel-plugin-syntax-exponentiation-operator	Allow parsing of the exponentiation operator	MIT
babel-plugin-syntax-flow	Allow parsing of the flow syntax	MIT
babel-plugin-syntax-jsx	Allow parsing of jsx	MIT
babel-plugin-syntax-object-rest-spread	Allow parsing of object rest/spread	MIT
babel-plugin-syntax-trailing-function-commas	Compile trailing function commas to ES5	MIT
babel-plugin-transform-async-generator-functions	Turn async generator functions into ES2015 generators	MIT
babel-plugin-transform-async-to-generator	Turn async functions into ES2015 generators	MIT
babel-plugin-transform-builtin-extend	A plugin for Babel 6 supports extending from builtin types based on static analysis.	MIT
babel-plugin-transform-class-properties	This plugin transforms static class properties as well as properties declared with the property initializer syntax	MIT
babel-plugin-transform-decorators	Compile class and object decorators to ES5	MIT
babel-plugin-transform-es2015-arrow-functions	Compile ES2015 arrow functions to ES5	MIT
babel-plugin-transform-es2015-block-scoped-functions	Babel plugin to ensure function declarations at the block level are block scoped	MIT
babel-plugin-transform-es2015-block-scoping	Compile ES2015 block scoping (const and let) to ES5	MIT

Open Source Software Name	Description	Type of Open Source License
babel-plugin-transform-es2015-classes	Compile ES2015 classes to ES5	MIT
babel-plugin-transform-es2015-computed-properties	Compile ES2015 computed properties to ES5	MIT
babel-plugin-transform-es2015-destructuring	Compile ES2015 destructuring to ES5	MIT
babel-plugin-transform-es2015-duplicate-keys	Compile objects with duplicate keys to valid strict ES5	MIT
babel-plugin-transform-es2015-for-of	Compile ES2015 for...of to ES5	MIT
babel-plugin-transform-es2015-function-name	Apply ES2015 function.name semantics to all functions	MIT
babel-plugin-transform-es2015-literals	Compile ES2015 unicode string and number literals to ES5	MIT
babel-plugin-transform-es2015-modules-amd	This plugin transforms ES2015 modules to AMD	MIT
babel-plugin-transform-es2015-modules-commonjs	This plugin transforms ES2015 modules to CommonJS	MIT
babel-plugin-transform-es2015-modules-systemjs	This plugin transforms ES2015 modules to SystemJS	MIT
babel-plugin-transform-es2015-modules-umd	This plugin transforms ES2015 modules to UMD	MIT
babel-plugin-transform-es2015-object-super	Compile ES2015 object super to ES5	MIT
babel-plugin-transform-es2015-parameters	Compile ES2015 default and rest parameters to ES5	MIT
babel-plugin-transform-es2015-shorthand-properties	Compile ES2015 shorthand properties to ES5	MIT
babel-plugin-transform-es2015-spread	Compile ES2015 spread to ES5	MIT
babel-plugin-transform-es2015-sticky-regex	Compile ES2015 sticky regex to an ES5 RegExp constructor	MIT
babel-plugin-transform-es2015-template-literals	Compile ES2015 template literals to ES5	MIT
babel-plugin-transform-es2015-typeof-symbol	This transformer wraps all typeof expressions with a method that replicates native behaviour. (ie. returning "symbol" for symbols)	MIT

Open Source Software Name	Description	Type of Open Source License
babel-plugin-transform-es2015-unicode-regex	Compile ES2015 Unicode regex to ES5	MIT
babel-plugin-transform-exponentiation-operator	Compile exponentiation operator to ES5	MIT
babel-plugin-transform-flow-strip-types	Strip flow type annotations from your output code.	MIT
babel-plugin-transform-for-of-as-array	Transform all for-of loops into the equivalent array for loop	MIT
babel-plugin-transform-object-rest-spread	Compile object rest and spread to ES5	MIT
babel-plugin-transform-react-remove-prop-types	Remove unnecessary React propTypes from the production build	MIT
babel-plugin-transform-regenerator	Explode async and generator functions into a state machine.	MIT
babel-plugin-transform-runtime	Externalise references to helpers and builtins, automatically polyfilling your code without polluting globals	MIT
babel-plugin-transform-strict-mode	This plugin places a 'use strict'; directive at the top of all files to enable strict mode	MIT
babel-polyfill	Provides polyfills necessary for a full ES2015+ environment	MIT
babel-preset-env	A Babel preset for each environment.	MIT
babel-preset-flow	Babel preset for all Flow plugins.	MIT
babel-preset-jest	> Babel preset for all Jest plugins. This preset is automatically included when using [babel-jest] (https://github.com/facebook/jest/tree/master/packages/babel-jest).	MIT
babel-preset-react-app	Babel preset used by Create React App	MIT
babel-preset-stage-2	Babel preset for stage 2 plugins	MIT
babel-preset-stage-3	Babel preset for stage 3 plugins	MIT
babel-register	babel require hook	MIT
babel-runtime	babel selfContained runtime	MIT
babel-template	Generate an AST from a string template.	MIT
babel-traverse	The Babel Traverse module maintains the overall tree state, and is responsible for replacing, removing, and adding nodes	MIT

Open Source Software Name	Description	Type of Open Source License
babel-types	Babel Types is a Lodash-esque utility library for AST nodes	MIT
babel6-plugin-strip-class-callcheck	Strips classCallCheck from babel6 output	MIT
babylon	A JavaScript parser	MIT
bach	Compose your async functions with elegance.	MIT
backbone	Give your JS App some Backbone with Models, Views, Collections, and Events.	MIT
backo2	simple backoff based on segmentio/backo	MIT
balanced-match	Match balanced character pairs, like {“ and ”}”	MIT
base	base is the foundation for creating modular, unit testable and highly pluggable node.js applications, starting with a handful of common methods, like `set`, `get`, `del` and `use`.	MIT
base-64	A robust base64 encoder/decoder that is fully compatible with `atob()` and `btoa()`, written in JavaScript.	MIT
base32.js	Base 32 encodings for JavaScript	MIT
base64-arraybuffer	Encode/decode base64 data into ArrayBuffers	MIT
base64-js	Base64 encoding/decoding in pure JS	MIT
base64id	Generates a base64 id	MIT
basic-auth	node.js basic auth parser	MIT
batch	Simple async batch with concurrency control and progress reporting.	MIT
batch-processor	Batch processing in JS	MIT
bcryptjs	Optimized bcrypt in plain JavaScript with zero dependencies. Compatible to 'bcrypt'.	MIT
big.js	A small, fast, easy-to-use library for arbitrary-precision decimal arithmetic	MIT
bignumber.js	A library for arbitrary-precision decimal and non-decimal arithmetic	MIT
bin-build	Easily build binaries	MIT
bin-v8-flags-filter	Filters out v8 flags for your Node.js CLIs.	MIT
binary-extensions	List of binary file extensions	MIT

Open Source Software Name	Description	Type of Open Source License
binaryextensions	A package that contains an array of every single file extension there is for binary files	MIT
bindings	Helper module for loading your native module's .node file	MIT
bl	Buffer List: collect buffers and access with a standard readable Buffer interface, streamable too!	MIT
blamer	blamer is a tool for getting information about author of code from version control system	MIT
blank-object	A faster alternative to Object.create(null)	MIT
blob	Abstracts out Blob and uses BlobBulder in cases where it is supported with any vendor prefix.	MIT
bluebird	Full featured Promises/A+ implementation with exceptionally good performance	MIT
bluebird-1st	Bluebird — longStackTraces: true, cancellation: true	MIT
bluebird-retry	utility for retrying a bluebird promise until it succeeds	MIT
blueimp-md5	JavaScript MD5 implementation. Compatible with server-side environments like Node.js, module loaders like RequireJS, Browserify or webpack and all web browsers.	MIT
bmp-js	A pure javascript BMP encoder and decoder	MIT
bn.js	Big number implementation in pure javascript	MIT
body	Body parsing	MIT
body-parser	Node.js body parsing middleware	MIT
bodybuilder	An elasticsearch query body builder.	MIT
boilerplate-update	Update boilerplate code between versions	MIT
bonjour	A Bonjour/Zeroconf implementation in pure JavaScript	MIT
bootstrap	The most popular front-end framework for developing responsive, mobile first projects on the web.	MIT
bootstrap-material-design	Material Design for Bootstrap 4	MIT
bops	buffer operations	MIT
bower-config	The Bower config reader and writer.	MIT
bower-endpoint-parser	Little module that helps with endpoints parsing.	MIT

Open Source Software Name	Description	Type of Open Source License
browser	Lightweight browser detector	MIT
boxen	Create boxes in the terminal	MIT
brace-expansion	Brace expansion as known from sh/bash	MIT
braces	Bash-like brace expansion, implemented in JavaScript. Safer than other brace expansion libs, with complete support for the Bash 4.3 braces specification, without sacrificing speed.	MIT
broccoli	Fast client-side asset builder	MIT
broccoli-amd-funnel	Funnel based on whether a module is AMD or not	MIT
broccoli-asset-rev	broccoli asset revisions (fingerprint)	MIT
broccoli-asset-rewrite	broccoli plugin to rewrite a source tree from an asset map.	MIT
broccoli-autoprefixer	Prefix CSS using Autoprefixer	MIT
broccoli-babel-transpiler	A Broccoli plugin which transpile ES6 to readable ES5 by using babel.	MIT
broccoli-bridge	A utility for bridging dependencies between Broccoli nodes	MIT
broccoli-builder	Fast client-side asset builder	MIT
broccoli-caching-writer	Broccoli plugin that allows simple caching (while still allowing N:N) based on the input tree hash.	MIT
broccoli-clean-css	CSS minifier for Broccoli, using clean-css	MIT
broccoli-concat	Fast, good-enough concatenation with source maps.	MIT
broccoli-config-loader	Write your project's environments' configs out to JSON files.	MIT
broccoli-config-replace	Simple templating using a config.json and regex patterns	MIT
broccoli-debug	Enable easy debugging of broccoli pipelines with broccoli-debug!	MIT
broccoli-favicon	Generate favicons and HTML using Favicons package	MIT
broccoli-file-creator	Broccoli plugin to create a file.	MIT
broccoli-filter	Helper base class for Broccoli plugins that map input files into output files one-to-one	MIT

Open Source Software Name	Description	Type of Open Source License
broccoli-flatiron	Broccoli plugin to create json objects from directory structures	MIT
broccoli-funnel	Broccoli plugin that allows you to filter files selected from an input node down based on regular expressions.	MIT
broccoli-kitchen-sink-helpers	Collection of helpers that need to be extracted into separate packages	MIT
broccoli-lint-eslint	broccoli filter that runs eslint	MIT
broccoli-merge-trees	Broccoli plugin to merge multiple trees into one	MIT
broccoli-middleware	Broccoli asset builder middleware	MIT
broccoli-module-normalizer	Broccoli plugin to remove `modules/` subdirectory from legacy ember-cli addons.	MIT
broccoli-module-unification-reexporter	Broccoli plugin to reexport components etc. in the `app/` namespace for legacy ember-cli apps.	MIT
broccoli-node-api	Broccoli Plugin API Types	MIT
broccoli-node-info	Inspect Broccoli nodes; thin wrapper around <code>node.__broccoliGetInfo__()</code>	MIT
broccoli-output-wrapper	Output wrapper is a library to write output file to outputpath.	MIT
broccoli-persistent-filter	broccoli filter but with a persistent cache	MIT
broccoli-plugin	Base class for all Broccoli plugins	MIT
broccoli-postcss	Postcss compiler for Broccoli	MIT
broccoli-postcss-single	Postcss compiler for Broccoli, operates on individual files.	MIT
broccoli-replace	Replace text patterns with applause.	MIT
broccoli-rollup	Rollup integration with broccoli	MIT
broccoli-sass-lint	Pure Node.js scss/sass linting for Broccoli-based projects	MIT
broccoli-sass-source-maps	Libsass-based Sass compiler for Broccoli	MIT
broccoli-slow-trees	Print out of slowest trees for Broccoli.	MIT
broccoli-source	Broccoli plugin for referring to source directories on the file system	MIT
broccoli-sri-hash	Generates SRI hashes for html files	MIT
broccoli-stew	foundation of any healthy brocfile	MIT

Open Source Software Name	Description	Type of Open Source License
broccoli-string-replace	Broccoli plugin to replace a matched string with a replacement.	MIT
broccoli-style-manifest	Broccoli plugin that takes creates an import mainfest file of differnt style files.	MIT
broccoli-svg-optimizer	Broccoli plugin for optimizing SVG files with SVGO	MIT
broccoli-uglify-sourcemap	Broccoli filter to uglify files while preserving their sourcemaps.	MIT
brorand	Random number generator for browsers and node.js	MIT
brotli	A port of the Brotli compression algorithm as used in WOFF2	MIT
browser-resolve	resolve which handles browser field support in package.json	MIT
browserify-aes	aes, for browserify	MIT
browserify-cipher	ciphers for the browser	MIT
browserify-des	browserify-des ===	MIT
browserify-rsa	RSA for browserify	MIT
browserify-zlib	Full zlib module for the browser	MIT
browserslist	Share target browsers between different front-end tools, like Autoprefixer, Stylelint and babel-env-preset	MIT
buffer	Node.js Buffer API, for the browser	MIT
buffer-alloc	A [ponyfill](https://ponyfill.com) for `Buffer.alloc`.	MIT
buffer-alloc-unsafe	A [ponyfill](https://ponyfill.com) for `Buffer.allocUnsafe`.	MIT
buffer-crc32	A pure javascript CRC32 algorithm that plays nice with binary data	MIT
buffer-equal	return whether two buffers are equal	MIT
buffer-fill	A [ponyfill](https://ponyfill.com) for `Buffer.fill`.	MIT
buffer-from	A [ponyfill](https://ponyfill.com) for `Buffer.from`, uses native implementation if available.	MIT
buffer-indexof	find the index of a buffer in a buffer	MIT
buffer-writer	a fast, efficient buffer writer	MIT
buffer-xor	A simple module for bitwise-xor on buffers	MIT

Open Source Software Name	Description	Type of Open Source License
builder-util	Various utilities. Used by [electron-builder](https://github.com/electron-userland/electron-builder).	MIT
builder-util-runtime	HTTP utilities. Used by [electron-builder](https://github.com/electron-userland/electron-builder).	MIT
builtin-modules	List of the Node.js builtin modules	MIT
builtin-status-codes	The map of HTTP status codes from the builtin http module	MIT
builtins	List of node.js builtin modules	MIT
busboy	A streaming parser for HTML form data for node.js	MIT
bytes	Utility to parse a string bytes to bytes and vice-versa	MIT
cache-base	Basic object cache with `get`, `set`, `del`, and `has` methods for node.js/javascript projects.	MIT
cacheable-request	Wrap native HTTP requests with RFC compliant cache support	MIT
cacheman	Small and efficient cache provider for Node.JS with In-memory, Redis and MongoDB engines	MIT
cacheman-file	File caching library for Node.JS and also cache engine for cacheman	MIT
cacheman-memory	In-memory caching library for Node.JS and also cache engine for cacheman	MIT
caching-transform	Wraps a transform and provides caching	MIT
calculate-cache-key-for-tree	ember-cli addon tree cache key builder	MIT
call-me-maybe	Let your JS API users either give you a callback or receive a promise	MIT
caller-callsite	Get the callsite of the caller function	MIT
caller-path	Get the path of the caller function	MIT
callsite-record	Create fancy log entries for errors and function call sites.	MIT
callsites	Get callsites from the V8 stack trace API	MIT
camel-case	Transform into a string with the separator denoted by the next word capitalized	MIT
camelcase	Convert a dash/dot/underscore/space separated string to camelCase or PascalCase: `foo-bar` → `fooBar`	MIT

Open Source Software Name	Description	Type of Open Source License
camelcase-css	Convert a kebab-cased CSS property into a camelCased DOM property.	MIT
camelcase-keys	Convert object keys to camel case	MIT
camelize	recursively transform key strings to camel-case	MIT
can-symlink	Utility module to determine if fs.symlink commands will succeed. Useful for win32 environments where special permission is required for symlinking.	MIT
caniuse-api	request the caniuse data to check browsers compatibilities	MIT
capital-case	Transform into a space separated string with each word capitalized	MIT
capture-stack-trace	Error.captureStackTrace ponyfill	MIT
cardinal	Syntax highlights JavaScript code with ANSI colors to be printed to the terminal.	MIT
case-sensitive-paths-webpack-plugin	Enforces module path case sensitivity in Webpack	MIT
catharsis	A JavaScript parser for Google Closure Compiler and JSDoc type expressions.	MIT
caw	Construct HTTP/HTTPS agents for tunneling proxies	MIT
ceibo	Ceibo is a JavaScript micro library to model trees that evaluate arbitrary code when accessing its nodes.	MIT
center-align	Center-align the text in a string.	MIT
chai	BDD/TDD assertion library for node.js and the browser. Test framework agnostic.	MIT
chai-datetime	date / time comparison matchers for chai	MIT
chai-http	Extend Chai Assertion library with tests for http apis	MIT
chai-string	strings comparison matchers for chai	MIT
chai-uuid	Chai plugin for performing assertions on UUIDs	MIT
chalk	Terminal string styling done right	MIT
change-case	Transform a string between `camelCase`, `PascalCase`, `Capital Case`, `snake_case`, `param-case`, `CONSTANT_CASE` and others	MIT
chardet	Character detector	MIT

Open Source Software Name	Description	Type of Open Source License
charm	ansi control sequences for terminal cursor hopping and colors	MIT
chart.js	Simple HTML5 charts using the canvas element.	MIT
chartjs-color	Color conversion and manipulation with CSS string support	MIT
chartjs-color-string	Parser and generator for CSS color strings	MIT
check-error	Error comparison and information related utility for node and the browser	MIT
cheerio	Tiny, fast, and elegant implementation of core jQuery designed specifically for the server	MIT
chi-squared	characteristic functions for chi-squared distributions	MIT
chokidar	A neat wrapper around node.js fs.watch / fs.watchFile / fsevents.	MIT
chrome-emulated-devices-list	A list of devices that can be emulated using Chrome DevTools.	MIT
chrome-remote-interface	Chrome Debugging Protocol interface	MIT
chrome-trace-event	A library to create a trace of your node app per Google's Trace Event format.	MIT
chromium-pickle-js	Binary value packing and unpacking	MIT
chttps	Command line utility to replace http links in package-lock with https	MIT
ci-info	Get details about the current Continuous Integration environment	MIT
cipher-base	abstract base class for crypto-streams	MIT
circular-json	JSON does not handle circular references. This version does	MIT
cjson	cjson - Commented Javascript Object Notation. It is a json loader, which parses only valide json files, but with comments enabled. Usefull for loading configs.	MIT
class-utils	Utils for working with JavaScript classes and prototype methods.	MIT
classnames	A simple utility for conditionally joining classNames together	MIT
clean-css	A well-tested CSS minifier	MIT

Open Source Software Name	Description	Type of Open Source License
clean-css-promise	Promises/A+ version of clean-css	MIT
clean-stack	Clean up error stack traces	MIT
clean-up-path	Make paths absolute and normalize them.	MIT
clean-webpack-plugin	A webpack plugin to remove/clean your build folder(s).	MIT
clean-yaml-object	Clean up an object prior to serialization	MIT
cli	A tool for rapidly building command line apps	MIT
cli-boxes	Boxes for use in the terminal	MIT
cli-cursor	Toggle the CLI cursor	MIT
cli-spinners	Spinners for use in the terminal	MIT
cli-table3	Pretty unicode tables for the command line. Based on the original cli-table.	MIT
clipboard	Modern copy to clipboard. No Flash. Just 2kb	MIT
clone	deep cloning of objects and arrays	MIT
clone-buffer	Easier Buffer cloning in node.	MIT
clone-deep	Recursively (deep) clone JavaScript native types, like Object, Array, RegExp, Date as well as primitives.	MIT
clone-response	Clone a Node.js HTTP response stream	MIT
clone-stats	Safely clone node's fs.Stats instances without losing their class methods	MIT
cloneable-readable	Clone a Readable stream, safely	MIT
co	generator async control flow goodness	MIT
coa	Command-Option-Argument: Yet another parser for command line options.	MIT
code-error-fragment	Shows code error fragment of input file	MIT
code-point-at	ES2015 `String#codePointAt()` ponyfill	MIT
codemirror	Full-featured in-browser code editor	MIT
coffee-script	Unfancy JavaScript	MIT
coffeescript	Unfancy JavaScript	MIT
collection-map	Returns an array of mapped values from an array or object.	MIT

Open Source Software Name	Description	Type of Open Source License
collection-visit	Visit a method over the items in an object, or map visit over the objects in an array.	MIT
color	Color conversion and manipulation with CSS string support	MIT
color-convert	Plain color conversion functions	MIT
color-name	A list of color names and its values	MIT
color-string	Parser and generator for CSS color strings	MIT
colornames	Map color names to HEX color values.	MIT
colors	get colors in your node.js console	MIT
colorspace	Generate HEX colors for a given namespace.	MIT
colour	A cored, fixed, documented and optimized version of the popular `colors.js`: Get colors in your node.js console like what...	MIT
combined-stream	A stream that emits multiple other streams one after another.	MIT
commander	the complete solution for node.js command-line programs	MIT
common-tags	a few common utility template tags for ES2015	MIT
commondir	compute the closest common parent for file paths	MIT
compare-versions	Compare semver version strings to find greater, equal or lesser.	MIT
component-emitter	Event emitter	MIT
compress-commons	a library that defines a common interface for working with archive formats within node	MIT
compressible	Compressible Content-Type / mime checking	MIT
compression	Node.js compression middleware	MIT
concat-map	concatenative mapdashery	MIT
concat-stream	writable stream that concatenates strings or binary data and calls a callback with the result	MIT
config-chain	HANDLE CONFIGURATION ONCE AND FOR ALL	MIT
confusing-browser-globals	A list of browser globals that are often used by mistake instead of local variables	MIT
connect	High performance middleware framework	MIT

Open Source Software Name	Description	Type of Open Source License
connect-history-api-fallback	Provides a fallback for non-existing directories so that the HTML 5 history API can be used.	MIT
connect-redis	Redis session store for Connect	MIT
connected-domain	calculate all the connected domains based on the given two-dimensional array	MIT
console-browserify	Emulate console for all the browsers	MIT
consolidate	Template engine consolidation library	MIT
constant-case	Transform into upper case string with an underscore between words	MIT
constants-browserify	node's constants module for the browser	MIT
contains-path	Return true if a file path contains the given path.	MIT
content-disposition	Create and parse Content-Disposition header	MIT
content-type	Create and parse HTTP Content-Type header	MIT
continuable-cache	Cache a continuable	MIT
convert-source-map	Converts a source-map from/to different formats and allows adding/changing properties.	MIT
cookie	HTTP server cookie parsing and serialization	MIT
cookie-parser	Parse HTTP request cookies	MIT
cookie-signature	Sign and unsign cookies	MIT
cookiejar	simple persistent cookiejar system	MIT
copy-dereference	Copy files and directories, dereferencing symlinks and preserving last-modified times	MIT
copy-descriptor	Copy a descriptor from object A to object B	MIT
copy-props	Copy properties deeply between two objects.	MIT
copy-webpack-plugin	Copy files & directories with webpack	MIT
core-js	Standard library	MIT
core-js-compat	core-js compat	MIT
core-js-pure	Standard library	MIT
core-object	A lightweight implementation of OOP Class in JavaScript	MIT
core-util-is	The `util.is` functions introduced in Node v0.12.	MIT

Open Source Software Name	Description	Type of Open Source License
cosmiconfig	Find and load configuration from a package.json property, rc file, or CommonJS module	MIT
cp-file	Copy a file	MIT
crc	Module for calculating Cyclic Redundancy Check (CRC) for Node.js and the Browser.	MIT
crc32-stream	a streaming CRC32 checksumer	MIT
create-ecdh	createECDH but browserifiable	MIT
create-error-class	Create Error classes	MIT
create-hash	create hashes for browserify	MIT
create-hmac	node style hmacs in the browser	MIT
cross-env	Run scripts that set and use environment variables across platforms	MIT
cross-spawn	Cross platform child_process#spawn and child_process#spawnSync	MIT
crypto-api	Hashing and encrypting library with no dependencies	MIT
crypto-browserify	implementation of crypto for the browser	MIT
crypto-js	JavaScript library of crypto standards.	MIT
crypto-random-string	Generate a cryptographically strong random string	MIT
css	CSS parser / stringifier	MIT
css-color-names	A JSON Object of css color names mapped to their hex value	MIT
css-declaration-sorter	Sorts CSS declarations fast and automatically in a certain order.	MIT
css-element-queries	CSS-Element-Queries Polyfill. proof-of-concept for high-speed element dimension/media queries in valid css.	MIT
css-loader	css loader module for webpack	MIT
css-parse	CSS parser	MIT
css-select-base-adapter	Provides some base functions needed by a css-select adapter so that you don't have to implement the whole thing.	MIT
css-selector-tokenizer	Parses and stringifies CSS selectors	MIT

Open Source Software Name	Description	Type of Open Source License
css-to-react-native	Convert CSS text to a React Native stylesheet object	MIT
css-tree	CSSTree is a tool set to work with CSS, including fast detailed parser (string->AST), walker (AST traversal), generator (AST->string) and lexer (validation and matching) based on knowledge of spec and browser implementations	MIT
css-unit-converter	Converts CSS values from one unit to another	MIT
cssesc	A JavaScript library for escaping CSS strings and identifiers while generating the shortest possible ASCII-only output.	MIT
cssnano	A modular minifier, built on top of the PostCSS ecosystem.	MIT
cssnano-preset-default	Safe defaults for cssnano which require minimal configuration.	MIT
cssnano-util-get-arguments	Get a list of arguments, separated by a comma.	MIT
cssnano-util-get-match	Convert a list of keywords into a single keyword match.	MIT
cssnano-util-raw-cache	Manages the raw value formatting for generated AST nodes.	MIT
cssnano-util-same-parent	Check that two PostCSS nodes share the same parent.	MIT
csso	CSS minifier with structural optimisations	MIT
cssom	CSS Object Model implementation and CSS parser	MIT
cssstyle	CSSStyleDeclaration Object Model implementation	MIT
csv-parse	CSV parsing implementing the Node.js `stream.Transform` API	MIT
csv-stringify	CSV stringifier implementing the Node.js `stream.Transform` API	MIT
cuint	Unsigned integers for Javascript	MIT
currently-unhandled	Track the list of currently unhandled promise rejections.	MIT
cyclist	Cyclist is an efficient cyclic list implementation.	MIT
dag-map	A topologically ordered map of key/value pairs with a simple API for adding constraints.	MIT

Open Source Software Name	Description	Type of Open Source License
dargs	Reverse minimalist. Convert an object of options into an array of command-line arguments.	MIT
dashdash	A light, featureful and explicit option parsing library.	MIT
data-urls	Parses data: URLs	MIT
datatables.net	DataTables for jQuery	MIT
datatables.net-dt	DataTables for jQuery	MIT
datauri	Create DataURI scheme easily	MIT
date-and-time	A Minimalist DateTime utility for Node.js and the browser	MIT
date-now	A requireable version of Date.now()	MIT
date-time	Pretty datetime: `2014-01-09 06:46:01`	MIT
dateformat	A node.js package for Steven Levithan's excellent dateFormat() function.	MIT
debug	small debugging utility	MIT
debug-log	Node.js 0.12 util.debuglog() ponyfill	MIT
decamelize	Convert a camelized string into a lowercased one with a custom separator: unicornRainbow → unicorn_rainbow	MIT
decode-uri-component	A better decodeURIComponent	MIT
decompress	Extracting archives made easy	MIT
decompress-response	Decompress a HTTP response if needed	MIT
decompress-tar	decompress tar plugin	MIT
decompress-tarbz2	decompress tar.bz2 plugin	MIT
decompress-targz	decompress tar.gz plugin	MIT
decompress-unzip	decompress zip plugin	MIT
dedent	An ES6 string tag that strips indentation from multi-line strings	MIT
deep-eql	Improved deep equality testing for Node.js and the browser.	MIT
deep-equal	node's assert.deepEqual algorithm	MIT
deep-extend	Recursive object extending	MIT
deep-for-each	Recursively iterates over arrays and objects	MIT

Open Source Software Name	Description	Type of Open Source License
deep-is	node's assert.deepEqual algorithm except for NaN being equal to NaN	MIT
deepmerge	A library for deep (recursive) merging of Javascript objects	MIT
default-compare	Basic sort algorithm that has similar behavior to Array.prototype.sort for null and undefined, but also allows sorting by an object property.	MIT
default-require-extensions	Node's default require extensions as a separate module	MIT
default-resolution	Get the default resolution time based on the current node version, optionally overridable	MIT
defaults	merge single level defaults over a config object	MIT
defer-to-connect	The safe way to handle the `connect` socket event	MIT
define-properties	Define multiple non-enumerable properties at once. Uses `Object.defineProperty` when available; falls back to standard assignment in older engines.	MIT
define-property	Define a non-enumerable property on an object. Uses Reflect.defineProperty when available, otherwise Object.defineProperty.	MIT
defined	return the first argument that is `!== undefined`	MIT
del	Delete files and directories	MIT
delay	Delay a promise a specified amount of time	MIT
delayed-stream	Buffers events from a stream until you are ready to handle them.	MIT
delegate	Lightweight event delegation	MIT
delegates	delegate methods and accessors to another property	MIT
denodeify	Tool to turn functions with Node-style callback APIs into functions that return Promises	MIT
depd	Deprecate all the things	MIT
des.js	DES implementation	MIT
destroy	destroy a stream if possible	MIT
detect-file	Detects if a file exists and returns the resolved filepath.	MIT
detect-indent	Detect the indentation of code	MIT

Open Source Software Name	Description	Type of Open Source License
detect-newline	Detect the dominant newline character of a string	MIT
detect-port-alt	detect available port	MIT
dev-null	/dev/null for node streams	MIT
devtron	Electron DevTools Extension	MIT
diagnostics	Tools for debugging your node.js modules and event loop	MIT
dicer	A very fast streaming multipart parser for node.js	MIT
diff-sequences	Compare items in two sequences to find a longest common subsequence	MIT
diffie-hellman	pure js diffie-hellman	MIT
dir-glob	Convert directories to glob compatible strings	MIT
dmg-builder	Utilities to build DMG. Used by [electron-builder] (https://github.com/electron-userland/electron-builder).	MIT
dns-equal	Compare DNS record strings for equality	MIT
dns-packet	An abstract-encoding compliant module for encoding / decoding DNS packets	MIT
dns-txt	Encode/decode DNS-SD TXT record RDATA fields	MIT
dom-converter	converts bare objects to DOM objects or xml representations	MIT
dom-serializer	render dom nodes to string	MIT
dom-walk	iteratively walk a DOM node	MIT
domain-browser	Node's domain module for the web browser. This is merely an evented try...catch with the same API as node, nothing more.	MIT
domexception	An implementation of the DOMException class from browsers	MIT
dot-case	Transform into a lower case string with a period between words	MIT
dot-prop	Get, set, or delete a property from a nested object using a dot path	MIT
dottie	Fast and safe nested object access and manipulation in JavaScript	MIT
double-ended-queue	Extremely fast double-ended queue implementation	MIT

Open Source Software Name	Description	Type of Open Source License
download	Download and extract files	MIT
duplexer	Creates a duplex stream	MIT
duplexify	Turn a writable and readable stream into a streams2 duplex stream with support for async initialization and streams1/streams2 input	MIT
each-props	Processes each properties of an object deeply.	MIT
ebnf-parser	A parser for BNF and EBNF grammars used by jison	MIT
ecc-jsbn	ECC JS code based on JSBN	MIT
editions	Publish multiple editions for your JavaScript packages consistently and easily (e.g. source edition, esnext edition, es2015 edition)	MIT
editorconfig	EditorConfig File Locator and Interpreter for Node.js	MIT
ee-first	return the first event in a set of ee/event pairs	MIT
electron	Build cross platform desktop apps with JavaScript, HTML, and CSS	MIT
electron-builder	A complete solution to package and build a ready for distribution Electron app for MacOS, Windows and Linux with "auto update" support out of the box	MIT
electron-chromedriver	Electron ChromeDriver	MIT
electron-debug	Adds useful debug features to your Electron app	MIT
electron-is-accelerator	Check if a string is a valid Electron accelerator	MIT
electron-is-dev	Check if Electron is running in development	MIT
electron-localshortcut	register/unregister a keyboard shortcut locally to a BrowserWindow instance, without using a Menu	MIT
electron-publish	Part of [electron-builder](https://github.com/electron-userland/electron-builder).	MIT
elegant-spinner	Elegant spinner for interactive CLI apps	MIT
element-resize-detector	Resize event emitter for elements.	MIT
elliptic	EC cryptography	MIT
ember-ajax-fetch	A drop-in ember-ajax replacement fetch service.	MIT
ember-angle-bracket-invocation-polyfill	The default blueprint for ember-cli addons.	MIT

Open Source Software Name	Description	Type of Open Source License
ember-animated	Core animation primitives for Ember	MIT
ember-app-scheduler	Ember addon to schedule work at different phases of app life cycle.	MIT
ember-assign-helper	Simple <code>assign</code> helper for Ember	MIT
ember-assign-polyfill	A polyfill for <code>Ember.assign</code> in <code><= 2.4</code>	MIT
ember-async-await-for-each	<code>async/await</code> aware <code>forEach</code> for Ember	MIT
ember-auto-import	Zero-config import from NPM packages	MIT
ember-awesome-macros	A collection of Ember computed macros	MIT
ember-basic-dropdown	The default blueprint for ember-cli addons.	MIT
ember-bootstrap	Bootstrap components for Ember.js	MIT
ember-bootstrap-changeset-validations	This Ember addon adds support for validations based on ember-changeset to ember-bootstrap	MIT
ember-bootstrap-power-select	Integrate ember-power-select into your ember-bootstrap forms	MIT
ember-burger-menu	An off-canvas sidebar component with a collection of animations and styles using CSS transitions	MIT
ember-changeset	Changesets for Ember	MIT
ember-changeset-validations	Validations for ember-changeset	MIT
ember-chrome-devtools	Chrome DevTools addon for Ember.js	MIT
ember-circleci	CircleCI configuration generator for your Ember projects.	MIT
ember-classic-decorator	The default blueprint for ember-cli addons.	MIT
ember-classy-page-object	The default blueprint for ember-cli addons.	MIT
ember-cli	Command line tool for developing ambitious ember.js apps	MIT
ember-cli-addon-docs	Easy, beautiful docs for your OSS Ember addons	MIT
ember-cli-addon-docs-yuidoc	YUIDoc plugin for ember-cli-addon-docs	MIT
ember-cli-app-version	Adds App version number to Ember Inspector Info Tab	MIT
ember-cli-autoprefixer	Process styles in an ember-cli application using Autoprefixer	MIT
ember-cli-babel	Ember CLI addon for Babel	MIT

Open Source Software Name	Description	Type of Open Source License
ember-cli-babel-plugin-helpers	Utilities for managing installed Babel plugins in an Ember app or addon	MIT
ember-cli-broccoli-sane-watcher	Alternative watcher that uses sane module instead of polling	MIT
ember-cli-chai	Chai assertions for Ember.js	MIT
ember-cli-chart	Ember component for ChartJS	MIT
ember-cli-clipboard	Clipboard.js button component	MIT
ember-cli-code-coverage	Code coverage for ember projects using Istanbul	MIT
ember-cli-content-security-policy	This addon adds the Content-Security-Policy header to response sent from the Ember CLI Express server.	MIT
ember-cli-dependency-checker	Ember CLI addon for detecting missing npm and bower dependencies before executing ember commands	MIT
ember-cli-deploy	A deployment pipeline for ember-cli apps	MIT
ember-cli-deploy-build	A Build Plugin for ember-cli-deploy	MIT
ember-cli-deploy-git	a deploy plugin for uploading to git, including GitHub Pages.	MIT
ember-cli-deploy-git-ci	An ember-cli-deploy plugin for managing git deploys in CI.	MIT
ember-cli-deploy-plugin	For building plugins for ember-cli-deploy	MIT
ember-cli-deploy-progress	Flexible ascii progress bar (ember-cli-deploy fork incorporating cursor feature)	MIT
ember-cli-deprecation-workflow	Provides a much needed workflow to managing deprecations.	MIT
ember-cli-eslint	Ember-cli eslint support, for checking your application matches your coding standards.	MIT
ember-cli-favicon	Automatically build and include all the various platform / device favicon formats from a single source public/favicon.png.	MIT
ember-cli-head	An addon to easily set document head content via a template.	MIT
ember-cli-htmlbars	A library for adding htmlbars to ember CLI	MIT
ember-cli-htmlbars-inline-compile	Precompile inline HTMLBars templates via ES6 tagged template strings	MIT

Open Source Software Name	Description	Type of Open Source License
ember-cli-import-polyfill	The default blueprint for ember-cli addons.	MIT
ember-cli-inject-live-reload	Plugin for ember-cli that injects live-reload script into HTML content.	MIT
ember-cli-mirage	A client-side server to help you build, test and demo your Ember app	MIT
ember-cli-moment-shim	Brings moment and moment-timezone into your Ember applications	MIT
ember-cli-node-assets	Include CSS, images and other assets in your app or addon directly from node modules	MIT
ember-cli-page-object	This ember-cli addon eases the construction of page objects on your acceptance and integration tests	MIT
ember-cli-postcss	Use postcss to process your css with a large selection of JavaScript plug-ins.	MIT
ember-cli-preprocess-registry	Preprocessor registry used internally by ember-cli.	MIT
ember-cli-sass	Use Sass to preprocess your ember-cli app's files, with support for sourceMaps and include paths	MIT
ember-cli-sass-lint	Pure Node.js sass/scss linting for Ember CLI projects	MIT
ember-cli-sentry	ember-cli addon adding Sentry support	MIT
ember-cli-shims	The default blueprint for ember-cli addons.	MIT
ember-cli-showdown	Ember component to render markdown into HTML.	MIT
ember-cli-sri	SRI generation for Ember CLI	MIT
ember-cli-string-helpers	String helpers for Ember	MIT
ember-cli-template-lint	Lint your handlebars templates.	MIT
ember-cli-test-loader	Test loader for Ember CLI projects.	MIT
ember-cli-typescript	Allow ember apps to use typescript files.	MIT
ember-cli-uglify	JavaScript minification for Ember-CLI	MIT
ember-cli-update	Update Ember CLI Ember.js apps and addons (and Glimmer.js apps)	MIT
ember-cli-version-checker	Determine if your addon is being used by a minimum version of Ember CLI.	MIT
ember-click-outside	A component and mixin for detecting clicks happened outside the element.	MIT

Open Source Software Name	Description	Type of Open Source License
ember-code-snippet	Ember component for embedding syntax-highlighted code samples.	MIT
ember-compatibility-helpers	Zero-cost compatibility flags and helpers for Ember.js	MIT
ember-component-css	An Ember CLI addon which allows you to specify styles for individual components	MIT
ember-component-inbound-actions	Send actions to Ember.js components	MIT
ember-composable-helpers	Composable helpers for Ember	MIT
ember-concurrency	Improved concurrency/async primitives for Ember.js	MIT
ember-concurrency-decorators	decorator syntax for declaring/configuring ember-concurrency tasks	MIT
ember-cookies	Cookies abstraction for Ember.js that works both in the browser as well as with Fastboot on the server.	MIT
ember-copy	Ember addon to replace deprecated copy function and Copyable mixin	MIT
ember-data	A data layer for your Ember applications.	MIT
ember-data-has-many-query	Ember data addon for querying async has-many relationships using query parameters	MIT
ember-debug-handlers-polyfill	Adds ember-debug-handlers feature to Ember versions prior to 2.1.	MIT
ember-decorators	Useful decorators for Ember applications.	MIT
ember-decorators-polyfill	Polyfills Ember's built-in decorators	MIT
ember-deep-set	Deeply set values on an Ember Object or POJO	MIT
ember-diff-attrs	An ember-addon that provides a dry way to track attribute changes using a component's didReceiveAttrs lifecycle hook.	MIT
ember-disable-prototype-extensions	Disable Ember's prototype extensions.	MIT
ember-element-helper	Dynamic element helper for Glimmer templates.	MIT
ember-element-resize-detector	The default blueprint for ember-cli addons.	MIT
ember-event-helpers	Complimentary event template helpers to the {{on}} modifier	MIT

Open Source Software Name	Description	Type of Open Source License
ember-exam	Run your tests with randomization, splitting, and parallelization for beautiful tests.	MIT
ember-export-application-global	Sets `window.MyAppName` up as the application instance upon boot.	MIT
ember-factory-for-polyfill	Provides a basic polyfill for the ember-factory-for feature.	MIT
ember-feature-flags	Feature flags/toggles for Ember apps	MIT
ember-fetch	HTML5 Fetch polyfill (as an ember-addon)	MIT
ember-fetch-adapter	A Network Adapter Service based on Ember RFC #171.	MIT
ember-file-upload	An uploader component for Ember apps	MIT
ember-flatpickr	An Ember addon that wraps the date picker Flatpickr	MIT
ember-focus-trap	A Ember modifier to trap your focus.	MIT
ember-get-config	Get `config/environment` from anywhere, even addons!!!	MIT
ember-getowner-polyfill	The default blueprint for ember-cli addons.	MIT
ember-ignore-children-helper	Helps you ignore events that didn't directly target your own element.	MIT
ember-in-viewport	Detect if an Ember View or Component is in the viewport @ 60FPS	MIT
ember-inflector	ember-inflector goal is to be rails compatible.	MIT
ember-inputmask	Ember wrapper for Inputmask 4.x.	MIT
ember-jquery-legacy	The default blueprint for ember-cli addons.	MIT
ember-keyboard	An Ember.js addon for the painless support of keyboard events	MIT
ember-let-polyfill	A polyfill for the `let` helper in Ember < 3.2	MIT
ember-lifeline	Ember.js addon for lifecycle aware async tasks and DOM events.	MIT
ember-light-table	Lightweight, component based table for Ember 3.4+	MIT
ember-load	Spinner while your ember.js app loads	MIT
ember-load-initializers	A tiny add-on to autoload your initializer files in ember-cli.	MIT

Open Source Software Name	Description	Type of Open Source License
ember-lodash	Lodash in ES6 for Ember.js apps	MIT
ember-macro-helpers	Ember macro helpers for making your own fancy macros!	MIT
ember-math-helpers	HTMLBars helpers for basic arithmetic	MIT
ember-maybe-import-regenerator	The default blueprint for ember-cli addons.	MIT
ember-maybe-in-element	The default blueprint for ember-cli addons.	MIT
ember-metrics	Send data to multiple analytics integrations without re-implementing new API	MIT
ember-metrics-pendo	The default blueprint for ember-cli addons.	MIT
ember-modal-dialog	An ember-cli addon for implementing modal dialogs	MIT
ember-modifier	A library for writing Ember modifiers	MIT
ember-modifier-manager-polyfill	Polyfill element modifiers for Ember 2.12 through 3.7.	MIT
ember-moment	Moment.js template helpers and computed property macros for Ember	MIT
ember-named-arguments-polyfill	Polyfills support for named arguments for Ember 2.10 through 3.0.	MIT
ember-native-dom-helpers	Test helpers for your integration tests that fire native events	MIT
ember-notify	Easy, wee little notifications	MIT
ember-on-helper	{{[on eventTarget eventName someAction]}} template helper	MIT
ember-on-modifier	{{[on eventName this.someAction]}} element modifier	MIT
ember-page-title	{{[title]}} for Ember applications	MIT
ember-popper	An Ember-centric wrapper around Popper.js	MIT
ember-power-select	The extensible select component built for ember	MIT
ember-promise-helpers	The default blueprint for ember-cli addons.	MIT
ember-prop-types	This addon provides React-like property management for components.	MIT
ember-qunit	QUnit helpers for testing Ember.js applications	MIT
ember-qunit-nice-errors	Because expected true, result false is not enough!	MIT
ember-raf-scheduler	The default blueprint for ember-cli addons.	MIT

Open Source Software Name	Description	Type of Open Source License
ember-ref-modifier	{{ref propName context}} element modifier	MIT
ember-require-module	Easily require a module which will silently fail if it is not found.	MIT
ember-resolver	The default modules based resolver for Ember CLI.	MIT
ember-responsive	An ember-cli addon that gives you a simple, Ember-aware way of dealing with media queries.	MIT
ember-rfc176-data	JSON data for Ember.js RFC #176	MIT
ember-route-action-helper	Bubble closure actions in routes	MIT
ember-router-generator	MicroLib to add or remove routes from your Ember.js router.	MIT
ember-router-scroll	Scroll to top with preserved browser history scroll position	MIT
ember-router-service-polyfill	Provides a best effort polyfill for the ember-routing-router-service feature.	MIT
ember-runtime-enumerable-includes-polyfill	Polyfill for ember-runtime-enumerable-includes feature (noop in Ember >= 2.8)	MIT
ember-scrollable	OSX-like scrollbar components in ember	MIT
ember-set-helper	The default blueprint for ember-cli addons.	MIT
ember-simple-auth	A lightweight library for implementing authentication/authorization with Ember.js applications.	MIT
ember-singularity	Unified event handling for Ember.	MIT
ember-singularity-mixins	Mixins leveraging the power of Ember Singularity	MIT
ember-sortable	Sortable UI primitives for Ember.	MIT
ember-source	A JavaScript framework for creating ambitious web applications	MIT
ember-source-channel-url	Determine the URL to a given Ember channels (beta, canary, etc) latest tarball.	MIT
ember-svg-jar	Best way to use SVG images in Ember applications	MIT
ember-table	An addon to support large data set and a number of features around table.	MIT
ember-template-lint	Lint your templates.	MIT
ember-template-recast	Non-destructive template transformer.	MIT

Open Source Software Name	Description	Type of Open Source License
ember-test-selectors	Enabling better Test selectors in Ember.js applications.	MIT
ember-test-waiters	The default blueprint for ember-cli addons.	MIT
ember-tether	Tether an element to another element in the DOM	MIT
ember-text-measurer	Ember addon with a service to calculate text dimensions on a canvas	MIT
ember-truncate	A generic component used to truncate text to a specified number of lines.	MIT
ember-truth-helpers	Ember Truth Helpers	MIT
ember-try	An ember-cli addon to test against multiple bower dependencies, such as ember and ember-data.	MIT
ember-try-config	Configuration generator for ember-try	MIT
ember-ui-shared	The default blueprint for ember-cli addons.	MIT
ember-useragent	An Ember addon for Fastboot-enabled userAgent parsing via UAParser.js.	MIT
ember-validators	A collection of EmberJS validators	MIT
ember-websockets	EmberJS WebSockets addon for Ember-CLI apps.	MIT
ember-wormhole	Render a child view somewhere else in the DOM.	MIT
emit-function	because i get tired of typing EE.prototype.emit. bind.bind(EE.prototype.emit)	MIT
emittery	Simple and modern async event emitter	MIT
emoji-regex	A regular expression to match all Emoji-only symbols as per the Unicode Standard.	MIT
emojis-list	Complete list of standard emojis.	MIT
enabled	Check if a certain debug flag is enabled.	MIT
encodeurl	Encode a URL to a percent-encoded form, excluding already-encoded sequences	MIT
encoding	Convert encodings, uses iconv by default and fallbacks to iconv-lite if needed	MIT
end-of-stream	Call a callback when a readable/writable/duplex stream has completed or failed.	MIT
endpoint-utils	Utils to deal with TCP ports and hostnames. Safe for everyday use.	MIT

Open Source Software Name	Description	Type of Open Source License
engine.io	The realtime engine behind Socket.IO. Provides the foundation of a bidirectional connection between client and server	MIT
engine.io-client	Client for the realtime Engine	MIT
engine.io-parser	Parser for the client for the realtime Engine	MIT
enhanced-resolve	Offers a async require.resolve function. It's highly configurable.	MIT
ent	Encode and decode HTML entities	MIT
env-paths	Get paths for storing things like data, config, cache, etc	MIT
env-variable	Cross platform environment variables with process.env, window.name, location.hash and localStorage fallbacks	MIT
errno	libuv errno details exposed	MIT
error	Custom errors	MIT
error-ex	Easy error subclassing and stack customization	MIT
es-abstract	ECMAScript spec abstract operations.	MIT
es-to-primitive	ECMAScript "ToPrimitive" algorithm. Provides ES5 and ES2015 versions.	MIT
es6-error	Easily-extendable error for use with ES6 classes	MIT
es6-iterator	Iterator abstraction based on ES6 specification	MIT
es6-map	ECMAScript6 Map polyfill	MIT
es6-object-assign	ECMAScript 2015 (ES6) Object.assign polyfill and ponyfill	MIT
es6-promise	A lightweight library that provides tools for organizing asynchronous code	MIT
es6-promise-polyfill	Polyfill for ES6 Promise	MIT
es6-promisify	Converts callback-based functions to ES6 Promises	MIT
es6-set	ECMAScript6 Set polyfill	MIT
escape-html	Escape string for use in HTML	MIT
escape-string-regexp	Escape RegExp special characters	MIT
eslint	An AST-based pattern checker for JavaScript.	MIT
eslint-config-react-app	ESLint configuration used by Create React App	MIT

Open Source Software Name	Description	Type of Open Source License
eslint-config-standard	JavaScript Standard Style - ESLint Shareable Config	MIT
eslint-config-standard-jsx	JavaScript Standard Style JSX support - ESLint Shareable Config	MIT
eslint-import-resolver-node	Node default behavior import resolution plugin for eslint-plugin-import.	MIT
eslint-loader	eslint loader (for webpack)	MIT
eslint-module-utils	Core utilities to support eslint-plugin-import and other module-related plugins.	MIT
eslint-plugin-ember	Eslint plugin for Ember.js apps	MIT
eslint-plugin-es	ESLint plugin about ECMAScript syntactic features.	MIT
eslint-plugin-import	Import with sanity.	MIT
eslint-plugin-jsx-a11y	Static AST checker for accessibility rules on JSX elements.	MIT
eslint-plugin-node	Additional ESLint's rules for Node.js	MIT
eslint-plugin-react	React specific linting rules for ESLint	MIT
eslint-plugin-react-hooks	ESLint rules for React Hooks	MIT
eslint-plugin-standard	ESLint Plugin for the Standard Linter	MIT
eslint-plugin-testcafe	Eslint rules for testcafe	MIT
eslint-plugin-you-dont-need-lodash-underscore	Check methods you can use natively without lodash/underscore	MIT
eslint-utils	Utilities for ESLint plugins.	MIT
esm	Tomorrow's ECMAScript modules today!	MIT
esotope-hammerhead	This is an [Esotope](https://github.com/inikulin/esotope) fork that contains enhancements required for [TestCafe Hammerhead](https://github.com/DevExpress/testcafe-hammerhead).	MIT
estree-walker	Traverse an ESTree-compliant AST	MIT
etag	Create simple HTTP ETags	MIT
event-emitter	Environment agnostic event emitter	MIT
event-target-shim	An implementation of WHATWG EventTarget interface.	MIT
eventemitter2	A Node.js event emitter implementation with namespaces, wildcards, TTL and browser support.	MIT

Open Source Software Name	Description	Type of Open Source License
eventemitter3	EventEmitter3 focuses on performance while maintaining a Node.js AND browser compatible interface.	MIT
events	Node's event emitter for all engines.	MIT
eventsourcing	W3C compliant EventSource client for Node.js and browser (polyfill)	MIT
evp_bytestokey	The insecure key derivation algorithm from OpenSSL	MIT
exec-sh	Execute shell command forwarding all stdio.	MIT
execa	Process execution for humans	MIT
exit	A replacement for process.exit that ensures stdio are fully drained before exiting.	MIT
exit-hook	Run some code when the process exits	MIT
expand-brackets	Expand POSIX bracket expressions (character classes) in glob patterns.	MIT
expand-tilde	Bash-like tilde expansion for node.js. Expands a leading tilde in a file path to the user home directory, or `~+` to the cwd.	MIT
expect	This package exports the `expect` function used in [Jest](https://jestjs.io/). You can find its documentation [on Jest's website](https://jestjs.io/docs/en/expect.html).	MIT
exports-loader	exports loader module for webpack	MIT
express	Fast, unopinionated, minimalist web framework	MIT
express-favicon	express favicon middleware	MIT
express-http-proxy	http proxy middleware for express	MIT
express-jwt	JWT authentication middleware.	MIT
express-session	Simple session middleware for Express	MIT
express-unless	Conditionally add a middleware to express with some common patterns.	MIT
express-winston	express.js middleware for flatiron/winston	MIT
ext-list	List of known file extensions and their MIME types	MIT
ext-name	Get the file extension and MIME type from a file	MIT
extend	Port of jQuery.extend for node.js and the browser	MIT

Open Source Software Name	Description	Type of Open Source License
extend-shallow	Extend an object with the properties of additional objects. node.js/javascript util.	MIT
external-editor	Edit a string with the users preferred text editor using \$VISUAL or \$ENVIRONMENT	MIT
extglob	Extended glob support for JavaScript. Adds (almost) the expressive power of regular expressions to glob patterns.	MIT
extract-text-webpack-plugin	Extract text from bundle into a file.	MIT
extsprintf	extended POSIX-style sprintf	MIT
eyes	a customizable value inspector	MIT
fake-xml-http-request	test infrastructure for a fake XMLHttpRequest object	MIT
faker	Generate massive amounts of fake contextual data	MIT
fancy-log	Log things, prefixed with a timestamp.	MIT
fast-deep-equal	Fast deep equal	MIT
fast-glob	It's a very fast and efficient glob library for Node.js	MIT
fast-isnumeric	The fast way to check if a JS object is numeric	MIT
fast-json-stable-stringify	deterministic `JSON.stringify()` - a faster version of substack's json-stable-strigify without jsonify	MIT
fast-levenshtein	Efficient implementation of Levenshtein algorithm with locale-specific collator support.	MIT
fast-memoize	Fastest memoization lib that supports N arguments	MIT
fast-safe-stringify	Safely and quickly serialize JavaScript objects	MIT
fast-sourcemap-concat	Concatenate files while generating or propagating sourcemaps.	MIT
fastboot-transform	Utility to transform given broccoli tree that contains browser API to be fastboot complaint.	MIT
fastparse	A very simple and stupid parser, based on a statemachine and regular expressions.	MIT
favicons	Favicon generator for Node.js	MIT
fd-slicer	safely create multiple ReadStream or WriteStream objects from the same file descriptor	MIT
fecha	Date formatting and parsing	MIT
figures	Unicode symbols with Windows CMD fallbacks	MIT

Open Source Software Name	Description	Type of Open Source License
file-entry-cache	Super simple cache for file metadata, useful for process that work o a given series of files and that only need to repeat the job on the changed ones since the previous run of the process	MIT
file-loader	A file loader module for webpack	MIT
file-saver	An HTML5 saveAs() FileSaver implementation	MIT
file-sync-cmp	Synchronous file comparison	MIT
file-type	Detect the file type of a Buffer/Uint8Array/ArrayBuffer	MIT
file-uri-to-path	Convert a file: URI to a file path	MIT
file-url	Convert a path to a file url: `unicorn.jpg` → `file:///Users/sindresorhus/unicorn.jpg`	MIT
filename-reserved-regex	Regular expression for matching reserved filename characters	MIT
filenamify	Convert a string to a valid safe filename	MIT
fileset	Wrapper around miniglob / minimatch combo to allow multiple patterns matching and include-exclude ability	MIT
fill-range	Fill in a range of numbers or letters, optionally passing an increment or `step` to use, or create a regex-compatible range with `options.toRegex`	MIT
finalhandler	Node.js final http responder	MIT
find-babel-config	Find the closest babel config based on a directory	MIT
find-cache-dir	Finds the common standard cache directory	MIT
find-index	finds an item in an array matching a predicate function, and returns its index	MIT
find-root	find the closest package.json	MIT
find-up	Find a file or directory by walking up parent directories	MIT
findup-sync	Find the first file matching a given pattern in the current directory or the nearest ancestor directory.	MIT
find	Find a file given a declaration of locations.	MIT
fireworm	A crawling file watcher.	MIT
fixturify	Convert objects into directory structures and back again	MIT

Open Source Software Name	Description	Type of Open Source License
fixturify-project	[[Build Status](https://travis-ci.org/stefanpenner/node-fixturify-project.svg?branch=master)](https://travis-ci.org/stefanpenner/node-fixturify-project) [[Build status](https://ci.appveyor.com/api/projects/status/li9y4rjft7fmvpc/branch/master?svg=true)] (https://ci.appveyor.com/project/embercli/node-fixturify-project/branch/master)	MIT
flagged-respawn	A tool for respawning node binaries when special flags are present.	MIT
flat-cache	A stupidly simple key/value storage using files to persist some data	MIT
flatpickr	A lightweight, powerful javascript datetime picker	MIT
flatten	Flatten arbitrarily nested arrays into a non-nested list of non-array items	MIT
flush-write-stream	A write stream constructor that supports a flush function that is called before finish is emitted	MIT
focus-trap	Trap focus within a DOM node.	MIT
follow-redirects	HTTP and HTTPS modules that follow redirects.	MIT
for-each	A better forEach	MIT
for-in	Iterate over the own and inherited enumerable properties of an object, and return an object with properties that evaluate to true from the callback. Exit early by returning `false`. JavaScript/Node.js	MIT
for-own	Iterate over the own enumerable properties of an object, and return an object with properties that evaluate to true from the callback. Exit early by returning `false`. JavaScript/Node.js.	MIT
foreach	foreach component + npm package	MIT
fork-ts-checker-webpack-plugin	Runs typescript type checker and linter on separate process.	MIT
form-data	A library to create readable multipart/form-data” streams. Can be used to submit forms and file uploads to other web applications.”	MIT
format-util	Lightweight format utility for the browser, based on util.format().	MIT
formidable	A node.js module for parsing form data, especially file uploads.	MIT
forwarded	Parse HTTP X-Forwarded-For header	MIT

Open Source Software Name	Description	Type of Open Source License
fragment-cache	A cache for managing namespaced sub-caches	MIT
fresh	HTTP response freshness testing	MIT
from2	Convenience wrapper for ReadableStream, with an API lifted from from” and “through2”	MIT
fromentries	Object.fromEntries() ponyfill (in 6 lines)	MIT
front-matter	Extract YAML front matter from a string	MIT
fs-constants	Require constants across node and the browser	MIT
fs-copy-file-sync	fs.copyFileSync ponyfill	MIT
fs-extra	fs-extra contains methods that aren’t included in the vanilla Node.js fs package. Such as mkdir -p, cp -r, and rm -rf.	MIT
fs-merger	Reads files from a real location	MIT
fs-mkdirp-stream	Ensure directories exist before writing to them.	MIT
fs-tree-diff	Backs out file tree changes	MIT
fs-updater	Incrementally update a directory based on an in-memory representation.	MIT
fsevents	Native Access to MacOS FSEvents	MIT
function-bind	Implementation of Function.prototype.bind	MIT
functional-red-black-tree	A fully persistent balanced binary search tree	MIT
gamma	the gamma function (Γ)	MIT
gaze	A globbing fs.watch wrapper built from the best parts of other fine watch libs.	MIT
gcs-resumable-upload	Upload a file to Google Cloud Storage with built-in resumable behavior	MIT
generate-function	Module that helps you write generated functions in Node	MIT
generate-object-property	Generate safe JS code that can used to reference a object property	MIT
gensync	Allows users to use generators in order to write common functions that can be both sync or async.	MIT
get-func-name	Utility for getting a function’s name for node and the browser	MIT
get-port	Get an available port	MIT

Open Source Software Name	Description	Type of Open Source License
get-proxy	Get configured proxy	MIT
get-stdin	Get stdin as a string or buffer	MIT
get-stream	Get a stream as a string, buffer, or array	MIT
get-value	Use property paths (a.b.c) to get a nested value from an object.	MIT
getobject	get.and.set.deep.objects.easily = true	MIT
getpass	getpass for node.js	MIT
git-config-path	Resolve the path to the user's local or global .gitconfig.	MIT
git-diff-apply	Use an unrelated remote repository to apply a git diff	MIT
git-fetch-pack	git's smart fetch-pack protocol	MIT
git-hooks-list	List of Git hooks	MIT
git-packed-ref-parse	streaming git packed-ref parser	MIT
git-read-pkt-line	read git packet lines (for smart protocol)	MIT
git-repo-info	Retrieve current sha and branch name from a git repo.	MIT
git-repo-version	Generates a version string based on the version specified in your package.json and the sha revision of the current commit branch.	MIT
git-transport-protocol	a r/w stream that wraps a r/w stream and formats the data according to the git transfer protocol	MIT
git-write-pkt-line	write git packet lines (for smart remote protocol)	MIT
github-from-package	return the github url from a package.json file	MIT
glob-stream	A Readable Stream interface over node-glob.	MIT
glob-watcher	Watch globs and execute a function upon change, with intelligent defaults for debouncing and queueing.	MIT
global	Require global variables	MIT
global-dirs	Get the directory of globally installed packages and binaries	MIT
global-modules	The directory used by npm for globally installed npm modules.	MIT
global-prefix	Get the npm global path prefix.	MIT

Open Source Software Name	Description	Type of Open Source License
globals	Global identifiers from different JavaScript environments	MIT
globby	User-friendly glob matching	MIT
globule	An easy-to-use wildcard globbing library.	MIT
glogg	Global logging utility	MIT
gonzales-pe-sl	Temporary gonzales-pe fork for sass-lint	MIT
good-listener	A more versatile way of adding & removing event listeners	MIT
google-p12-pem	Convert Google .p12 keys to .pem keys.	MIT
got	Simplified HTTP requests	MIT
graceful-readlink	graceful fs.readlink	MIT
grapheme-splitter	A JavaScript library that breaks strings into their individual user-perceived characters. It supports emojis!	MIT
graphlib	A directed and undirected multi-graph library	MIT
graphql	A Query Language and Runtime which can target any service.	MIT
growl	Growl unobtrusive notifications	MIT
growly	Simple zero-dependency Growl notifications using Gntp.	MIT
grunt	The JavaScript Task Runner	MIT
grunt-accessibility	Grade your site's accessibility and generate a report from different WCAG levels	MIT
grunt-chmod	A Grunt task plugin to modify file permissions, a la `chmod`.	MIT
grunt-concurrent	Run grunt tasks concurrently	MIT
grunt-contrib-clean	Clean files and folders	MIT
grunt-contrib-copy	Copy files and folders	MIT
grunt-contrib-jshint	Validate files with JSHint	MIT
grunt-contrib-watch	Run predefined tasks whenever watched file patterns are added, changed or deleted	MIT
grunt-eslint	Validate files with ESLint	MIT
grunt-exec	Grunt task for executing shell commands.	MIT

Open Source Software Name	Description	Type of Open Source License
grunt-jsdoc	Integrates jsdoc3 generation into your Grunt build	MIT
grunt-known-options	The known options used in Grunt	MIT
grunt-legacy-log	The Grunt 0.4.x logger.	MIT
grunt-legacy-log-utils	Static methods for the Grunt 0.4.x logger.	MIT
grunt-legacy-util	Some old grunt utils provided for backwards compatibility.	MIT
grunt-webpack	Use webpack with grunt.	MIT
gtoken	Node.js Google Authentication Service Account Tokens	MIT
gulp	The streaming build system.	MIT
gulp-babel	Use next generation JavaScript, today	MIT
gulp-clone	Clone files in memory in a gulp stream	MIT
gulp-data	Generate a data object from a variety of sources: json, front-matter, databases, promises, anything... and set it to the file object for other plugins to consume.	MIT
gulp-eslint	A gulp plugin for processing files with ESLint	MIT
gulp-mocha	Run Mocha tests	MIT
gulp-run-command	A simple way to run command-line programs from gulp in a cross-platform way.	MIT
gulplog	Logger for gulp and gulp plugins	MIT
gzip-size	Get the gzipped size of a string or buffer	MIT
hammerjs	A javascript library for multi-touch gestures	MIT
handle-thing	Wrap Streams2 instance into a HandleWrap	MIT
handlebars	Handlebars provides the power necessary to let you build semantic templates effectively with no frustration	MIT
har-validator	Extremely fast HTTP Archive (HAR) validator using JSON Schema	MIT
has	Object.prototype.hasOwnProperty.call shortcut	MIT
has-ansi	Check if a string has ANSI escape codes	MIT
has-binary2	A function that takes anything in javascript and returns true if its argument contains binary data.	MIT

Open Source Software Name	Description	Type of Open Source License
has-cors	Detects support for Cross-Origin Resource Sharing	MIT
has-flag	Check if argv has a specific flag	MIT
has-symbol-support-x	Tests if ES6 Symbol is supported.	MIT
has-symbols	Determine if the JS environment has Symbol support. Supports spec, or shams.	MIT
has-to-string-tag-x	Tests if ES6 @@toStringTag is supported.	MIT
has-value	Returns true if a value exists, false if empty. Works with deeply nested values using object paths.	MIT
has-values	Returns true if any values exist, false if empty. Works for booleans, functions, numbers, strings, nulls, objects and arrays.	MIT
has-yarn	Check if a project is using Yarn	MIT
hash-base	abstract base class for hash-streams	MIT
hash-stream-validation	Hash a stream of data, then validate	MIT
hash.js	Various hash functions that could be run by both browser and node	MIT
hasha	Hashing made simple. Get the hash of a buffer/string/stream/file.	MIT
hbs	Express.js template engine plugin for Handlebars	MIT
he	A robust HTML entities encoder/decoder with full Unicode support.	MIT
header-case	Transform into a dash separated string of capitalized words	MIT
heimdalljs	Structured instrumentation library	MIT
heimdalljs-graph	`heimdalljs-graph` is intended to be the primary entry point for doing visualizations with data gathered by [Heimdall](https://github.com/heimdalljs/heimdalljs-lib).	MIT
heimdalljs-logger	Structured logging via heimdalljs	MIT
hex-color-regex	The best regular expression (regex) for matching hex color values from string.	MIT
highlight-es	Highlight ECMAScript syntax for the console or any other medium.	MIT
hmac-drbg	Deterministic random bit generator (hmac)	MIT

Open Source Software Name	Description	Type of Open Source License
home-or-tmp	Get the user home directory with fallback to the system temp directory	MIT
homedir-polyfill	Node.js os.homedir polyfill for older versions of node.js.	MIT
hooker	Monkey-patch (hook) functions for debugging and stuff.	MIT
hot-shots	Node.js client for StatsD, DogStatsD, and Telegraf	MIT
hpack.js	HPACK implementation	MIT
hsl-regex	Regex for matching HSL colors.	MIT
hsla-regex	Regex for matching HSLA colors.	MIT
html-comment-regex	Regular expression for matching HTML comments	MIT
html-encoding-sniffer	Sniff the encoding from a HTML byte stream	MIT
html-entities	Faster HTML entities encode/decode library.	MIT
html-escaper	fast and safe way to escape and unescape <code>&<></code> chars	MIT
html-loader	html loader module for webpack	MIT
html-minifier	Highly configurable, well-tested, JavaScript-based HTML minifier.	MIT
html-webpack-plugin	Simplifies creation of HTML files to serve your webpack bundles	MIT
htmlparser2	Fast & forgiving HTML/XML/RSS parser	MIT
http-deceiver	Deceive HTTP parser	MIT
http-errors	Create HTTP error objects	MIT
http-parser-js	A pure JS HTTP parser for node.	MIT
http-proxy	HTTP proxying for the masses	MIT
http-proxy-agent	An HTTP(s) proxy <code>http.Agent</code> implementation for HTTP	MIT
http-proxy-middleware	The one-liner node.js proxy middleware for connect, express and browser-sync	MIT
http-signature	Reference implementation of Joyent's HTTP Signature scheme.	MIT
http2-client	Drop-in replacement for Nodes http and https that transparently make http request to both http1 / http2 server, it's using the ALPN protocol	MIT

Open Source Software Name	Description	Type of Open Source License
https-browserify	https module compatibility for browserify	MIT
https-proxy-agent	An HTTP(s) proxy `http.Agent` implementation for HTTPS	MIT
humanize-ms	transform humanize time to ms	MIT
humanize-plus	A simple utility library for making the web more humane.	MIT
i	custom inflections for nodejs	MIT
iced-error	An error-handling class written with/for IcedCoffeeScript	MIT
iced-lock	Simple lock class	MIT
iced-runtime	Runtime for IcedCoffeeScript	MIT
iconv-lite	Convert character encodings in pure javascript.	MIT
identity-obj-proxy	an identity object using ES6 proxies	MIT
iferr	Higher-order functions for easier error handling	MIT
ignore	Ignore is a manager and filter for .gitignore rules, the one used by eslint, gitbook and many others.	MIT
image-size	get dimensions of any image file	MIT
immer	Create your next immutable state by mutating the current one	MIT
import-cwd	Import a module like with `require()` but from the current working directory	MIT
import-fresh	Import a module while bypassing the cache	MIT
import-from	Import a module like with `require()` but from a given path	MIT
import-lazy	Import a module lazily	MIT
import-local	Let a globally installed package use a locally installed version of itself if available	MIT
imports-loader	imports loader module for webpack	MIT
imurmurhash	An incremental implementation of MurmurHash3	MIT
include-path-searcher	Helper functions for searching for files in multiple include paths	MIT
indent-string	Indent each line in a string	MIT

Open Source Software Name	Description	Type of Open Source License
indexes-of	line String/Array#indexOf but return all the indexes in an array	MIT
inflected	A port of ActiveSupport's inflector to Node.js	MIT
inflection	A port of inflection-js to node.js module	MIT
ink-docstrap	[[NPM]](https://nodei.co/npm/ink-docstrap.png?downloads=true)(https://nodei.co/npm/ink-docstrap/)	MIT
inline-source-map-comment	Create an inline source map comment from a source map	MIT
inputmask	Inputmask is a javascript library which creates an input mask. Inputmask can run against vanilla javascript, jQuery and jqlite.	MIT
inquirer	A collection of common interactive command line user interfaces.	MIT
internal-ip	Get your internal IP address	MIT
interpret	A dictionary of file extensions and associated module loaders.	MIT
intl	Polyfill the ECMA-402 Intl API (except collation)	MIT
into-stream	Convert a buffer/string/array/object/iterable/promise into a stream	MIT
invariant	invariant	MIT
invert-kv	Invert the key/value of an object. Example: {foo: 'bar'} → {bar: 'foo'}	MIT
ip	[[NPM]](https://badge.fury.io/js/ip.svg)(https://www.npmjs.com/package/ip)	MIT
ip-address	A library for parsing IPv4 and IPv6 IP addresses in node and the browser.	MIT
ip-regex	Regular expression for matching IP addresses (IPv4 & IPv6)	MIT
ipaddr.js	A library for manipulating IPv4 and IPv6 addresses in JavaScript.	MIT
is-absolute	Returns true if a file path is absolute. Does not rely on the path module and can be used as a polyfill for node.js native `path.isAbsolute`.	MIT
is-absolute-url	Check if an URL is absolute	MIT

Open Source Software Name	Description	Type of Open Source License
is-accessor-descriptor	Returns true if a value has the characteristics of a valid JavaScript accessor descriptor.	MIT
is-arguments	Is this an arguments object? It's a harder question than you think.	MIT
is-arrayish	Determines if an object can be used as an array	MIT
is-binary-path	Check if a file path is a binary file	MIT
is-bluebird	Is this a bluebird promise I see before me?	MIT
is-buffer	Determine if an object is a Buffer	MIT
is-builtin-module	Check if a string matches the name of a Node.js builtin module	MIT
is-callable	Is this JS value callable? Works with Functions and GeneratorFunctions, despite ES6 @@toStringTag.	MIT
is-ci	Detect if the current environment is a CI server	MIT
is-color-stop	Check if a string is CSS color stop	MIT
is-data-descriptor	Returns true if a value has the characteristics of a valid JavaScript data descriptor.	MIT
is-date-object	Is this value a JS Date object? This module works cross-realm/iframe, and despite ES6 @@toStringTag.	MIT
is-descriptor	Returns true if a value has the characteristics of a valid JavaScript descriptor. Works for data descriptors and accessor descriptors.	MIT
is-directory	Returns true if a filepath exists on the file system and it's directory.	MIT
is-docker	Check if the process is running inside a Docker container	MIT
is-es2016-keyword	Determine if string is an ES2016 keyword.	MIT
is-extendable	Returns true if a value is any of the object types: array, regexp, plain object, function or date. This is useful for determining if a value can be extended, e.g. can the value have keys?""	MIT
is-extglob	Returns true if a string has an extglob.	MIT
is-finite	ES2015 Number.isFinite() ponyfill	MIT
is-fullwidth-code-point	Check if the character represented by a given Unicode code point is fullwidth	MIT

Open Source Software Name	Description	Type of Open Source License
is-function	is that thing a function? Use this module to find out	MIT
is-generator-fn	Check if something is a generator function	MIT
is-generator-function	Determine if a function is a native generator function.	MIT
is-git-url	Regex to validate that a URL is a git url.	MIT
is-glob	Returns `true` if the given string looks like a glob pattern or an extglob pattern. This makes it easy to create code that only uses external modules like node-glob when necessary, resulting in much faster code execution and initialization time, and a better user experience.	MIT
is-installed-globally	Check if your package was installed globally	MIT
is-interactive	Check if stdout or stderr is interactive	MIT
is-invalid-path	Returns true if a file path has invalid characters.	MIT
is-ip	Check if a string is an IP address	MIT
is-jquery-obj	check if object is a jQuery object	MIT
is-lower-case	Check if a string is lower cased	MIT
is-module	check if a source string is an es6 module	MIT
is-my-ip-valid	A small lib to validate IP addresses.	MIT
is-my-json-valid	A JSONSchema validator that uses code generation to be extremely fast	MIT
is-natural-number	Check if a value is a natural number	MIT
is-negated-glob	Returns an object with a `negated` boolean and the `!` stripped from negation patterns. Also respects extglobs.	MIT
is-npm	Check if your code is running as an npm script	MIT
is-number	Returns true if a number or string value is a finite number. Useful for regex matches, parsing, user input, etc.	MIT
is-obj	Check if a value is an object	MIT
is-object	Checks whether a value is an object	MIT
is-path-cwd	Check if a path is the current working directory	MIT
is-path-in-cwd	Check if a path is in the current working directory	MIT
is-path-inside	Check if a path is inside another path	MIT

Open Source Software Name	Description	Type of Open Source License
is-plain-obj	Check if a value is a plain object	MIT
is-plain-object	Returns true if an object was created by the `Object` constructor.	MIT
is-promise	Test whether an object looks like a promises-a+ promise	MIT
is-property	Tests if a JSON property can be accessed using . syntax	MIT
is-redirect	Check if a number is a redirect HTTP status code	MIT
is-reference	Determine whether an AST node is a reference	MIT
is-regex	Is this value a JS regex? Works cross-realm/iframe, and despite ES6 @@toStringTag	MIT
is-regexp	Check whether a variable is a regular expression	MIT
is-relative	Returns `true` if the path appears to be relative.	MIT
is-retry-allowed	Is retry allowed for Error?	MIT
is-root	Check if the process is running as root user, for example, one started with `sudo`	MIT
is-stream	Check if something is a Node.js stream	MIT
is-string	Is this value a JS String object or primitive? This module works cross-realm/iframe, and despite ES6 @@toStringTag.	MIT
is-string-blank	The fast way to check if a string is blank	MIT
is-svg	Check if a string or buffer is SVG	MIT
is-symbol	Determine if a value is an ES6 Symbol or not.	MIT
is-type	Type checking from node core	MIT
is-typedarray	Detect whether or not an object is a Typed Array	MIT
is-unc-path	Returns true if a filepath is a windows UNC file path.	MIT
is-upper-case	Check if a string is upper cased	MIT
is-url	Check whether a string is a URL.	MIT
is-utf8	Detect if a buffer is utf8 encoded.	MIT
is-valid-glob	Return true if a value is a valid glob pattern or patterns.	MIT

Open Source Software Name	Description	Type of Open Source License
is-valid-path	Returns true if a file path does not contain any invalid characters.	MIT
is-what	JS type check (TypeScript supported) functions like `isPlainObject() isArray()` etc. A simple & small integration.	MIT
is-windows	Returns true if the platform is windows. UMD module, works with node.js, commonjs, browser, AMD, electron, etc.	MIT
is-wsl	Check if the process is running inside Windows Subsystem for Linux (Bash on Windows)	MIT
is-yarn-global	Check if installed by yarn globally without any `fs` calls	MIT
isArray	Array#isArray for older browsers	MIT
isbinaryfile	Detects if a file is binary in Node.js. Similar to Perl's -B.	MIT
isobject	Returns true if the value is an object and not an array or null.	MIT
isomorphic-fetch	Isomorphic WHATWG Fetch API, for Node & Browserify	MIT
isstream	Determine if an object is a Stream	MIT
istextorbinary	Determines if a buffer is comprised of text or binary	MIT
isurl	Checks whether a value is a WHATWG URL.	MIT
iterall	Minimal zero-dependency utilities for using JavaScript Iterables in all environments.	MIT
jasmine-growl-reporter	<p>[[NPM version]](https://badge.fury.io/js/jasmine-growl-reporter.png)(http://badge.fury.io/js/jasmine-growl-reporter)</p> <p>[[Dependency Status]](https://gemnasium.com/AlphaHydrae/jasmine-growl-reporter.png)(https://gemnasium.com/AlphaHydrae/jasmine-growl-reporter)</p> <p>[[Build Status]](https://secure.travis-ci.org/AlphaHydrae/jasmine-growl-reporter.png)(http://travis-ci.org/AlphaHydrae/jasmine-growl-reporter)</p>	MIT
jasmine-node	DOM-less simple JavaScript BDD testing framework for Node	MIT
jasmine-reporters	Reporters for the Jasmine BDD Framework	MIT
jest	Delightful JavaScript Testing.	MIT

Open Source Software Name	Description	Type of Open Source License
jest-changed-files	A module used internally by Jest to check which files have changed since you last committed in git or hg.	MIT
jest-config		MIT
jest-diff		MIT
jest-docblock	`jest-docblock` is a package that can extract and parse a specially-formatted comment called a docblock” at the top of a file.”	MIT
jest-each	Parameterised tests for Jest	MIT
jest-environment-jsdom		MIT
jest-environment-jsdom-fourteen	JSDOM environment for Jest with JSDOM 14	MIT
jest-environment-node		MIT
jest-get-type	A utility function to get the type of a value	MIT
jest-haste-map		MIT
jest-jasmine2		MIT
jest-leak-detector	Module for verifying whether an object has been garbage collected or not.	MIT
jest-matcher-utils	A set of utility functions for expect and related packages	MIT
jest-message-util		MIT
jest-mock	## API	MIT
jest-pnp-resolver	plug’n’play resolver for Webpack	MIT
jest-regex-util		MIT
jest-resolve		MIT
jest-resolve-dependencies		MIT
jest-runner		MIT
jest-runtime		MIT
jest-serializer	Module for serializing and deserializing object into memory and disk. By default, the `v8` implementations are used, but if not present, it defaults to `JSON` implementation. Both serializers have the advantage of being able to serialize `Map`, `Set`, `undefined`, `NaN`, etc, although the JSON one does it through a replacer/reviver.	MIT

Open Source Software Name	Description	Type of Open Source License
jest-snapshot		MIT
jest-util		MIT
jest-validate	Generic configuration validation tool that helps you with warnings, errors and deprecation messages as well as showing users examples of correct configuration.	MIT
jest-watch-typeahead	Jest plugin for filtering by filename or test name	MIT
jest-watcher	Delightful JavaScript Testing.	MIT
jest-worker	Module for executing heavy tasks under forked processes in parallel, by providing a `Promise` based interface, minimum overhead, and bound workers.	MIT
jimp	An image processing library written entirely in JavaScript (i.e. zero external or native dependencies).	MIT
jquery	JavaScript library for DOM operations	MIT
jquery-param	equivalent function to jQuery.param	MIT
js-beautify	beautifier.io for node	MIT
js-crc	Simple CRC checksum functions for JavaScript(CRC-16 and CRC-32).	MIT
js-levenshtein	The most efficient JS implementation calculating the Levenshtein distance, i.e. the difference between two strings.	MIT
js-reporters	common reporter interface for javascript testing frameworks	MIT
js-sha3	A simple SHA-3 / Keccak / Shake hash function for JavaScript supports UTF-8 encoding.	MIT
js-string-escape	Escape strings for use as JavaScript string literals	MIT
js-to-mjs	Replace .js with .mjs recursively	MIT
js-tokens	A regex that tokenizes JavaScript.	MIT
js-yaml	YAML 1.2 parser and serializer	MIT
jsbn	The jsbn library is a fast, portable implementation of large-number math in pure JavaScript, enabling public-key crypto and other applications on desktop and mobile browsers.	MIT

Open Source Software Name	Description	Type of Open Source License
jscpd	Copy/paste detector for programming code, support JavaScript, CoffeeScript, PHP, Ruby, Python, Less, Go, Java, Yaml, C#, C++, C, Puppet, Twig languages	MIT
jsdoc-babel	A JSDoc plugin that transforms ES6 source files with Babel before they are processed.	MIT
jsdoc-regexp	Regular expression for matching JSDoc comment blocks and the code below them.	MIT
jsdom	A JavaScript implementation of many web standards	MIT
jsesc	Given some data, jsesc returns the shortest possible stringified & ASCII-safe representation of that data.	MIT
json-api-serializer	Framework agnostic JSON API serializer.	MIT
json-bigint	JSON.parse with bigints support	MIT
json-buffer	JSON parse & stringify that supports binary via bops & base64	MIT
json-parse-better-errors	JSON.parse with context information on error	MIT
json-pointer	Some utilities for JSON pointers described by RFC 6901	MIT
json-refs	Various utilities for JSON References (http://tools.ietf.org/html/draft-pbryan-zyp-json-ref-03).	MIT
json-schema-ref-parser	Parse, Resolve, and Dereference JSON Schema \$ref pointers	MIT
json-schema-traverse	Traverse JSON Schema passing each schema object to callback	MIT
json-stable-stringify	deterministic JSON.stringify() with custom sorting to get deterministic hashes from stringified results	MIT
json-stable-stringify-without-jsonify	deterministic JSON.stringify() with custom sorting to get deterministic hashes from stringified results, with no public domain dependencies	MIT
json-to-ast	JSON AST parser	MIT
json3	A JSON polyfill for older JavaScript platforms.	MIT
json5	JSON for humans.	MIT
jsonapi-serializer	A Node.js framework agnostic library for serializing your data to JSON API	MIT

Open Source Software Name	Description	Type of Open Source License
jsonapi-server	A config driven NodeJS framework implementing json:api	MIT
jsonfile	Easily read/write JSON files.	MIT
jsonparse	This is a pure-js JSON streaming parser for node.js	MIT
jsonpath	Query JavaScript objects with JSONPath expressions. Robust / safe JSONPath engine for Node.js.	MIT
jsonpointer	Simple JSON Addressing.	MIT
jsontoxml	This is a library designed to render js objects as xml. Its not made to parse or otherwise edit existing xml/html structures.	MIT
jsonwebtoken	JSON Web Token implementation (symmetric and asymmetric)	MIT
jsprim	utilities for primitive JavaScript types	MIT
jsrsasign	opensource free pure JavaScript cryptographic library supports RSA/RSAPSS/ECDSA/DSA signing/validation, ASN.1, PKCS#1/5/8 private/public key, X.509 certificate, CRL, OCSP, CMS SignedData, TimeStamp and CAdES and JSON Web Signature(JWS)/Token(JWT)/Key(JWK).	MIT
jsx-ast-utils	AST utility module for statically analyzing JSX	MIT
just-debounce	a simple debounce with no dependencies or crazy defaults	MIT
just-extend	extend an object	MIT
jwa	JWA implementation (supports all JWS algorithms)	MIT
jws	Implementation of JSON Web Signatures	MIT
kebab-case	Convert a string to kebab-case, i.e. its dash separated form	MIT
keyboardevent-from-electron-accelerator	Transform an Electron Accelerator string into a DOM KeyboardEvent.	MIT
keyboardevents-areequal	Check if two keyboardevents objects are equals.	MIT
keyv	Simple key-value storage with support for multiple backends	MIT
kind-of	Get the native type of a value.	MIT
klaw	File system walker with Readable stream interface.	MIT

Open Source Software Name	Description	Type of Open Source License
kleur	The fastest Node.js library for formatting terminal text with ANSI colors~!	MIT
known-css-properties	List of known CSS properties	MIT
kuler	Color your terminal using CSS/hex color codes	MIT
last-call-webpack-plugin	A Webpack plugin that allows to transform \ modify assets just before Webpack emits them.	MIT
last-run	Capture and retrieve the last time a function was run	MIT
latest-version	Get the latest version of an npm package	MIT
lazy-cache	Cache requires to be lazy-loaded when needed.	MIT
lazy-val	Lazy value.	MIT
lazystream	Open Node Streams on demand.	MIT
lcid	Mapping between standard locale identifiers and Windows locale identifiers (LCID)	MIT
lead	Sink your streams.	MIT
leek	GA tracking	MIT
leven	Measure the difference between two strings using the fastest JS implementation of the Levenshtein distance algorithm	MIT
levenary	[[npm-version]](https://img.shields.io/npm/v/levenary.svg)(https://www.npmjs.com/package/levenary) [[github-actions]](https://github.com/tanhauhau/levenary/workflows/CI/badge.svg)] (https://github.com/tanhauhau/levenary/actions)	MIT
levn	Light ECMAScript (JavaScript) Value Notation - human written, concise, typed, flexible	MIT
lex-parser	A parser for lexical grammars used by jjson	MIT
liftoff	Launch your command line tool with ease.	MIT
linkify-it	Links recognition library with FULL unicode support	MIT
linux-platform-info	Returns platform information (arch, libc) for Linux hosts	MIT
liquid-fire	Animated transitions for Ember applications.	MIT
livereload-js	LiveReload JS client - auto reload browser on changes	MIT
load-bmfont	loads a BMFont file in Node and the browser	MIT

Open Source Software Name	Description	Type of Open Source License
load-grunt-tasks	Load multiple grunt tasks using globbing patterns	MIT
load-json-file	Read and parse a JSON file	MIT
loader-fs-cache	A published package of https://github.com/babel/babel-loader/blob/master/src/fs-cache.js	MIT
loader-runner	Runs (webpack) loaders	MIT
loader-utils	utils for webpack loaders	MIT
loader.js	loader.js =====	MIT
locate-character	Get the line and column number of a specific character in a string	MIT
locate-path	Get the first path that exists on disk of multiple paths	MIT
lodash	Lodash modular utilities.	MIT
lodash-es	Lodash exported as ES modules.	MIT
lodash._arraypool	The internal Lo-Dash variable `arrayPool` as a Node.js module generated by lodash-cli.	MIT
lodash._baseassign	The modern build of lodash's internal `baseAssign` as a module.	MIT
lodash._basebind	The internal Lo-Dash function `baseBind` as a Node.js module generated by lodash-cli.	MIT
lodash._baseclone	The internal Lo-Dash function `baseClone` as a Node.js module generated by lodash-cli.	MIT
lodash._basecopy	The modern build of lodash's internal `baseCopy` as a module.	MIT
lodash._basecreate	The internal Lo-Dash function `baseCreate` as a Node.js module generated by lodash-cli.	MIT
lodash._basecreatecallback	The internal Lo-Dash function `baseCreateCallback` as a Node.js module generated by lodash-cli.	MIT
lodash._basecreatewrapper	The internal Lo-Dash function `baseCreateWrapper` as a Node.js module generated by lodash-cli.	MIT
lodash._baseflatten	The modern build of lodash's internal `baseFlatten` as a module.	MIT
lodash._bindcallback	The modern build of lodash's internal `bindCallback` as a module.	MIT
lodash._createassigner	The modern build of lodash's internal `createAssigner` as a module.	MIT

Open Source Software Name	Description	Type of Open Source License
lodash._createwrapper	The internal Lo-Dash function `createWrapper` as a Node.js module generated by lodash-cli.	MIT
lodash._escapehtmlchar	The internal Lo-Dash function `escapeHtmlChar` as a Node.js module generated by lodash-cli.	MIT
lodash._escapestringchar	The internal Lo-Dash function `escapeStringChar` as a Node.js module generated by lodash-cli.	MIT
lodash._getarray	The internal Lo-Dash function `getArray` as a Node.js module generated by lodash-cli.	MIT
lodash._getnative	The modern build of lodash's internal `getNative` as a module.	MIT
lodash._htmlescapes	The internal Lo-Dash variable `htmlEscapes` as a Node.js module generated by lodash-cli.	MIT
lodash._isiterateecall	The modern build of lodash's internal `isIterateeCall` as a module.	MIT
lodash._isnative	The internal Lo-Dash function `isNative` as a Node.js module generated by lodash-cli.	MIT
lodash._maxpoolsize	The internal Lo-Dash variable `maxPoolSize` as a Node.js module generated by lodash-cli.	MIT
lodash._objecttypes	The internal Lo-Dash variable `objectTypes` as a Node.js module generated by lodash-cli.	MIT
lodash._reinterpolate	The modern build of lodash's internal `reInterpolate` as a module.	MIT
lodash._releasearray	The internal Lo-Dash function `releaseArray` as a Node.js module generated by lodash-cli.	MIT
lodash._renative	The internal Lo-Dash variable `reNative` as a Node.js module generated by lodash-cli.	MIT
lodash._reunesapedhtml	The internal Lo-Dash variable `reUnescapedHtml` as a Node.js module generated by lodash-cli.	MIT
lodash._setbinddata	The internal Lo-Dash function `setBindData` as a Node.js module generated by lodash-cli.	MIT
lodash._shimkeys	The internal Lo-Dash function `shimKeys` as a Node.js module generated by lodash-cli.	MIT
lodash._slice	The internal Lo-Dash function `slice` as a Node.js module generated by lodash-cli.	MIT
lodash.assign	The lodash method `_.assign` exported as a module.	MIT

Open Source Software Name	Description	Type of Open Source License
lodash.assignin	The lodash method <code>_.assignIn</code> exported as a module.	MIT
lodash.bind	The lodash method <code>_.bind</code> exported as a module.	MIT
lodash.camelcase	The lodash method <code>_.camelCase</code> exported as a module.	MIT
lodash.capitalize	The lodash method <code>_.capitalize</code> exported as a module.	MIT
lodash.castarray	The lodash method <code>_.castArray</code> exported as a module.	MIT
lodash.clone	The lodash method <code>_.clone</code> exported as a module.	MIT
lodash.clonedeep	The lodash method <code>_.cloneDeep</code> exported as a module.	MIT
lodash.compact	The lodash method <code>_.compact</code> exported as a module.	MIT
lodash.concat	The lodash method <code>_.concat</code> exported as a module.	MIT
lodash.debounce	The lodash method <code>_.debounce</code> exported as a module.	MIT
lodash.defaults	The lodash method <code>_.defaults</code> exported as a module.	MIT
lodash.defaultsdeep	The Lodash method <code>_.defaultsDeep</code> exported as a module.	MIT
lodash.difference	The lodash method <code>_.difference</code> exported as a module.	MIT
lodash.escape	The Lo-Dash function <code>_.escape</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.escaperegexp	The lodash method <code>_.escapeRegExp</code> exported as a module.	MIT
lodash.filter	The lodash method <code>_.filter</code> exported as a module.	MIT
lodash.find	The lodash method <code>_.find</code> exported as a module.	MIT
lodash.first	The modern build of lodash's <code>_.first</code> as a module.	MIT
lodash.flatten	The modern build of lodash's <code>_.flatten</code> as a module.	MIT
lodash.flattendeep	The lodash method <code>_.flattenDeep</code> exported as a module.	MIT

Open Source Software Name	Description	Type of Open Source License
lodash.flow	The lodash method <code>_.flow</code> exported as a module.	MIT
lodash.foreach	The lodash method <code>_.forEach</code> exported as a module.	MIT
lodash.forin	The lodash method <code>_.forIn</code> exported as a module.	MIT
lodash.forown	The lodash method <code>_.forOwn</code> exported as a module.	MIT
lodash.get	The lodash method <code>_.get</code> exported as a module.	MIT
lodash.has	The lodash method <code>_.has</code> exported as a module.	MIT
lodash.identity	The Lo-Dash function <code>_.identity</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.includes	The lodash method <code>_.includes</code> exported as a module.	MIT
lodash.invokemap	The lodash method <code>_.invokeMap</code> exported as a module.	MIT
lodash.isarguments	The lodash method <code>_.isArguments</code> exported as a module.	MIT
lodash.isarray	The modern build of lodash's <code>_.isArray</code> as a module.	MIT
lodash.isboolean	The lodash method <code>_.isBoolean</code> exported as a module.	MIT
lodash.isempty	The lodash method <code>_.isEmpty</code> exported as a module.	MIT
lodash.isequal	The Lodash method <code>_.isEqual</code> exported as a module.	MIT
lodash.isfunction	The Lo-Dash function <code>_.isFunction</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.isinteger	The lodash method <code>_.isInteger</code> exported as a module.	MIT
lodash.isnumber	The lodash method <code>_.isNumber</code> exported as a module.	MIT
lodash.isobject	The Lo-Dash function <code>_.isObject</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.isplainobject	The lodash method <code>_.isPlainObject</code> exported as a module.	MIT
lodash.isstring	The lodash method <code>_.isString</code> exported as a module.	MIT

Open Source Software Name	Description	Type of Open Source License
lodash.kebabcase	The lodash method <code>_.kebabCase</code> exported as a module.	MIT
lodash.keys	The modern build of lodash's <code>_.keys</code> as a module.	MIT
lodash.last	The modern build of lodash's <code>_.last</code> as a module.	MIT
lodash.lowercase	The lodash method <code>_.lowerCase</code> exported as a module.	MIT
lodash.lowerfirst	The lodash method <code>_.lowerFirst</code> exported as a module.	MIT
lodash.map	The lodash method <code>_.map</code> exported as a module.	MIT
lodash.mapvalues	The lodash method <code>_.mapValues</code> exported as a module.	MIT
lodash.memoize	The lodash method <code>_.memoize</code> exported as a module.	MIT
lodash.merge	The Lodash method <code>_.merge</code> exported as a module.	MIT
lodash.mergewith	The Lodash method <code>_.mergeWith</code> exported as a module.	MIT
lodash.noop	The Lo-Dash function <code>_.noop</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.omit	The lodash method <code>_.omit</code> exported as a module.	MIT
lodash.once	The lodash method <code>_.once</code> exported as a module.	MIT
lodash.pick	The lodash method <code>_.pick</code> exported as a module.	MIT
lodash.pickby	The lodash method <code>_.pickBy</code> exported as a module.	MIT
lodash.reduce	The lodash method <code>_.reduce</code> exported as a module.	MIT
lodash.reject	The lodash method <code>_.reject</code> exported as a module.	MIT
lodash.remove	The lodash method <code>_.remove</code> exported as a module.	MIT
lodash.restparam	The modern build of lodash's <code>_.restParam</code> as a module.	MIT
lodash.set	The lodash method <code>_.set</code> exported as a module.	MIT
lodash.snakecase	The lodash method <code>_.snakeCase</code> exported as a module.	MIT

Open Source Software Name	Description	Type of Open Source License
lodash.some	The lodash method <code>_.some</code> exported as a module.	MIT
lodash.sortby	The lodash method <code>_.sortBy</code> exported as a module.	MIT
lodash.startcase	The lodash method <code>_.startCase</code> exported as a module.	MIT
lodash.support	The Lo-Dash object <code>_.support</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.tail	The lodash method <code>_.tail</code> exported as a module.	MIT
lodash.template	The Lodash method <code>_.template</code> exported as a module.	MIT
lodash.templatesettings	The Lodash method <code>_.templateSettings</code> exported as a module.	MIT
lodash.times	The lodash method <code>_.times</code> exported as a module.	MIT
lodash.toArray	The lodash method <code>_.toArray</code> exported as a module.	MIT
lodash.transform	The lodash method <code>_.transform</code> exported as a module.	MIT
lodash.trim	The lodash method <code>_.trim</code> exported as a module.	MIT
lodash.unescape	The lodash method <code>_.unescape</code> exported as a module.	MIT
lodash.union	The lodash method <code>_.union</code> exported as a module.	MIT
lodash.uniq	The lodash method <code>_.uniq</code> exported as a module.	MIT
lodash.uniqby	The lodash method <code>_.uniqBy</code> exported as a module.	MIT
lodash.values	The Lo-Dash function <code>_.values</code> as a Node.js module generated by <code>lodash-cli</code> .	MIT
lodash.zipobject	The lodash method <code>_.zipObject</code> exported as a module.	MIT
lodash.zipwith	The lodash method <code>_.zipWith</code> exported as a module.	MIT
log-symbols	Colored symbols for various log levels. Example: <code>`Success`</code>	MIT
log-update-async-hook	log-update fork that uses <code>async-exit-hook</code> internally	MIT

Open Source Software Name	Description	Type of Open Source License
logform	An mutable object-based log format designed for chaining & objectMode streams.	MIT
loglevel	Minimal lightweight logging for JavaScript, adding reliable log level methods to any available console. log methods	MIT
loglevel-message-prefix	Plugin for loglevel which allows defining prefixes for log messages	MIT
loglevelnext	A modern logging library for Node.js and modern browsers that provides log level mapping to the console	MIT
lokka	Simple JavaScript client for GraphQL	MIT
lokka-transport-http	Isomorphic HTTP Transport for Lokka	MIT
longest	Get the longest item in an array.	MIT
loose-envify	Fast (and loose) selective `process.env` replacer using js-tokens instead of an AST	MIT
loud-rejection	Make unhandled promise rejections fail loudly instead of the default silent fail	MIT
lower-case	Transforms the string to lower case	MIT
lower-case-first	Lower case the first character of a string	MIT
lowercase-keys	Lowercase the keys of an object	MIT
lru-queue	LRU Queue	MIT
lunr	Simple full-text search in your browser.	MIT
magic-string	Modify strings, generate sourcemaps	MIT
make-dir	Make a directory and its parents if needed - Think `mkdir -p`	MIT
make-iterator	Convert an argument into a valid iterator. Based on the `.makeIterator()` implementation in mout https://github.com/mout/mout .	MIT
mamacro		MIT
map-age-cleaner	Automatically cleanup expired items in a Map	MIT
map-cache	Basic cache object for storing key-value pairs.	MIT
map-obj	Map object keys and values into a new object	MIT
map-reverse	Apply a function to an array from then end to the beginning.	MIT

Open Source Software Name	Description	Type of Open Source License
map-visit	Map `visit` over an array of objects.	MIT
mark.js	Highlight keywords using JavaScript. Intended for every use case. Can e.g. be used to mark text in search results.	MIT
markdown-it	Markdown-it - modern pluggable markdown parser.	MIT
markdown-it-terminal	Plugin for markdown-it to parse and output markdown formatted for the terminal	MIT
marked	A markdown parser built for speed	MIT
match-url-wildcard	Module to match url by pattern with wildcard	MIT
matchdep	Use micromatch to filter npm module dependencies by name.	MIT
matches-selector	Check if a DOM element matches a given selector, with decent browser support and unit tests.	MIT
md5-hex	Create a MD5 hash with hex encoding	MIT
md5-o-matic	Fast and simple MD5 hashing utility with zero module dependencies. View MD5 Shootout results, http://jsperf.com/md5-shootout/39	MIT
md5.js	node style md5 on pure JavaScript	MIT
mdn-links	Caches data from the Mozilla Developer Network wiki and provides methods to return links to documentation for JavaScript and DOM objects.	MIT
mdurl	URL utilities for markdown-it	MIT
media-typer	Simple RFC 6838 media type parser and formatter	MIT
mem	Memoize functions - An optimization used to speed up consecutive function calls by caching the result of calls with identical input	MIT
memoize-one	A memoization library which only remembers the latest invocation	MIT
memory-fs	A simple in-memory filesystem. Holds data in a javascript object.	MIT
memory-streams	Simple implmentation of Stream.Readable and Stream.Writable holding the data in memory.	MIT
meow	CLI app helper	MIT

Open Source Software Name	Description	Type of Open Source License
merge	Merge multiple objects into one, optionally creating a new cloned object. Similar to the jQuery.extend but more flexible. Works in Node.js and the browser.	MIT
merge-anything	Merge objects & other types recursively. A simple & small integration.	MIT
merge-deep	Recursively merge values in a javascript object.	MIT
merge-descriptors	Merge objects using descriptors	MIT
merge-options	Merge Option Objects	MIT
merge-package.json	Merge package.json using local, base, and remote	MIT
merge-source-map	Merge old source map and new source map in multi-transform flow	MIT
merge-stream	Create a stream that emits events from multiple other streams	MIT
merge-trees	Incrementally merge directories.	MIT
merge2	Merge multiple streams into one stream in sequence or parallel.	MIT
method-override	Override HTTP verbs	MIT
methods	HTTP methods that node supports	MIT
microevent.ts	Zero cost events	MIT
micromatch	Glob matching for javascript/node.js. A replacement and faster alternative to minimatch and multimatch.	MIT
milller-rabin	Miller Rabin algorithm for primality test	MIT
mime	A comprehensive library for mime-type mapping	MIT
mime-db	Media Type Database	MIT
mime-types	The ultimate javascript content-type utility.	MIT
mimer	A simple Mime type getter	MIT
mimic-fn	Make a function mimic another one	MIT
mimic-response	Mimic a Node.js HTTP response stream	MIT
min-document	A minimal DOM implementation	MIT
mini-css-extract-plugin	extracts CSS into separate files	MIT
minimalistic-crypto-utils	Minimalistic tools for JS crypto modules	MIT

Open Source Software Name	Description	Type of Open Source License
minimist	parse argument options	MIT
miragejs	A client-side server to help you build, test and demo your JavaScript app	MIT
mixin-deep	Deeply mix the properties of objects into the first object. Like merge-deep, but doesn't clone.	MIT
mixin-object	Mixin the own and inherited properties of other objects onto the first object. Pass an empty object as the first arg to shallow clone.	MIT
mixme	A library for recursive merging of Javascript objects	MIT
mkdirp	Recursively mkdir, like `mkdir -p`	MIT
mkdirp-classic	Mirror of mkdirp 0.5.2	MIT
mktemp	mktemp command for node.js	MIT
mobx	Simple, scalable state management.	MIT
mobx-react	React bindings for MobX. Create fully reactive components.	MIT
mobx-react-lite	Lightweight React bindings for MobX based on React 16.8 and Hooks	MIT
mocha	simple, flexible, fun test framework	MIT
mocha-junit-reporter	A JUnit reporter for mocha.	MIT
mocha-performance	Runtime performance analysis off the back of a mocha test suite.	MIT
mock-socket	Javascript mocking library for websockets and socket.io	MIT
moment	Parse, validate, manipulate, and display dates	MIT
moment-duration-format-commonjs	A moment.js plugin for formatting durations.	MIT
moment-timezone	Parse and display moments in any timezone.	MIT
more-entropy	Generate more entropy to combine with Node's crypto.rng or window.crypto	MIT
morgan	HTTP request logger middleware for node.js	MIT
mout	Modular Utilities	MIT
ms	Tiny millisecond conversion utility	MIT
multer	Middleware for handling `multipart/form-data`.	MIT

Open Source Software Name	Description	Type of Open Source License
multicast-dns	Low level multicast-dns implementation in pure javascript	MIT
multicast-dns-service-types	Parse and stringify mdns service types	MIT
multimatch	Extends minimatch.match() with support for multiple patterns	MIT
mustache	Logic-less {{mustache}} templates with JavaScript	MIT
mute-stdout	Mute and unmute stdout.	MIT
nan	Native Abstractions for Node.js: C++ header for Node 0.8 -> 14 compatibility	MIT
nanoid	A tiny (143 bytes), secure URL-friendly unique string ID generator	MIT
nanomatch	Fast, minimal glob matcher for node.js. Similar to micromatch, minimatch and multimatch, but complete Bash 4.3 wildcard support only (no support for exglobs, posix brackets or braces)	MIT
napi-build-utils	A set of utilities to assist developers of tools that build N-API native add-ons	MIT
native-promise-only	Native Promise Only: A polyfill for native ES6 Promises **only** , nothing else.	MIT
natural-compare	Compare strings containing a mix of letters and numbers in the way a human being would in sort order.	MIT
ncp	Asynchronous recursive file copy utility.	MIT
negotiator	HTTP content negotiation	MIT
neo-async	Neo-Async is thought to be used as a drop-in replacement for Async, it almost fully covers its functionality and runs faster	MIT
nested-error-stacks	An Error subclass that will chain nested Errors and dump nested stacktraces	MIT
next-tick	Environment agnostic nextTick polyfill	MIT
ngeohash	geohash library for nodejs	MIT
nice-try	Tries to execute a function and discards any error that occurs	MIT
no-case	Transform into a lower cased string with spaces between words	MIT

Open Source Software Name	Description	Type of Open Source License
nock	HTTP server mocking and expectations library for Node.js	MIT
node-abi	Get the Node ABI for a given target and runtime, and vice versa.	MIT
node-cache	Simple and fast NodeJS internal caching. Node internal in memory cache like memcached.	MIT
node-dir	asynchronous file and directory operations for Node.js	MIT
node-emoji	simple emoji support for node.js projects	MIT
node-expel	Node helper library	MIT
node-fetch	A light-weight module that brings window.fetch to node.js	MIT
node-fetch-h2	Implementation of window.fetch which can use http2 seamlessly	MIT
node-gyp	Node.js native addon build tool	MIT
node-int64	Support for representing 64-bit integers in JavaScript	MIT
node-jq	Run jq in node	MIT
node-libs-browser	The node core libs for in browser usage.	MIT
node-modules-regexp	A regular expression for file paths that contain a `node_modules` folder.	MIT
node-notifier	A Node.js module for sending notifications on native Mac, Windows (post and pre 8) and Linux (or Growl as fallback)	MIT
node-preload	Request that Node.js child processes preload modules	MIT
node-rdkafka	Node.js bindings for librdkafka	MIT
node-readfiles	A lightweight Node.js module to recursively read files in a directory using ES6 Promises	MIT
node-releases	Node.js releases data	MIT
node-sass	Wrapper around libsass	MIT
node-sass-middleware	Connect middleware for node-sass	MIT
node-version	Get Node current version	MIT
node-watch	A wrapper and enhancements for fs.watch	MIT

Open Source Software Name	Description	Type of Open Source License
nodemon	Simple monitor script for use during development of a node.js app.	MIT
noop-logger	A logger that does exactly nothing.	MIT
normalize-newline	Normalize the newline characters in a string to <code>\n`</code>	MIT
normalize-path	Normalize slashes in a file path to be posix/unix-like forward slashes. Also condenses repeat slashes to a single slash and removes and trailing slashes, unless disabled.	MIT
normalize-range	Utility for normalizing a numeric range, with a wrapping function useful for polar coordinates	MIT
normalize-url	Normalize a URL	MIT
normalize.css	A modern alternative to CSS resets	MIT
notepack.io	A fast Node.js implementation of the latest MessagePack spec	MIT
now-and-later	Map over an array or object of values in parallel or series, passing each through the async iterator, with optional lifecycle hooks.	MIT
npm-conf	Get the npm config	MIT
npm-git-info	Retrieves git information from package that installed as NPM package.	MIT
npm-install-package	Install an npm package	MIT
npm-run-path	Get your PATH prepended with locally installed binaries	MIT
num2fraction	Convert number to fraction	MIT
number-is-nan	ES2015 Number.isNaN() ponyfill	MIT
numeral	Format and manipulate numbers.	MIT
nwmatcher	A CSS3-compliant JavaScript selector engine.	MIT
nwsapi	Fast CSS Selectors API Engine	MIT
oauth	Library for interacting with OAuth 1.0, 1.0A, 2 and Echo. Provides simplified client access and allows for construction of more complex apis and OAuth providers.	MIT
object-assign	ES2015 `Object.assign()` ponyfill	MIT
object-copy	Copy static properties, prototype properties, and descriptors from one object to another.	MIT

Open Source Software Name	Description	Type of Open Source License
object-hash	Generate hashes from javascript objects in node and the browser.	MIT
object-inspect	string representations of objects in node and the browser	MIT
object-is	ES6-compliant shim for Object.is - differentiates between -0 and +0	MIT
object-keys	An Object.keys replacement, in case Object.keys is not available. From https://github.com/es-shims/es5-shim	MIT
object-visit	Call a specified method on each value in the given object.	MIT
object.assign	ES6 spec-compliant Object.assign shim. From https://github.com/es-shims/es6-shim	MIT
object.defaults	Like `extend` but only copies missing properties/values to the target object.	MIT
object.fromentries	ES proposal-spec-compliant Object.fromEntries shim.	MIT
object.getownpropertydescriptors	ES2017 spec-compliant shim for `Object.getOwnPropertyDescriptor` that works in ES5.	MIT
object.map	Similar to map for arrays, this creates a new object by calling the callback on each property of the original object.	MIT
object.pick	Returns a filtered copy of an object with only the specified keys, similar to `_.pick` from lodash / underscore.	MIT
object.reduce	Reduces an object to a value that is the accumulated result of running each property in the object through a callback.	MIT
object.values	ES2017 spec-compliant Object.values shim.	MIT
obuf	Byte buffer specialized for data in chunks with special cases for dropping bytes in the front, merging bytes in to various integer types and abandoning buffer without penalty for previous chunk merges.	MIT
omggif	omggif is a JavaScript implementation of a GIF 89a encoder and decoder.	MIT
on-finished	Execute a callback when a request closes, finishes, or errors	MIT

Open Source Software Name	Description	Type of Open Source License
on-headers	Execute a listener when a response is about to write headers	MIT
one-time	Run the supplied function exactly one time (once)	MIT
onetime	Ensure a function is only called once	MIT
ono	Throw better errors.	MIT
openapi-sampler	Tool for generation samples based on OpenAPI payload/response schema	MIT
openapi-schemas	JSON Schemas for every version of the OpenAPI Specification	MIT
openapi-types	Types for OpenAPI documents.	MIT
opn	A better node-open. Opens stuff like websites, files, executables. Cross-platform.	MIT
optimize-css-assets-webpack-plugin	A Webpack plugin to optimize \ minimize CSS assets.	MIT
optionator	option parsing and help generation	MIT
optjs	Probably the sole command line option parser you'll ever need to...	MIT
ora	Elegant terminal spinner	MIT
orca	Plotly's image-exporting utilities	MIT
ordered-read-streams	Combines array of streams into one read stream in strict order	MIT
original	Generate the origin from an URL or check if two URL/Origins are the same	MIT
os-browserify	The [os](https://nodejs.org/api/os.html) module from node.js, but for browsers.	MIT
os-family	Guess what? It gives you OS family. Whoa!	MIT
os-homedir	Node.js 4 `os.homedir()` ponyfill	MIT
os-locale	Get the system locale	MIT
os-tmpdir	Node.js os.tmpdir() ponyfill	MIT
otplib	HMAC-based (HOTP) and Time-based (TOTP) One-Time Password library	MIT
p-cancelable	Create a promise that can be canceled	MIT
p-defer	Create a deferred promise	MIT

Open Source Software Name	Description	Type of Open Source License
p-each-series	Iterate over promises serially	MIT
p-event	Promisify an event by waiting for it to be emitted	MIT
p-finally	<code>Promise#finally()</code> ponyfill - Invoked when the promise is settled regardless of outcome	MIT
p-is-promise	Check if something is a promise	MIT
p-limit	Run multiple promise-returning & async functions with limited concurrency	MIT
p-locate	Get the first fulfilled promise that satisfies the provided testing function	MIT
p-map	Map over promises concurrently	MIT
p-map-series	Map over promises serially	MIT
p-queue	Promise queue with concurrency control	MIT
p-reduce	Reduce a list of values using promises into a promise for a value	MIT
p-retry	Retry a promise-returning or async function	MIT
p-timeout	Timeout a promise after a specified amount of time	MIT
p-try	<code>Start a promise chain</code>	MIT
package-json	Get metadata of a package from the npm registry	MIT
packet-reader	Read binary packets...	MIT
pad-start	ES spec-compliant <code>String.prototype.padStart</code> shim.	MIT
pad-stream	Pad each line in a stream	MIT
parallel-transform	Transform stream that allows you to run your transforms in parallel without changing the order	MIT
param-case	Transform into a lower cased string with dashes between words	MIT
parent-module	Get the path of the parent module	MIT
parse-bmfont-ascii	parses ASCII BMFont files to a JavaScript object	MIT
parse-bmfont-binary	reads a BMFont binary in a Buffer into a JSON object	MIT
parse-bmfont-xml	parses XML BMFont files into a JavaScript object	MIT
parse-filepath	Pollyfill for node.js <code>path.parse</code> , parses a filepath into an object.	MIT

Open Source Software Name	Description	Type of Open Source License
parse-git-config	Parse <code>`.git/config`</code> into a JavaScript object. sync or async.	MIT
parse-headers	Parse http headers, works with browserify/xhr	MIT
parse-json	Parse JSON with more helpful errors	MIT
parse-ms	Parse milliseconds into an object	MIT
parse-node-version	Turn node's <code>process.version</code> into something useful.	MIT
parse-passwd	Parse a <code>passwd</code> file into a list of users.	MIT
parse-png	Parse a PNG	MIT
parse5	HTML parser and serializer.	MIT
parseqs	Provides methods for parsing a query string into an object, and vice versa.	MIT
parseuri	Method that parses a URI and returns an array of its components	MIT
parseurl	parse a url with memoization	MIT
pascal-case	Transform into a string of capitalized words without separators	MIT
pascalcase	Convert a string to pascal-case.	MIT
passport	Simple, unobtrusive authentication for Node.js.	MIT
passport-microsoft	Microsoft [Graph] authentication strategy for Passport.	MIT
passport-oauth2	OAuth 2.0 authentication strategy for Passport.	MIT
passport-saml	SAML 2.0 authentication strategy for Passport	MIT
passport-strategy	An abstract class implementing Passport's strategy API.	MIT
path-browserify	the path module from node core for browsers	MIT
path-case	Transform into a lower case string with slashes between words	MIT
path-dirname	Node.js <code>path.dirname()</code> ponyfill	MIT
path-exists	Check if a path exists	MIT
path-is-absolute	Node.js 0.12 <code>path.isAbsolute()</code> ponyfill	MIT
path-key	Get the PATH environment variable key cross-platform	MIT

Open Source Software Name	Description	Type of Open Source License
path-loader	Utility that provides a single API for loading the content of a path/URL.	MIT
path-parse	Node.js path.parse() ponyfill	MIT
path-root	Get the root of a posix or windows filepath.	MIT
path-root-regex	Regular expression for getting the root of a posix or windows filepath.	MIT
path-to-regexp	Express style path to RegExp utility	MIT
path-type	Check if a path is a file, directory, or symlink	MIT
pathval	Object value retrieval given a string path	MIT
pbkdf2	This library provides the functionality of PBKDF2 with the ability to use any supported hashing algorithm returned from crypto.getHashes()	MIT
pend	dead-simple optimistic async helper	MIT
perfect-scrollbar	Minimalistic but perfect custom scrollbar plugin	MIT
performance-now	Implements performance.now (based on process.hrtime).	MIT
pg	PostgreSQL client - pure javascript & libpq with the same API	MIT
pg-connection-string	Functions for dealing with a PostgreSQL connection string	MIT
pg-cursor	Query cursor extension for node-postgres	MIT
pg-packet-stream		MIT
pg-pool	Connection pool for node-postgres	MIT
pg-query-stream	Postgres query result returned as readable stream	MIT
pg-types	Query result type converters for node-postgres	MIT
pgp-utils	Simple PGP utils	MIT
pgpass	Module for reading .pgpass	MIT
phin	Ultra-simple, lightweight, dependency-free Node.JS HTTP request client	MIT
picomatch	Blazing fast and accurate glob matcher written in JavaScript, with no dependencies and full support for standard and extended Bash glob features, including braces, extglobs, POSIX brackets, and regular expressions.	MIT

Open Source Software Name	Description	Type of Open Source License
pify	Promisify a callback-style function	MIT
pinkie	Itty bitty little widdle twinkie pinkie ES2015 Promise implementation	MIT
pinkie-promise	ES2015 Promise ponyfill	MIT
pirates	Properly hijack require	MIT
pkg-conf	Get namespaced config from the closest package.json	MIT
pkg-config	parse the closest `package.json` and get package specific configurations	MIT
pkg-dir	Find the root directory of a Node.js project or npm package	MIT
pkg-up	Find the closest package.json file	MIT
pkginfo	An easy way to expose properties on a module from a package.json	MIT
please-upgrade-node	Displays a beginner-friendly message telling your user to upgrade their version of Node	MIT
plugin-error	Error handling for Vinyl plugins.	MIT
pluralize	Pluralize and singularize any word	MIT
pn	Promisify the node standard library.	MIT
pngjs	PNG encoder/decoder in pure JS, supporting any bit size & interlace, async & sync with full test suite.	MIT
pnp-webpack-plugin	plug'n'play resolver for Webpack	MIT
polished	A lightweight toolset for writing styles in Javascript.	MIT
popper.js	A kickass library to manage your poppers	MIT
portfinder	A simple tool to find an open port on the current machine	MIT
posix-character-classes	POSIX character classes for creating regular expressions.	MIT
postcss	Tool for transforming styles with JS plugins	MIT
postcss-attribute-case-insensitive	PostCSS plugin to support case insensitive attributes	MIT
postcss-calc	PostCSS plugin to reduce calc()	MIT
postcss-color-hex-alpha	Use 4 & 8 character hex color notation in CSS	MIT

Open Source Software Name	Description	Type of Open Source License
postcss-color-rebeccapurple	PostCSS plugin to transform W3C CSS rebeccapurple color to more compatible CSS (rgb())	MIT
postcss-colormin	Minify colors in your CSS files with PostCSS.	MIT
postcss-convert-values	Convert values with PostCSS (e.g. ms -> s)	MIT
postcss-css-variables	PostCSS plugin to transform CSS Custom Properties(CSS variables) syntax into a static representation	MIT
postcss-custom-media	Use Custom Media Queries in CSS	MIT
postcss-custom-properties	Use Custom Properties Queries in CSS	MIT
postcss-custom-selectors	Use Custom Selectors in CSS	MIT
postcss-discard-comments	Discard comments in your CSS files with PostCSS.	MIT
postcss-discard-duplicates	Discard duplicate rules in your CSS files with PostCSS.	MIT
postcss-discard-empty	Discard empty rules and values with PostCSS.	MIT
postcss-discard-overridden	PostCSS plugin to discard overridden @keyframes or @counter-style.	MIT
postcss-flexbugs-fixes	PostCSS plugin This project tries to fix all of flexbug's issues	MIT
postcss-font-variant	PostCSS plugin to transform W3C font-variant properties to more compatible CSS (font-feature-settings)	MIT
postcss-functions	PostCSS plugin for exposing JavaScript functions	MIT
postcss-import	PostCSS plugin to import CSS files	MIT
postcss-initial	PostCSS plugin to fallback initial keyword.	MIT
postcss-js	PostCSS for React Inline Styles, Radium, Free Style and other CSS-in-JS	MIT
postcss-less	LESS parser for PostCSS	MIT
postcss-load-config	Autoload Config for PostCSS	MIT
postcss-loader	PostCSS loader for webpack	MIT
postcss-media-minmax	Using more intuitive >=, <=, >, < instead of media queries min/max prefix.	MIT
postcss-merge-longhand	Merge longhand properties into shorthand with PostCSS.	MIT
postcss-merge-rules	Merge CSS rules with PostCSS.	MIT

Open Source Software Name	Description	Type of Open Source License
postcss-minify-font-values	Minify font declarations with PostCSS	MIT
postcss-minify-gradients	Minify gradient parameters with PostCSS.	MIT
postcss-minify-params	Minify at-rule params with PostCSS	MIT
postcss-minify-selectors	Minify selectors with PostCSS.	MIT
postcss-modules-local-by-default	A CSS Modules transform to make local scope the default	MIT
postcss-nested	PostCSS plugin to unwrap nested rules like how Sass does it	MIT
postcss-normalize-charset	Add necessary or remove extra charset with PostCSS	MIT
postcss-normalize-display-values	Normalize multiple value display syntaxes into single values.	MIT
postcss-normalize-positions	Normalize keyword values for position into length values.	MIT
postcss-normalize-repeat-style	Convert two value syntax for repeat-style into one value.	MIT
postcss-normalize-string	Normalize wrapping quotes for CSS string literals.	MIT
postcss-normalize-timing-functions	Normalize CSS animation/transition timing functions.	MIT
postcss-normalize-unicode	Normalize unicode-range descriptors, and can convert to wildcard ranges.	MIT
postcss-normalize-url	Normalize URLs with PostCSS	MIT
postcss-normalize-whitespace	Trim whitespace inside and around CSS rules & declarations.	MIT
postcss-ordered-values	Ensure values are ordered consistently in your CSS.	MIT
postcss-page-break	PostCSS plugin postcss-page-break to fallback `break` properties with `page-break` alias	MIT
postcss-reduce-initial	Reduce initial definitions to the actual initial value, where possible.	MIT
postcss-reduce-transforms	Reduce transform functions with PostCSS.	MIT
postcss-replace-overflow-wrap	PostCSS plugin to replace overflow-wrap with word-wrap or optionally retain both declarations.	MIT
postcss-safe-parser	Fault-tolerant CSS parser for PostCSS	MIT
postcss-scss	SCSS parser for PostCSS	MIT

Open Source Software Name	Description	Type of Open Source License
postcss-selector-matches	PostCSS plugin to transform :matches() W3C CSS pseudo class to more compatible CSS selectors	MIT
postcss-selector-namespace	A postcss plugin to prefix each rule with a specific selector	MIT
postcss-selector-not	PostCSS plugin to transform :not() W3C CSS level 4 pseudo class to :not() CSS level 3 selectors	MIT
postcss-selector-parser	> Selector parser with built in methods for working with selector strings.	MIT
postcss-svg	Optimise inline SVG with PostCSS.	MIT
postcss-unique-selectors	Ensure CSS selectors are unique.	MIT
postcss-value-parser	Transforms css values and at-rule params into the tree	MIT
postcss-values-parser	A CSS property value parser for use with PostCSS	MIT
postgres-array	Parse postgres array columns	MIT
postgres-bytea	Postgres bytea parser	MIT
postgres-date	Postgres date column parser	MIT
postgres-interval	Parse Postgres interval columns	MIT
prebuild-install	A command line tool to easily install prebuilt binaries for multiple version of node/iojs on a specific platform	MIT
prelude-ls	prelude.ls is a functionally oriented utility library. It is powerful and flexible. Almost all of its functions are curried. It is written in, and is the recommended base library for, LiveScript.	MIT
prepend-http	Prepend `http://` to humanized URLs like todomvc.com and localhost	MIT
pretender	Pretender is a mock server library for XMLHttpRequest and Fetch, that comes with an express/sinatra style syntax for defining routes and their handlers.	MIT
pretty-bytes	Convert bytes to a human readable string: 1337 → 1.34 kB	MIT
pretty-error	See nodejs errors with less clutter	MIT
pretty-format	Stringify any JavaScript value.	MIT
pretty-hrtime	process.hrtime() to words	MIT

Open Source Software Name	Description	Type of Open Source License
pretty-ms	Convert milliseconds to a human readable string: <code>`1337000000` → `15d 11h 23m 20s`</code>	MIT
printf	Full implementation of the <code>`printf`</code> family in pure JS.	MIT
prismjs	Lightweight, robust, elegant syntax highlighting. A spin-off project from Dabblet.	MIT
private	Utility for associating truly private state with any JavaScript object	MIT
process	process information for node.js and browsers	MIT
process-nexttick-args	<code>process.nextTick</code> but always with args	MIT
process-on-spawn	Execute callbacks when child processes are spawned	MIT
progress	Flexible ascii progress bar	MIT
promise	Bare bones Promises/A+ implementation	MIT
promise-map-series	Map over array avoiding parallel execution, using promises	MIT
promise.prototype.finally	ES Proposal spec-compliant shim for Promise. <code>prototype.finally</code>	MIT
promisepipe	Pipe node.js streams safely with Promises	MIT
promisify-event	Promisify EventEmitter's event.	MIT
prompt	A beautiful command-line prompt for node.js	MIT
prompts	Lightweight, beautiful and user-friendly prompts	MIT
prop-types	Runtime type checking for React props and similar objects.	MIT
propagate	Propagate events	MIT
proxy-addr	Determine address of proxied request	MIT
proxy-from-env	Offers <code>getProxyForUrl</code> to get the proxy URL for a URL, respecting the <code>*_PROXY</code> (e.g. <code>HTTP_PROXY</code>) and <code>NO_PROXY</code> environment variables.	MIT
prrr	A better <code>Object.defineProperty()</code>	MIT
ps-node	A process lookup utility	MIT
psl	Domain name parser based on the Public Suffix List	MIT
pstree.remy	Collects the full tree of processes from <code>/proc</code>	MIT

Open Source Software Name	Description	Type of Open Source License
public-encrypt	browserify version of publicEncrypt & privateDecrypt	MIT
pump	pipe streams together and close all of them if one of them closes	MIT
pumpify	Combine an array of streams into a single duplex stream using pump and duplexify	MIT
punycode	A robust Punycode converter that fully complies to RFC 3492 and RFC 5891, and works on nearly all JavaScript platforms.	MIT
purepack	A browserify, Pure JS implementation of msgpack spec v5	MIT
q	A library for promises (CommonJS/Promises/A,B,D)	MIT
qr-image	QR Code generator (png, svg, pdf, eps)	MIT
query-string	Parse and stringify URL query strings	MIT
querystring	Node's querystring module for all engines.	MIT
querystring-es3	Node's querystring module for all engines. (ES3 compat fork)	MIT
querystringify	Querystringify - Small, simple but powerful query string parser.	MIT
quibble	Makes it easy to replace require'd dependencies.	MIT
quick-lru	Simple Least Recently Used" (LRU) cache"	MIT
quick-temp	Create and remove temporary directories with minimal effort	MIT
qunit	An easy-to-use JavaScript Unit Testing framework.	MIT
qunit-dom	High Level DOM Assertions for QUnit	MIT
raf	requestAnimationFrame polyfill for node and the browser	MIT
random-bytes	URL and cookie safe UIDs	MIT
randombytes	random bytes from browserify stand alone	MIT
randomfill	random fill from browserify stand alone	MIT
range-parser	Range header field string parser	MIT
raw-body	Get and validate the raw body of a readable stream.	MIT

Open Source Software Name	Description	Type of Open Source License
raw-loader	A loader for webpack that allows importing files as a String	MIT
react	React is a JavaScript library for building user interfaces.	MIT
react-app-polyfill	Polyfills for various browsers including commonly used language features	MIT
react-csv	Build CSV files on the fly basing on Array/literal object of data	MIT
react-dev-utils	Webpack utilities used by Create React App	MIT
react-dom	React package for working with the DOM.	MIT
react-dropdown	React dropdown component	MIT
react-error-overlay	An overlay for displaying stack frames.	MIT
react-is	Brand checking of React Elements.	MIT
react-scripts	Configuration and scripts for Create React App.	MIT
react-tabs	An accessible and easy tab component for ReactJS	MIT
read-cache	Reads and caches the entire contents of a file until it is modified	MIT
read-chunk	Read a chunk from a file	MIT
read-config-file	Read configuration file in various formats:	MIT
read-file-relative	Read files with path relative to the current module without annoying boilerplate code	MIT
read-pkg	Read a package.json file	MIT
read-pkg-up	Read the closest package.json file	MIT
readable-stream	Streams3, a user-land copy of the stream library from Node.js	MIT
readdirp	Recursive version of fs.readdir with streaming api.	MIT
readline2	Readline Façade fixing bugs and issues found in releases 0.8 and 0.10	MIT
realpath-native	Use the system's native `realpath`	MIT
recast	JavaScript syntax tree transformer, nondestructive pretty-printer, and automatic source map generator	MIT
rechoir	Require any supported file as a node module.	MIT

Open Source Software Name	Description	Type of Open Source License
recursive-readdir	Get an array of all files in a directory and subdirectories.	MIT
redent	Strip redundant indentation and indent the string	MIT
redeyed	Takes JavaScript code, along with a config and returns the original code with tokens wrapped as configured.	MIT
redis	A high performance Redis client.	MIT
redis-commands	Redis commands	MIT
redis-errors	Error classes used in node_redis	MIT
redis-js	An in-memory redis-compatible implementation written in pure javascript. Part of the [Rarefied Redis Project](http://wilkenstein.github.io/rarefied-redis/).	MIT
redis-parser	Javascript Redis protocol (RESP) parser	MIT
redoc	ReDoc	MIT
redoc-cli	ReDoc's Command Line Interface	MIT
reduce-css-calc	Reduce CSS calc() function to the maximum	MIT
regenerate	Generate JavaScript-compatible regular expressions based on a given set of Unicode symbols or code points.	MIT
regenerate-unicode-properties	Regenerate sets for Unicode properties and values.	MIT
regenerator-runtime	Runtime for Regenerator-compiled generator and async functions.	MIT
regenerator-transform	Explode async and generator functions into a state machine.	MIT
regex-not	Create a javascript regular expression for matching everything except for the given string.	MIT
regexp-tree	Regular Expressions parser in JavaScript	MIT
regexp.prototype.flags	ES6 spec-compliant RegExp.prototype.flags shim.	MIT
regexp	Regular expression parser for ECMAScript 2018.	MIT
regexpu-core	regexpu's core functionality (i.e. <code>rewritePattern(pattern, flag)</code>), capable of translating ES6 Unicode regular expressions to ES5.	MIT
registry-auth-token	Get the auth token set for an npm registry (if any)	MIT
registry-url	Get the set npm registry URL	MIT

Open Source Software Name	Description	Type of Open Source License
regjsngen	Generate regular expressions from regjsparser's AST.	MIT
relateurl	Minify URLs by converting them from absolute to relative.	MIT
remarkable	Markdown parser, done right. 100% Commonmark support, extensions, syntax plugins, high speed - all in one.	MIT
remote-git-tags	Get tags from a remote Git repo. Using only JS. No Git binary required.	MIT
remove-bom-buffer	Remove a byte order mark (BOM) from a buffer.	MIT
remove-bom-stream	Remove a UTF8 BOM at the start of the stream.	MIT
renderkid	Stylish console.log for node	MIT
repeat-element	Create an array by repeating the given value n times.	MIT
repeat-string	Repeat the given string n times. Fastest implementation for repeating a string.	MIT
repeating	Repeat a string - fast	MIT
replace-ext	Replaces a file extension with another one	MIT
replace-homedir	Replace user home in a string with another string. Useful for tildifying a path.	MIT
replicator	Advanced JavaScript objects serialization.	MIT
request-etag	Small, ETag-based, HTTP-response-caching module	MIT
request-progress	Tracks the download progress of a request made with mikeal/request, giving insight of various metrics including progress percent, download speed and time remaining	MIT
require-directory	Recursively iterates over specified directory, require()'ing each file, and returning a nested hash structure containing those modules.	MIT
require-from-string	Require module from string	MIT
require-relative	require and resolve modules relative to a path of your choice	MIT
require-uncached	Require a module bypassing the cache	MIT
requireindex	Write minimal node index.js files that require and export siblings by file basename	MIT

Open Source Software Name	Description	Type of Open Source License
requirejs	Node adapter for RequireJS, for loading AMD modules. Includes RequireJS optimizer	MIT
requires-port	Check if a protocol requires a certain port number to be added to an URL.	MIT
requizzle	Swizzle a little something into your require() calls.	MIT
reselect	Selectors for Redux.	MIT
resize-img	Resize images in memory	MIT
resolve	resolve like require.resolve() on behalf of files asynchronously and synchronously	MIT
resolve-cwd	Resolve the path of a module like `require.resolve()` but from the current working directory	MIT
resolve-dir	Resolve a directory that is either local, global or in the user's home directory.	MIT
resolve-from	Resolve the path of a module like `require.resolve()` but from a given path	MIT
resolve-options	Resolve an options object based on configuration.	MIT
resolve-package-path	a special purpose fast memoizing way to resolve a node modules package.json	MIT
resolve-path	Resolve a relative path against a root path with validation	MIT
resolve-pkg	Resolve the path of a package regardless of it having an entry	MIT
resolve-url	Like Node.js' `path.resolve`/`url.resolve` for the browser.	MIT
responselike	A response-like object for mocking a Node.js HTTP response stream	MIT
restore-cursor	Gracefully restore the CLI cursor on exit	MIT
resumer	a through stream that starts paused and resumes on the next tick	MIT
ret	Tokenizes a string that represents a regular expression.	MIT
retry	Abstraction for exponential and custom retry strategies for failed operations.	MIT
retry-as-promised	Retry a failed promise	MIT
retry-request	Retry a request.	MIT

Open Source Software Name	Description	Type of Open Source License
reusify	Reuse objects and functions with style	MIT
rfc6902	Complete implementation of RFC6902 (patch and diff)	MIT
rfc6902-ordered	https://github.com/chbrown/rfc6902 plus object key ordering	MIT
rgb-regex	Regex for RGB color strings.	MIT
rgb2hex	lightweight rgb/rgba to hex parser	MIT
rgba-regex	Regex for matching RGBA color strings.	MIT
right-align	Right-align the text in a string.	MIT
ripemd160	Compute ripemd160 of bytes or strings.	MIT
rollup	Next-generation ES6 module bundler	MIT
rollup-plugin-babel	Seamless integration between Rollup and Babel.	MIT
rollup-plugin-commonjs	Convert CommonJS modules to ES2015	MIT
rollup-plugin-node-resolve	Bundle third-party dependencies in node_modules	MIT
rollup-pluginutils	Functionality commonly needed by Rollup plugins	MIT
route-recognizer	A lightweight JavaScript library that matches paths against registered routes.	MIT
rsvp	A lightweight library that provides tools for organizing asynchronous code	MIT
run-async	Utility method to run function either synchronously or asynchronously using the common <code>this.async()</code> style.	MIT
run-parallel	Run an array of functions in parallel	MIT
run-parallel-limit	Run an array of functions in parallel, but limit the number of tasks executing at the same time	MIT
run-series	Run an array of functions in series	MIT
safe-buffer	Safer Node.js Buffer API	MIT
safe-json-parse	Parse JSON safely without throwing	MIT
safe-json-stringify	Prevent defined property getters from throwing errors	MIT
safe-regex	detect possibly catastrophic, exponential-time regular expressions	MIT
safer-buffer	Modern Buffer API polyfill without footguns	MIT

Open Source Software Name	Description	Type of Open Source License
sane	Sane aims to be fast, small, and reliable file system watcher.	MIT
sanitize-html	Clean up user-submitted HTML, preserving whitelisted elements and whitelisted attributes on a per-element basis	MIT
sass	A pure JavaScript implementation of Sass.	MIT
sass-graph	Parse sass files and extract a graph of imports	MIT
sass-lint	All Node Sass linter!	MIT
sass-loader	Sass loader for webpack	MIT
scheduler	Cooperative scheduler for the browser environment.	MIT
schema-utils	Webpack Schema Validation Utilities	MIT
scroll-to-element	Smooth scrolling to an element via selector or node reference	MIT
scryptsy	Pure JavaScript implementation of the scrypt key derivation function that is fully compatible with Node.js and the browser.	MIT
scss-tokenizer	A tokenzier for Sass' SCSS syntax	MIT
seek-bzip	a pure-JavaScript Node.JS module for random-access decoding bzip2 data	MIT
select	Programmatically select the text of a HTML element	MIT
select-hose	Select protocol using first bytes of incoming data and hose stuff to the handler	MIT
selfsigned	Generate self signed certificates private and public keys	MIT
semver-compare	compare two semver version strings, returning -1, 0, or 1	MIT
semver-diff	Get the diff type of two semver versions: 0.0.1 0.0.2 → patch	MIT
semver-greatest-satisfied-range	Find the greatest satisfied semver range from an array of ranges.	MIT
send	Better streaming static file server with Range and conditional-GET support	MIT
sentence-case	Transform into a lower case with spaces between words, then capitalize the string	MIT

Open Source Software Name	Description	Type of Open Source License
sequelize	Multi dialect ORM for Node.JS	MIT
sequelize-cli	The Sequelize CLI	MIT
sequelize-pool	Resource pooling for Node.JS	MIT
serve-favicon	favicon serving middleware with caching	MIT
serve-index	Serve directory listings	MIT
serve-static	Serve static files	MIT
set-immediate-shim	Simple setImmediate shim	MIT
set-value	Create nested values and any intermediaries using dot notation ("a.b.c") paths.	MIT
setimmediate	A shim for the setImmediate efficient script yielding API	MIT
shallow-clone	Make a shallow clone of an object, array or primitive.	MIT
shebang-command	Get the command from a shebang	MIT
shebang-regex	Regular expression for matching a shebang line	MIT
shell-quote	quote and parse shell commands	MIT
shellwords	Manipulate strings according to the word parsing rules of the UNIX Bourne shell.	MIT
should	test framework agnostic BDD-style assertions	MIT
should-equal	Deep comparison of 2 instances for should.js	MIT
should-format	Formatting of objects for should.js	MIT
should-type	Simple module to get instance type. Like a bit more advanced version of typeof	MIT
should-type-adaptors	Small utility functions to use the same traversing etc code on different types	MIT
should-util	Utility functions	MIT
simple-concat	Super-minimalist version of `concat-stream`. Less than 15 lines!	MIT
simple-get	Simplest way to make http get requests. Supports HTTPS, redirects, gzip/deflate, streams in < 100 lines.	MIT
simple-html-tokenizer	Simple HTML Tokenizer is a lightweight JavaScript library that can be used to tokenize the kind of HTML normally found in templates.	MIT

Open Source Software Name	Description	Type of Open Source License
simple-swizzle	Simply swizzle your arguments	MIT
single-line-log	Keep writing to the same line in the terminal. Very useful when you write progress bars, or a status message during longer operations	MIT
sisteransi	ANSI escape codes for some terminal swag	MIT
slack-mock	Slack API mocker	MIT
slash	Convert Windows backslash paths to slash paths	MIT
slice-ansi	Slice a string with ANSI escape codes	MIT
slugify	Slugifies a String	MIT
snake-case	Transform into a lower case string with underscores between words	MIT
snakeize	recursively transform key strings from camel-case to underscore-style	MIT
snapdragon	Fast, pluggable and easy-to-use parser-renderer factory.	MIT
snapdragon-node	Snapdragon utility for creating a new AST node in custom code, such as plugins.	MIT
snapdragon-util	Utilities for the snapdragon parser/compiler.	MIT
snappy	Nodejs bindings to Google's Snappy compression library	MIT
snazzy	Format JavaScript Standard Style as Stylish (i.e. snazzy) output	MIT
socket.io	node.js realtime framework server	MIT
socket.io-adapter	default socket.io in-memory adapter	MIT
socket.io-client	<p> Build Status (https://secure.travis-ci.org/socketio/socket.io-client.svg?branch=master) (http://travis-ci.org/socketio/socket.io-client) Dependency Status (https://david-dm.org/socketio/socket.io-client.svg) (https://david-dm.org/socketio/socket.io-client) devDependency Status (https://david-dm.org/socketio/socket.io-client/dev-status.svg) (https://david-dm.org/socketio/socket.io-client#info=devDependencies) NPM version (https://badge.fury.io/js/socket.io-client.svg) (https://www.npmjs.com/package/socket.io-client) Downloads (http://img.shields.io/npm/dm/socket.io-client.svg?style=flat) Slack (http://slack.socket.io/badge.svg?) (http://slack.socket.io) </p>	MIT

Open Source Software Name	Description	Type of Open Source License
socket.io-parser	socket.io protocol parser	MIT
sockjs	SockJS-node is a server counterpart of SockJS-client a JavaScript library that provides a WebSocket-like object in the browser. SockJS gives you a coherent, cross-browser, Javascript API which creates a low latency, full duplex, cross-domain communication channel between the browser and the web server.	MIT
sockjs-client	SockJS-client is a browser JavaScript library that provides a WebSocket-like object.	MIT
sort-keys	Sort the keys of an object	MIT
sort-keys-length	Sort object keys by length	MIT
sort-object-keys	Sort an object's keys, including an optional key list	MIT
sort-package-json	Sort an Object or package.json based on the well-known package.json keys	MIT
sortablejs	Minimalist JavaScript library for reorderable drag-and-drop lists on modern browsers and touch devices. No jQuery. Supports AngularJS and any CSS library, e.g. Bootstrap.	MIT
source-list-map	Fast line to line SourceMap generator.	MIT
source-map-resolve	Resolve the source map and/or sources for a generated file.	MIT
source-map-support	Fixes stack traces for files with source maps	MIT
source-map-url	Tools for working with sourceMappingURL comments.	MIT
sourcemap-codec	Encode/decode sourcemap mappings	MIT
sparkles	Namespaced global event emitter	MIT
spawn-args	Turn a string of command line options into an array for child_process.spawn	MIT
spdx-expression-parse	parse SPDX license expressions	MIT
spdy	Implementation of the SPDY protocol on node.js.	MIT
spdy-transport	SPDY v2, v3, v3.1 and HTTP2 transport	MIT
speakeasy	Two-factor authentication for Node.js. One-time passcode generator (HOTP/TOTP) with support for Google Authenticator.	MIT

Open Source Software Name	Description	Type of Open Source License
spectron	Easily test your Electron apps using ChromeDriver and WebdriverIO.	MIT
spinkit	A collection of loading indicators animated with CSS	MIT
split	split a Text Stream into a Line Stream	MIT
split-string	Split a string on a character except when the character is escaped.	MIT
split.js	A lightweight utility for creating adjustable split views	MIT
srcset	Parse and stringify the HTML srcset attribute	MIT
sri-toolbox	Subresource Integrity tools	MIT
sshpk	A library for finding and using SSH public keys	MIT
stable	A stable array sort for JavaScript	MIT
stack-chain	API for combining call site modifiers	MIT
stack-trace	Get v8 stack traces as an array of CallSite objects.	MIT
stack-utils	Captures and cleans stack traces	MIT
stagehand	A type-safe library for communicating between JS processes, workers, or other message-passing boundaries.	MIT
standard	JavaScript Standard Style	MIT
standard-engine	Wrap your standards in a tortilla and cover it in special sauce.	MIT
stat-mode	Offers convenient getters and setters for the stat `mode`	MIT
static-eval	evaluate statically-analyzable expressions	MIT
static-extend	Adds a static `extend` method to a class, to simplify inheritance. Extends the static properties, prototype properties, and descriptors from a `Parent` constructor onto `Child` constructors.	MIT
statuses	HTTP status utility	MIT
stdout-stream	Non-blocking stdout stream	MIT
stream-browserify	the stream module from node core for browsers	MIT
stream-each	Iterate all the data in a stream	MIT

Open Source Software Name	Description	Type of Open Source License
stream-events	Get an event when you're being sent data or asked for it.	MIT
stream-exhaust	Ensure that a stream is flowing data without mutating it	MIT
stream-http	Streaming http in the browser	MIT
stream-shift	Returns the next buffer/object in a stream's readable queue	MIT
stream-to	Concatenate a readable stream's data into either a single buffer, string, or array.	MIT
stream-to-array	Concatenate a readable stream's data into a single array	MIT
stream-to-buffer	Concatenate a readable stream's data into a single buffer	MIT
stream-transform	Object transformations implementing the Node.js `stream.Transform` API	MIT
streamsearch	Streaming Boyer-Moore-Horspool searching for node.js	MIT
strict-uri-encode	A stricter URI encode adhering to RFC 3986	MIT
string_decoder	The string_decoder module from Node core	MIT
string-length	Get the real length of a string - by correctly counting astral symbols and ignoring ansi escape codes	MIT
string-template	A simple string template function based on named or indexed arguments	MIT
string-to-stream	Convert a string into a stream (streams2)	MIT
string-width	Get the visual width of a string - the number of columns required to display it	MIT
string.prototype.matchall	Spec-compliant polyfill for String.prototype.matchAll ESnext proposal.	MIT
string.prototype.startswith	A robust & optimized `String.prototype.startsWith` polyfill, based on the ECMAScript 6 specification.	MIT
string.prototype.trim	ES5 spec-compliant shim for String.prototype.trim	MIT
string.prototype.trimend	ES2019 spec-compliant String.prototype.trimEnd shim.	MIT
string.prototype.trimleft	ES2019 spec-compliant String.prototype.trimLeft shim.	MIT

Open Source Software Name	Description	Type of Open Source License
string.prototype.trimright	ES2019 spec-compliant String.prototype.trimLeft shim.	MIT
string.prototype.trimstart	ES2019 spec-compliant String.prototype.trimStart shim.	MIT
stringstream	Encode and decode streams into string streams	MIT
strip-ansi	Strip ANSI escape codes from a string	MIT
strip-bom	Strip UTF-8 byte order mark (BOM) from a string	MIT
strip-comments	Strip comments from code. Removes line comments, block comments, the first comment only, or all comments. Optionally leave protected comments unharmed.	MIT
strip-dirs	Remove leading directory components from a path, like tar's --strip-components option	MIT
strip-eof	Strip the End-Of-File (EOF) character from a string/buffer	MIT
strip-final-newline	Strip the final newline character from a string/buffer	MIT
strip-indent	Strip leading whitespace from every line in a string	MIT
strip-json-comments	Strip comments from JSON. Lets you use comments in your JSON files!	MIT
strip-outer	Strip a substring from the start/end of a string	MIT
striptags	PHP strip_tags in Node.js	MIT
stubs	Easy method stubber.	MIT
style-loader	style loader module for webpack	MIT
styled_string	Print styled text with a StyledString object that has an interface similar to String.	MIT
styled-components	Visual primitives for the component age. Use the best bits of ES6 and CSS to style your apps without stress	MIT
stylehacks	Detect/remove browser hacks from CSS files.	MIT
stylis	light - weight css preprocessor	MIT
stylis-rule-sheet	stylis plugin to extract individual rules to use with insertRule API	MIT
sum-up	Summarize package information	MIT
superagent	elegant & feature rich browser / node HTTP with a fluent API	MIT

Open Source Software Name	Description	Type of Open Source License
superagent-mock	superagent plugin allowing to simulate HTTP calls by returning data fixtures based on the requested URL.	MIT
superagent-prefix	A plugin for superagent that prefixes absolute URLs.	MIT
supertest	SuperAgent driven library for testing HTTP servers	MIT
supports-color	Detect whether a terminal supports color	MIT
sver-compatible	Simple Semver and SemverRange classes	MIT
svg-parser	Create a JSON-friendly object from an SVG string	MIT
svgo	Nodejs-based tool for optimizing SVG vector graphics files	MIT
swagger-converter	Swagger Converter	MIT
swagger-jsdoc	Generates swagger doc based on JSDoc	MIT
swagger-methods	HTTP methods that are supported by Swagger 2.0	MIT
swagger-parser	Swagger 2.0 and OpenAPI 3.0 parser and validator for Node and browsers	MIT
swagger-tools	Various tools for using and integrating with Swagger.	MIT
swap-case	Swap the case of a string	MIT
symbol-observable	Symbol.observable ponyfill	MIT
symbol-tree	Turn any collection of objects into its own efficient tree or linked list using Symbol	MIT
symlink-or-copy	Symlink files or directories, falling back to copying on Windows	MIT
sync-disk-cache	sync disk cache	MIT
tabbable	Returns an array of all tabbable DOM nodes within a containing node.	MIT
table-parser	Simple parser for shell-style data output	MIT
tailwindcss	A utility-first CSS framework for rapidly building custom user interfaces.	MIT
tap-parser	parse the test anything protocol	MIT
tapable	Just a little module for plugins.	MIT
tape	tap-producing test harness for node and browsers	MIT

Open Source Software Name	Description	Type of Open Source License
tar-fs	filesystem bindings for tar-stream	MIT
tar-stream	tar-stream is a streaming tar parser and generator and nothing else. It is streams2 and operates purely using streams which means you can easily extract/parse tarballs without ever hitting the file system.	MIT
temp	Temporary files and directories	MIT
temp-dir	Get the real path of the system temp directory	MIT
temp-file	```typescript export function getTempName(prefix?: string null undefined): string;	MIT
tempfile	Get a random temporary file path	MIT
term-size	Reliably get the terminal window size (columns & rows)	MIT
terser-webpack-plugin	Terser plugin for webpack	MIT
testcafe	Automated browser testing for the modern web development stack.	MIT
testcafe-browser-tools	An utility library for performing platform-dependent actions on browsers.	MIT
testcafe-hammerhead	A powerful web-proxy used as a core for the TestCafe testing framework (https://github.com/DevExpress/testcafe).	MIT
testcafe-legacy-api	Legacy API support for TestCafe	MIT
testcafe-reporter-html	The HTML reporter for TestCafe	MIT
testcafe-reporter-json	JSON TestCafe reporter plugin.	MIT
testcafe-reporter-junit	jUnit TestCafe reporter plugin.	MIT
testcafe-reporter-list	List TestCafe reporter plugin.	MIT
testcafe-reporter-minimal	Minimal TestCafe reporter plugin.	MIT
testcafe-reporter-spec	Spec TestCafe reporter plugin.	MIT
testcafe-reporter-xunit	xUnit TestCafe reporter plugin.	MIT
testdouble	A minimal test double library for TDD with JavaScript	MIT
testdouble-qunit	Verify testdouble stubs with QUnit	MIT
testem	Test'em 'scripts! Javascript Unit testing made easy.	MIT

Open Source Software Name	Description	Type of Open Source License
tether	A client-side library to make absolutely positioned elements attach to elements in the page efficiently.	MIT
text-hex	Generate a hex color from the given text	MIT
text-table	borderless text tables with alignment	MIT
textextensions	A package that contains an array of every single file extension there is for text files	MIT
theredoc	A string template tag to strip leading indents from your heredoc-style multi-line strings	MIT
three-way-merger	Merges package.json files	MIT
throat	Throttle the parallelism of an asynchronous (promise returning) function / functions	MIT
throttleit	Throttle a function	MIT
through	simplified stream construction	MIT
through2	A tiny wrapper around Node.js streams.Transform (Streams2/3) to avoid explicit subclassing noise	MIT
through2-filter	A through2 to create an Array.prototype.filter analog for streams.	MIT
thunky	delay the evaluation of a paramless async function and cache the result	MIT
time-limit-promise	Fulfill long running promises on timeout.	MIT
time-stamp	Get a formatted timestamp.	MIT
time-zone	Pretty time zone: `+2` or `-9:30`	MIT
timed-out	Emit `ETIMEDOUT` or `ESOCKETTIMEDOUT` when ClientRequest is hanged	MIT
timeout-as-promise	setTimeout as a native Promise	MIT
timers-browserify	timers module for browserify	MIT
timm	Immutability helpers with fast reads and acceptable writes	MIT
timsort	TimSort: Fast Sorting for Node.js	MIT
tiny-emitter	A tiny (less than 1k) event emitter library	MIT
tiny-lr	Tiny LiveReload server, background-friendly	MIT
tinycolor2	Fast Color Parsing and Manipulation	MIT
title-case	Title case a string	MIT

Open Source Software Name	Description	Type of Open Source License
tmp	Temporary file and directory creator	MIT
tmp-promise	The tmp package with promises support and disposers.	MIT
to-absolute-glob	Make a glob pattern absolute, ensuring that negative globs and patterns with trailing slashes are correctly handled.	MIT
to-array	Turn an array like into an array	MIT
to-arraybuffer	Get an ArrayBuffer from a Buffer as fast as possible	MIT
to-buffer	Pass in a string, get a buffer back. Pass in a buffer, get the same buffer back	MIT
to-fast-properties	Force V8 to use fast properties for an object	MIT
to-ico	Convert PNG to ICO in memory	MIT
to-object-path	Create an object path from a list or array of strings.	MIT
to-readable-stream	Convert a string/Buffer/Uint8Array to a readable stream	MIT
to-regex	Generate a regex from a string or array of strings.	MIT
to-regex-range	Pass two numbers, get a regex-compatible source string for matching ranges. Validated against more than 2.78 million test assertions.	MIT
to-through	Wrap a ReadableStream in a TransformStream.	MIT
to-utf8	single-function form of node's Buffer.toString(utf8)	MIT
toidentifier	Convert a string of words to a JavaScript identifier	MIT
toposort	Topological sort of directed acyclic graphs (like dependency lists)	MIT
toposort-class	Topological sort of directed acyclic graphs (like dependency lists)	MIT
tr46	An implementation of the Unicode TR46 spec	MIT
traverse	traverse and transform objects by visiting every node on a recursive walk	MIT
tree-kill	kill trees of processes	MIT
trim-newlines	Trim newlines from the start and/or end of a string	MIT
trim-repeated	Trim a consecutively repeated substring: foo--bar---baz → foo-bar-baz	MIT

Open Source Software Name	Description	Type of Open Source License
trim-right	Similar to String#trim() but removes only whitespace on the right	MIT
triple-beam	Definitions of levels for logging purposes & shareable Symbol constants.	MIT
triplesec	A CommonJS-compliant system for secure encryption of smallish secrets	MIT
ts-node	TypeScript execution environment and REPL for node.js, with source map support	MIT
ts-pnp	plug'n'play resolver for TypeScript	MIT
tsscnp	Timing safe string compare using double HMAC	MIT
tsutils	utilities for working with typescript's AST	MIT
tty-browserify	the tty module from node core for browsers	MIT
tunnel	Node HTTP/HTTPS Agents for tunneling proxies	MIT
type-check	type-check allows you to check the types of JavaScript values at runtime with a Haskell like type syntax.	MIT
type-detect	Improved typeof detection for node.js and the browser.	MIT
type-is	Infer the content-type of a request.	MIT
typedarray	TypedArray polyfill for old browsers	MIT
typedarray-to-buffer	Convert a typed array to a Buffer without a copy	MIT
typescript-memoize	Memoize decorator for Typescript	MIT
ua-parser-js	Lightweight JavaScript-based user-agent string parser	MIT
uc.micro	Micro subset of unicode data files for markdown-it projects.	MIT
uglify-to-browserify	A transform to make UglifyJS work in browserify.	MIT
uglifyjs-webpack-plugin	UglifyJS plugin for webpack	MIT
uid-safe	URL and cookie safe UUIDs	MIT
uint64be	Encode / decode big endian unsigned 64 bit integers	MIT
ultron	Ultron is high-intelligence robot. It gathers intel so it can start improving upon his rudimentary design	MIT
umzug	Framework agnostic migration tool for Node.JS	MIT

Open Source Software Name	Description	Type of Open Source License
unzip2-stream	streaming unzip2 implementation in pure javascript for node and browsers	MIT
unc-path-regex	Regular expression for testing if a file path is a windows UNC file path. Can also be used as a component of another regexp via the <code>.source</code> property.	MIT
undefsafe	Undefined safe way of extracting object properties	MIT
underscore	JavaScript's functional programming helper library.	MIT
underscore-contrib	underscore-contrib =====	MIT
underscore.string	String manipulation extensions for Underscore.js javascript library.	MIT
undertaker	Task registry that allows composition through series/parallel methods.	MIT
undertaker-registry	Default registry in gulp 4.	MIT
unicode-5.2.0	JavaScript-compatible Unicode data. Arrays of code points, arrays of symbols, and regular expressions for Unicode v5.2.0's categories, scripts, blocks, bidi, and other properties.	MIT
unicode-canonical-property-names-ecmascript	The set of canonical Unicode property names supported in ECMAScript RegExp property escapes.	MIT
unicode-length	Get the length of unicode strings	MIT
unicode-match-property-ecmascript	Match a Unicode property or property alias to its canonical property name per the algorithm used for RegExp Unicode property escapes in ECMAScript.	MIT
unicode-match-property-value-ecmascript	Match a Unicode property or property alias to its canonical property name per the algorithm used for RegExp Unicode property escapes in ECMAScript.	MIT
unicode-property-aliases-ecmascript	Unicode property alias mappings in JavaScript format for property names that are supported in ECMAScript RegExp property escapes.	MIT
union-value	Set an array of unique values as the property of an object. Supports setting deeply nested properties using using object-paths/dot notation.	MIT
uniq	Removes duplicates from a sorted array in place	MIT
unqs	Tiny utility to create unions and de-duplicated lists	MIT
unique-stream	node.js through stream that emits a unique stream of objects based on criteria	MIT

Open Source Software Name	Description	Type of Open Source License
unique-string	Generate a unique random string	MIT
universalify	Make a callback- or promise-based function support both promises and callbacks.	MIT
unixify	Convert Windows file paths to unix paths.	MIT
unpipe	Unpipe a stream from all destinations	MIT
unquote	Remove wrapping quotes from a string.	MIT
unset-value	Delete nested properties from an object using dot notation.	MIT
untildify	Convert a tilde path to an absolute path: ~/dev => /Users/sindresorhus/dev	MIT
unzip-response	Unzip a HTTP response if needed	MIT
upath	A proxy to `path`, replacing `\\` with `\/` for all results & new methods to normalize & join keeping leading `\/` and add, change, default, trim file extensions.	MIT
upper-case	Transforms the string to upper case	MIT
upper-case-first	Transforms the string with the first character in upper cased	MIT
urijs	URI.js is a Javascript library for working with URLs.	MIT
urix	Makes Windows-style paths more unix and URI friendly.	MIT
url	The core `url` packaged standalone for use with Browserify.	MIT
url-join	Join urls and normalize as in path.join.	MIT
url-loader	A loader for webpack which transforms files into base64 URIs	MIT
url-parse	Small footprint URL parser that works seamlessly across Node.js and browser environments	MIT
url-parse-lax	Lax url.parse() with support for protocol-less URLs & IPs	MIT
url-regex	Regular expression for matching URLs	MIT
url-to-options	Convert a WHATWG URL to an http(s).request options object.	MIT
use	Easily add plugin support to your node.js application.	MIT

Open Source Software Name	Description	Type of Open Source License
useragent	Fastest, most accurate & efficient user agent string parser, uses Browserscope's research for parsing	MIT
username-sync	username but only sync and for node 0.12	MIT
utf8	A well-tested UTF-8 encoder/decoder written in JavaScript.	MIT
utif	Fast and advanced TIFF decoder	MIT
util	Node.js's util module for all engines	MIT
util-deprecate	The Node.js <code>util.deprecate()</code> function with browser support	MIT
util-extend	Node's internal object extension function	MIT
util.promisify	Polyfill/shim for util.promisify in node versions < v8	MIT
utila	notareplacementforunderscore	MIT
utils-merge	merge() utility function	MIT
uuid	RFC4122 (v1, v4, and v5) UUIDs	MIT
v8-compile-cache	Require hook for automatic V8 compile cache persistence	MIT
v8flags	Get available v8 flags.	MIT
valid-data-url	Detect if a string is a data URL	MIT
validator	String validation and sanitization	MIT
value-or-function	Normalize a value or function, applying extra args to the function	MIT
vary	Manipulate the HTTP Vary header	MIT
velocity-animate	Accelerated JavaScript animation.	MIT
vendors	List of vendor prefixes known to the web platform	MIT
verror	richer JavaScript errors	MIT
vinyl	Virtual file format.	MIT
vinyl-fs	Vinyl adapter for the file system.	MIT
vinyl-sourcemaps	Add/write sourcemaps to/from Vinyl files.	MIT
vkbeautify	Pretty prints and minifies XML/JSON/SQL/CSS	MIT
vlq	Generate, and decode, base64 VLQ mappings for source maps and other uses	MIT
vm-browserify	vm module for the browser	MIT

Open Source Software Name	Description	Type of Open Source License
w3c-hr-time	An implementation of the W3C High Resolution Time Level 2 specification.	MIT
w3c-xmlserializer	A per-spec XML serializer implementation	MIT
walk-sync	Get an array of recursive directory contents	MIT
walkdir	Find files simply. Walks a directory tree emitting events based on what it finds. Presents a familiar callback/emitter/a+sync interface. Walk a tree of any depth.	MIT
watch-detector	Utility for selecting the best options for sane	MIT
watchpack	Wrapper library for directory and file watching.	MIT
wbuf	Write buffer	MIT
wcwidth	Port of C's wcwidth() and wcswidth()	MIT
wdio-dot-reporter	A WebDriverIO plugin. Report results in dot format.	MIT
web-resource-inliner	Inlines img, script and link tags into the same file.	MIT
webauth	Web authentication module	MIT
webdriverio	A Node.js bindings implementation for the W3C WebDriver protocol	MIT
webpack	Packs CommonJs/AMD modules for the browser. Allows to split your codebase into multiple bundles, which can be loaded on demand. Support loaders to preprocess files, i.e. json, jsx, es7, css, less, ... and your custom stuff.	MIT
webpack-cli	CLI for webpack & friends	MIT
webpack-dev-middleware	A development middleware for webpack	MIT
webpack-dev-server	Serves a webpack app. Updates the browser on changes.	MIT
webpack-log	A common logger for the webpack ecosystem	MIT
webpack-manifest-plugin	webpack plugin for generating asset manifests	MIT
webpack-node-externals	Easily exclude node_modules in Webpack bundle	MIT
webpack-sources	Source code handling classes for webpack	MIT
websocket-extensions	Generic extension manager for WebSocket connections	MIT
wgxpath	Wicked Good XPath	MIT

Open Source Software Name	Description	Type of Open Source License
whatwg-encoding	Decode strings according to the WHATWG Encoding Standard	MIT
whatwg-fetch	A window.fetch polyfill.	MIT
whatwg-mimetype	Parses, serializes, and manipulates MIME types, according to the WHATWG MIME Sniffing Standard	MIT
whatwg-url	An implementation of the WHATWG URL Standard's URL API and parsing machinery	MIT
which-pm-runs	Detects what package manager executes the process	MIT
which-promise	Promisified version of node-which	MIT
widest-line	Get the visual width of the widest line in a string - the number of columns required to display it	MIT
window-size	Reliable way to to get the height and width of the terminal/console in a node.js environment.	MIT
winston	A logger for just about everything.	MIT
winston-transport	Base stream implementations for winston@3 and up.	MIT
with-open-file	Do stuff with an open file, knowing it will finally be closed	MIT
wkx	A WKT/WKB/EWKT/EWKB/TWKB/GeoJSON parser and serializer	MIT
word-wrap	Wrap words to a specified length.	MIT
wordwrap	Wrap those words. Show them at what columns to start and stop.	MIT
workbox-background-sync	Queues failed requests and uses the Background Sync API to replay them when the network is available	MIT
workbox-broadcast-update	A service worker helper library that uses the Broadcast Channel API to announce when a cached response has updated	MIT
workbox-build	A module that integrates into your build process, helping you generate a manifest of local files that workbox-sw should precache.	MIT
workbox-cacheable-response	This library takes a Response object and determines whether it's cacheable based on a specific configuration.	MIT

Open Source Software Name	Description	Type of Open Source License
workbox-core	This module is used by a number of the other Workbox modules to share common code.	MIT
workbox-expiration	A service worker helper library that expires cached responses based on age or maximum number of entries.	MIT
workbox-google-analytics	Queues failed requests and uses the Background Sync API to replay them when the network is available	MIT
workbox-navigation-preload	This library allows developers to opt-in to using Navigation Preload in their service worker.	MIT
workbox-precaching	This module efficiently precaches assets.	MIT
workbox-range-requests	This library creates a new Response, given a source Response and a Range header value.	MIT
workbox-routing	A service worker helper library to route request URLs to handlers.	MIT
workbox-strategies	A service worker helper library implementing common caching strategies.	MIT
workbox-streams	A library that makes it easier to work with Streams in the browser.	MIT
workbox-sw	This module makes it easy to get started with the Workbox service worker libraries.	MIT
workbox-webpack-plugin	A plugin for your Webpack build process, helping you generate a manifest of local files that workbox-sw should precache.	MIT
workbox-window	Simplifies communications with Workbox packages running in the service worker	MIT
worker-farm	Distribute processing tasks to child processes with an über-simple API and baked-in durability & custom concurrency options.	MIT
worker-loader	worker loader module for webpack	MIT
worker-rpc	A simple RPC layer for communicating with web workers and over other transports	MIT
wrap-ansi	Wordwrap a string with ANSI escape codes	MIT
write	Write data to a file, replacing the file if it already exists and creating any intermediate directories if they don't already exist. Thin wrapper around node's native fs methods.	MIT

Open Source Software Name	Description	Type of Open Source License
ws	Simple to use, blazing fast and thoroughly tested websocket client and server for Node.js	MIT
xdg-basedir	Get XDG Base Directory paths	MIT
xhr	small xhr abstraction	MIT
xml	Fast and simple xml generator. Supports attributes, CDATA, etc. Includes tests and examples.	MIT
xml-crypto	Xml digital signature and encryption library for Node.js	MIT
xml-encryption	[[Build Status](https://travis-ci.org/auth0/node-xml-encryption.png)](https://travis-ci.org/auth0/node-xml-encryption)	MIT
xml-parse-from-string	DOMParser.parseFromString for XML with IE8 fallback	MIT
xml2js	Simple XML to JavaScript object converter.	MIT
xmlbuilder	An XML builder for node.js	MIT
xmlchars	Utilities for determining if characters belong to character classes defined by the XML specs.	MIT
xmldom	A W3C Standard XML DOM(Level2 CORE) implementation and parser(DOMParser/XMLSerializer).	MIT
xmlhttprequest	XMLHttpRequest for Node	MIT
xmlhttprequest-ssl	XMLHttpRequest for Node	MIT
xpath	DOM 3 XPath implementation and helper for node.js.	MIT
xregexp	Extended regular expressions	MIT
xtend	extend like a boss	MIT
yam	Dead simple storage interface	MIT
yargs	yargs the modern, pirate-themed, successor to optimist.	MIT
yargs-unparser	Converts back a yargs argv object to its original array form	MIT
yauzl	yet another unzip library for node	MIT
yeast	Tiny but linear growing unique id generator	MIT
yn	Parse yes/no like values	MIT
z-schema	JSON schema validator	MIT

Open Source Software Name	Description	Type of Open Source License
zip-stream	a streaming zip archive generator.	MIT
zlibjs	zlib, gzip and zip implementation in JavaScript	MIT
@microsoft/microsoft-graph-client	Microsoft Graph Client Library	MIT
async-foreach	An optionally-asynchronous forEach with an interesting interface.	MIT
bases	Utility for converting numbers to/from different bases/alphabets.	MIT
better-assert	Better assertions for node, reporting the expr, filename, lineno etc	MIT
callsite	access to v8's CallSites	MIT
cli-table	Pretty unicode tables for the CLI	MIT
component-bind	function binding utility	MIT
component-inherit	Prototype inheritance utility	MIT
css-value	CSS value parser	MIT
ctph.js	JavaScript's library for calculating context triggered piecewise hash(CTPH) also called fuzzy hashing.	MIT
ctype	read and write binary structures and data types	MIT
decko	A collection of the most useful property decorators.	MIT
duplex	base class for a duplex stream	MIT
exif-parser	A javascript library to extract Exif metadata from images, in node and in the browser.	MIT
indexof	Microsoft sucks	MIT
jison-lex	lexical analyzer generator used by jison	MIT
lru-cache	LRU Cache for node.js/browser.	MIT
match-media	matchMedia polyfill for testing media queries in JS	MIT
object-component	Object utils.	MIT
optimist	Light-weight option parsing with an argv hash. No optstrings attached.	MIT
options	A very light-weight in-code option parsers for node.js.	MIT
otp	OTP utility for Google Authenticator	MIT
pause	Pause streams...	MIT

Open Source Software Name	Description	Type of Open Source License
sitemap	Sitemap-generating framework	MIT
sourcemap-validator	Map all the things, check all the maps	MIT
speedometer	simple speed measurement in javascript	MIT
ssdeep.js	Pure javascript module for calculating ssdeep compatible context triggered piecewise hashes.	MIT
stickyfill	A polyfill for `position: sticky` for browsers that don't support it yet.	MIT
thirty-two	Implementation RFC 3548 Base32 encoding/decoding for node.	MIT
uid2	strong uid	MIT
utile	A drop-in replacement for `util` with some additional advantageous functions	MIT
@mdi/font	Dist for Material Design Webfont. This includes the Stock and Community icons in a single webfont collection.	MIT
jsonify	JSON without touching any globals	Public Domain
stackframe	JS Object representation of a stack frame	Public Domain
node-forge	JavaScript implementations of network transports, cryptography, ciphers, PKI, message digests, and various utilities.	Three Clause BSD
json-schema	JSON Schema validation and specifications	Three Clause BSD
sntp	SNTP Client	Three Clause BSD
yui	YUI 3 Source	Three Clause BSD
@ember-intl/formatjs-extract-cldr-data	Utility library that extracts the CLDR data that's needed by the FormatJS libraries.	Three Clause BSD
@ember-intl/intl-messageformat	Formats ICU Message strings with number, date, plural, and select placeholders to create localized messages.	Three Clause BSD
@ember-intl/intl-messageformat-parser	Parses ICU Message strings into an AST via JavaScript.	Three Clause BSD
@ember-intl/intl-relativeformat	Formats JavaScript dates to relative time strings.	Three Clause BSD
@hapi/address	Email address and domain validation	Three Clause BSD
@hapi/formula	Math and string formula parser.	Three Clause BSD
@hapi/hoek	General purpose node utilities	Three Clause BSD

Open Source Software Name	Description	Type of Open Source License
@hapi/joi	Object schema validation	Three Clause BSD
@hapi/marker	Cross modules and cross versions shared symbols	Three Clause BSD
@hapi/pinpoint	Return the filename and line number of the calling function	Three Clause BSD
@hapi/topo	Topological sorting with grouping support	Three Clause BSD
@protobufjs/aspromise	Returns a promise from a node-style callback function.	Three Clause BSD
@protobufjs/base64	A minimal base64 implementation for number arrays.	Three Clause BSD
@protobufjs/codegen	A minimalistic code generation utility.	Three Clause BSD
@protobufjs/eventemitter	A minimal event emitter.	Three Clause BSD
@protobufjs/fetch	Fetches the contents of a file accross node and browsers.	Three Clause BSD
@protobufjs/float	Reads / writes floats / doubles from / to buffers in both modern and ancient browsers.	Three Clause BSD
@protobufjs/inquire	Requires a module only if available and hides the require call from bundlers.	Three Clause BSD
@protobufjs/path	A minimal path module to resolve Unix, Windows and URL paths alike.	Three Clause BSD
@protobufjs/pool	A general purpose buffer pool.	Three Clause BSD
@protobufjs/utf8	A minimal UTF8 implementation for number arrays.	Three Clause BSD
@sinonjs/commons	Simple functions shared among the sinon end user libraries	Three Clause BSD
@sinonjs/fake-timers	Fake JavaScript timers	Three Clause BSD
@sinonjs/formatio	Human-readable object formatting	Three Clause BSD
@sinonjs/samsam	Value identification and comparison functions	Three Clause BSD
@xtuc/ieee754	Read/write IEEE754 floating point numbers from/to a Buffer or array-like object	Three Clause BSD
abab	WHATWG spec-compliant implementations of window.atob and window.btoa.	Three Clause BSD
babel-plugin-istanbul	A babel plugin that adds istanbul instrumentation to ES6 code	Three Clause BSD
bcrypt-pbkdf	Port of the OpenBSD bcrypt_pbkdf function to pure JS	Three Clause BSD

Open Source Software Name	Description	Type of Open Source License
boom	HTTP-friendly error objects	Three Clause BSD
buffer-equal-constant-time	Constant-time comparison of Buffers	Three Clause BSD
charenc	character encoding utilities	Three Clause BSD
cpr	cp -R	Three Clause BSD
crypt	utilities for encryption and hashing	Three Clause BSD
cryptiles	General purpose crypto utilities	Three Clause BSD
cson-parser	Safe parsing of CSON files	Three Clause BSD
diff	A javascript text diff implementation.	Three Clause BSD
duplexer3	Like duplexer but using streams3	Three Clause BSD
electron-download	download electron prebuilt binary zips from github releases	Three Clause BSD
ember-intl	A internationalization toolbox for ambitious applications.	Three Clause BSD
eslint-plugin-flowtype	Flowtype linting rules for ESLint.	Three Clause BSD
esquery	A query library for ECMAScript AST using a CSS selector like query language.	Three Clause BSD
express-graphql	Production ready GraphQL HTTP middleware.	Three Clause BSD
filesize	JavaScript library to generate a human readable String describing the file size	Three Clause BSD
flat	Take a nested Javascript object and flatten it, or unflatten an object with delimited keys	Three Clause BSD
google-protobuf	Protocol Buffers for JavaScript	Three Clause BSD
hawk	HTTP Hawk Authentication Scheme	Three Clause BSD
highlight.js	Syntax highlighting with language autodetection.	Three Clause BSD
hoek	General purpose node utilities	Three Clause BSD
ieee754	Read/write IEEE754 floating point numbers from/to a Buffer or array-like object	Three Clause BSD
isemail	Validate an email address according to RFCs 5321, 5322, and others	Three Clause BSD

Open Source Software Name	Description	Type of Open Source License
istanbul	Yet another JS code coverage tool that computes statement, line, function and branch coverage with module loader hooks to transparently add coverage when running tests. Supports all JS coverage use cases including unit tests, server side functional tests and browser tests. Built for scale	Three Clause BSD
istanbul-api	High level API for istanbul features	Three Clause BSD
istanbul-lib-coverage	Data library for istanbul coverage objects	Three Clause BSD
istanbul-lib-hook	Hooks for require, vm and script used in istanbul	Three Clause BSD
istanbul-lib-instrument	Core istanbul API for JS code coverage	Three Clause BSD
istanbul-lib-report	Base reporting library for istanbul	Three Clause BSD
istanbul-lib-source-maps	Source maps support for istanbul	Three Clause BSD
istanbul-reports	istanbul reports	Three Clause BSD
joi	Object schema validation	Three Clause BSD
jpeg-js	A pure javascript JPEG encoder and decoder	Three Clause BSD
js-base64	Yet another Base64 transcoder in pure-JS	Three Clause BSD
keybase	Keybase's PGP Implementation	Three Clause BSD
keybase-nacl	A small wrapper library to switch between C and JS NaCl depending on the install	Three Clause BSD
lcov-parse	Parse lcov results files and return JSON	Three Clause BSD
lolex	Fake JavaScript timers	Three Clause BSD
makeerror	A library to make errors.	Three Clause BSD
md5	js function for hashing messages with MD5	Three Clause BSD
ndjson	streaming newline delimited json parser + serializer	Three Clause BSD
nise	Fake XHR and server	Three Clause BSD
oas-kit-common	Common utility functions for oas-kit	Three Clause BSD
oas-linter	Default linter plugin for oas-validator	Three Clause BSD
oas-resolver	Resolve external \$refs in OpenAPI (swagger) 2.0 / 3.x definitions	Three Clause BSD
oas-schema-walker	Library to walk OAS 3 schema objects and call a callback	Three Clause BSD
oas-validator	Parser/validator for OpenAPI 3.x definitions	Three Clause BSD

Open Source Software Name	Description	Type of Open Source License
protobufjs	Protocol Buffers for JavaScript (& TypeScript).	Three Clause BSD
qs	A querystring parser that supports nesting and arrays, with a depth limit	Three Clause BSD
reftools	Utility functions to deal with references in objects	Three Clause BSD
serialize-javascript	Serialize JavaScript to a superset of JSON that includes regular expressions and functions.	Three Clause BSD
shelljs	Portable Unix shell commands for Node.js	Three Clause BSD
showdown	A Markdown to HTML converter written in Javascript	Three Clause BSD
sinon	JavaScript test spies, stubs and mocks.	Three Clause BSD
source-map	Generates and consumes source maps	Three Clause BSD
sprintf-js	JavaScript sprintf implementation	Three Clause BSD
swagger2openapi	Convert Swagger 2.0 definitions to OpenApi 3.0 and validate	Three Clause BSD
table	Formats data into a string table.	Three Clause BSD
tmpl	JavaScript micro templates.	Three Clause BSD
topo	Topological sorting with grouping support	Three Clause BSD
tough-cookie	RFC6265 Cookies and Cookie Jar for node.js	Three Clause BSD
write-file-webpack-plugin	Forces webpack-dev-server to write bundle files to the file system.	Three Clause BSD
yuidocjs	YUIDoc, YUI's JavaScript Documentation engine.	Three Clause BSD
amdefine	Provide AMD's define() API for declaring modules in the AMD format	Three Clause BSD
formatio	Human-readable object formatting	Three Clause BSD
html_codesniffer	HTML_CodeSniffer is a client-side JavaScript that checks a HTML document or source code, and detects violations of a defined coding standard.	Three Clause BSD
ldjson-stream	streaming line delimited json parser + serializer	Three Clause BSD
nugget	minimalist wget clone written in node. HTTP GETs a file and saves it to the current working directory	Three Clause BSD
samsam	Value identification and comparison functions	Three Clause BSD

Open Source Software Name	Description	Type of Open Source License
url-template	This is a simple URI template implementation following the [RFC 6570 URI Template specification](http://tools.ietf.org/html/rfc6570). The implementation supports all levels defined in the specification and is extensively tested.	Three Clause BSD
bn	JS Bigint import	Three Clause BSD
csv-write-stream	Write CSV streams	Two Clause BSD
sinon-chai	Extends Chai with assertions for the Sinon.JS mocking framework.	Two Clause BSD
esmangle	ECMAScript code mangler / minifier	Two Clause BSD
esshorten	Shorten (mangle) names in JavaScript code	Two Clause BSD
@typescript-eslint/parser	An ESLint custom parser which leverages TypeScript ESTree	Two Clause BSD
@typescript-eslint/typescript-estree	A parser that converts TypeScript source code into an ESTree compatible form	Two Clause BSD
browser-process-hrtime	Shim for process.hrtime in the browser	Two Clause BSD
cls-bluebird	Make bluebird work with the continuation-local-storage module.	Two Clause BSD
cls-hooked	CLS using AsyncWrap instead of async-listener - Node >= 4.7.0	Two Clause BSD
configstore	Easily load and save config without having to think about where and how	Two Clause BSD
coveralls	takes json-cov output into stdin and POSTs to coveralls.io	Two Clause BSD
css-select	a CSS selector compiler/engine	Two Clause BSD
css-what	a CSS selector parser	Two Clause BSD
csv-write-stream	A CSV encoder stream that produces properly escaped CSVs.	Two Clause BSD
damerau-levenshtein	Damerau - Levenshtein distance by The Spanish Inquisition + relative distance	Two Clause BSD
default-gateway	Get the default network gateway, cross-platform.	Two Clause BSD
domelementtype	all the types of nodes in htmlparser2's dom	Two Clause BSD
domhandler	handler for htmlparser2 that turns pages into a dom	Two Clause BSD
domutils	utilities for working with htmlparser2's dom	Two Clause BSD
dotenv	Loads environment variables from .env file	Two Clause BSD

Open Source Software Name	Description	Type of Open Source License
dotenv-expand	Expand environment variables using dotenv	Two Clause BSD
emitter-listener	(Meta)observability for EventEmitter.	Two Clause BSD
entities	Encode & decode XML/HTML entities with ease	Two Clause BSD
escodegen	ECMAScript code generator	Two Clause BSD
escope	ECMAScript scope analyzer	Two Clause BSD
eslint-scope	ECMAScript scope analyzer for ESLint	Two Clause BSD
espre	An Esprima-compatible JavaScript parser built on Acorn	Two Clause BSD
esprima	ECMAScript parsing infrastructure for multipurpose analysis	Two Clause BSD
esrecurse	ECMAScript AST recursive visitor	Two Clause BSD
estraverse	ECMAScript JS AST traversal functions	Two Clause BSD
esutils	utility box for ECMAScript language tools	Two Clause BSD
extract-zip	unzip a zip file into a directory using 100% javascript	Two Clause BSD
http-cache-semantics	Parses Cache-Control and other headers. Helps building correct HTTP caches and proxies	Two Clause BSD
mississippi	a collection of useful streams	Two Clause BSD
normalize-package-data	Normalizes data that can be found in package.json files.	Two Clause BSD
nth-check	performant nth-check parser & compiler	Two Clause BSD
progress-stream	Read the progress of a stream	Two Clause BSD
raven	A standalone (Node.js) client for Sentry	Two Clause BSD
raven-js	JavaScript client for Sentry	Two Clause BSD
regjsparser	Parsing the JavaScript's RegExp in JavaScript.	Two Clause BSD
shimmer	Safe(r) monkeypatching for JavaScript.	Two Clause BSD
stringify-object	Stringify an object/array like JSON.stringify just without all the double-quotes	Two Clause BSD
stringify-object-es5	Stringify an object/array like JSON.stringify just without all the double-quotes (ES5 compatible)	Two Clause BSD
terser	JavaScript parser, mangler/compressor and beautifier toolkit for ES6+	Two Clause BSD

Open Source Software Name	Description	Type of Open Source License
uglify-js	JavaScript parser, mangler/compressor and beautifier toolkit	Two Clause BSD
update-notifier	Update notifications for your CLI app	Two Clause BSD
uri-js	An RFC 3986/3987 compliant, scheme extendable URI/IRI parsing/validating/resolving library for JavaScript.	Two Clause BSD
webidl-conversions	Implements the WebIDL algorithms for converting to and from JavaScript values	Two Clause BSD
crypto-md5	Simply expose crypto md5 as a single function	Two Clause BSD
glob-to-regexp	Convert globs to regular expressions	Two Clause BSD
taffydb	TaffyDB is an opensouce library that brings database features into your JavaScript applications.	Two Clause BSD
cldr-core	This repository provides the a portion of the JSON distribution of CLDR locale data for internationalization.	Unicode Terms of Use
cldr-dates-full	This repository provides the a portion of the JSON distribution of CLDR locale data for internationalization.	Unicode Terms of Use
cldr-numbers-full	This repository provides the a portion of the JSON distribution of CLDR locale data for internationalization.	Unicode Terms of Use
cycle	decycle your json	Unlicense
big-integer	An arbitrary length integer library for Javascript	Unlicense
error-stack-parser	Extract meaning from JS Errors	Unlicense
moment-range	Fancy date ranges for Moment.js	Unlicense
text-encoding	Polyfill for the Encoding Living Standard's API.	Unlicense
tweetnacl	Port of TweetNaCl cryptographic library to JavaScript	Unlicense
left-pad	String left pad	WTFPL
spark-md5	Lightning fast normal and incremental md5 for javascript	WTFPL
svg2png	Converts SVGs to PNGs, using PhantomJS	WTFPL
truncate-utf8-bytes	Truncate string to given length in bytes	WTFPL
utf8-byte-length	Get utf8 byte length of string	WTFPL
sanitize-filename	Sanitize a string for use as a filename	WTFPL

Open Source Software Name	Description	Type of Open Source License
cloud.google.com/go	Google Cloud library	Apache License Version 2.0
cloud.google.com/go/bigquery	Google BigQuery library	Apache License Version 2.0
cloud.google.com/go/bigtable	Google BigTable library	Apache License Version 2.0
cloud.google.com/go/pubsub	Google Cloud PubSub library	Apache License Version 2.0
cloud.google.com/go/storage	Google Cloud Storage Library	Apache License Version 2.0
code.cloudfoundry.org/bytelfmt	Byte formatter	Apache License Version 2.0
contrib.go.opencensus.io/exporter/stackdriver	Instrumentation library	Apache License Version 2.0
contrib.go.opencensus.io/integrations/ocsql	Instrumentation library	Apache License Version 2.0
contrib.go.opencensus.io/resource	Instrumentation library	Apache License Version 2.0
dmitri.shuralyov.com/gpu/mtl	Apple Metal API library	Three Clause BSD
github.com/AndreasBriese/bbloom	Bloom filter	MIT
github.com/BurntSushi/xgb	X protocol library	Three Clause BSD
github.com/DataDog/zstd	Zstandard compression library	Three Clause BSD
github.com/Microsoft/go-winio	IO utilities library	MIT
github.com/PagerDuty/go-pagerduty	PagerDuty API library	Apache License Version 2.0
github.com/Shopify/sarama	Kafka library	MIT
github.com/Velocidex/ordereddict	Ordered dict	Apache License Version 2.0
github.com/VividCortex/gohistogram	Metrics library	MIT
github.com/a-h/generate	JSON library	MIT
github.com/alecthomas/template	text templates	Three Clause BSD
github.com/alecthomas/units	Units library	MIT
github.com/andygrunwald/go-jira	JIRA client library	MIT
github.com/antihax/optional	Optional parameter library	MIT
github.com/apparentlymart/go-cidr	CIDR library	MIT
github.com/asaskevich/govalidator	Input Validation library	MIT
github.com/auth0/go-jwt-middleware	JWT middleware library	MIT
github.com/aws/aws-sdk-go	AWS library	Apache v2.0

Open Source Software Name	Description	Type of Open Source License
github.com/bitly/go-simplejson	JSON library	MIT
github.com/blang/semver	Semver library	MIT
github.com/bmizerany/assert	test library	MIT
github.com/boltdb/bolt	Embedded key/value db	MIT
github.com/briandowns/spinner	Command line helper library	Apache License Version 2.0
github.com/bsm/redis-lock	Distributed lock library	MIT
github.com/bsm/sarama-cluster	Kafka library	MIT
github.com/cenk/backoff	Rate limiting library	MIT
github.com/cenkalti/backoff	Rate limiting library	MIT
github.com/census-instrumentation/opencensus-proto	OpenCensus framework	Apache License Version 2.0
github.com/certifi/gocertifi	Root certificate collection	Mozilla Public License 2.0
github.com/cihub/seelog	Logging library	Three Clause BSD
github.com/client9/misspell	Spellcheck	MIT
github.com/cockroachdb/apd	Decimal package	Apache License Version 2.0
github.com/coreos/bbolt	Embedded key/value db	MIT
github.com/coreos/etcd	Distributed key/value store	Apache License Version 2.0
github.com/coreos/go-semver	semver library	Apache License Version 2.0
github.com/coreos/go-systemd	Systemd client library	Apache License Version 2.0
github.com/creack/pty	PTY interface	MIT
github.com/davecgh/go-spew	Pretty printing library	ISC
github.com/deckarep/golang-set	Set data structure library	MIT
github.com/dgrijalva/jwt-go	JWT library	MIT
github.com/dgryski/go-farm	farmhash implementation	MIT
github.com/docker/distribution	Docker toolset	Apache License Version 2.0
github.com/docker/docker	Docker toolkit	Apache License Version 2.0
github.com/docker/go-connections	Network utils	Apache License Version 2.0
github.com/docker/go-units	Unit parser	Apache License Version 2.0
github.com/dustinkirkland/golang-petname	Name generator	Apache License Version 2.0
github.com/eapache/go-resiliency	Resiliency pattern library	MIT

Open Source Software Name	Description	Type of Open Source License
github.com/eapache/go-xerial-snappy	Compression library	MIT
github.com/eapache/queue	Queue library	MIT
github.com/elazarl/go-bindata-assetfs	Data conversion library	Two Clause BSD
github.com/etdub/goparsetime	Time parser	Apache License Version 2.0
github.com/facebookgo/clock	Testing library	MIT
github.com/facebookgo/ensure	Testing library	Three Clause BSD
github.com/facebookgo/freeport	Network library	Three Clause BSD
github.com/facebookgo/httpcontrol	Network library	Three Clause BSD
github.com/facebookgo/stack	Stack trace library	Three Clause BSD
github.com/facebookgo/subset	Set data structure library	Three Clause BSD
github.com/fatih/color	Color package	MIT
github.com/flynn-archive/go-shlex	Lexer library	Apache License Version 2.0
github.com/frankban/quicktest	Test library	MIT
github.com/gammazero/deque	Data structure implementation	MIT
github.com/gammazero/workerpool	Concurrency library	MIT
github.com/garyburd/redigo	Redis library	Apache License Version 2.0
github.com/gavv/httpexpect	Testing library	Three Clause BSD
github.com/getsentry/raven-go	Sentry.io library	Three Clause BSD
github.com/getsentry/sentry-go	Sentry.io library	Two Clause BSD
github.com/getsocial-rnd/ip2location-go	Geo IP library	GNU Lesser General Public License v3.0
github.com/ghodss/yaml	YAML library	MIT
github.com/gin-gonic/gin	Network library	MIT
github.com/go-check/check	Testing library	Two Clause BSD
github.com/go-kit/kit	Microservice library	MIT
github.com/go-logfmt/logfmt	Logging library	MIT
github.com/go-playground/universal-translator	i18n library	MIT
github.com/go-redis/redis	Redis client library	Two Clause BSD
github.com/go-sql-driver/mysql	MSQL driver	Mozilla Public License 2.0
github.com/go-stack/stack	Call Stack Library	MIT

Open Source Software Name	Description	Type of Open Source License
github.com/go-test/deep	Testing library	MIT
github.com/gogo/protobuf	Protocol Buffers library	Three Clause BSD
github.com/golang-migrate/migrate	database migration cli	MIT
github.com/golang/glog	Log library	Apache License Version 2.0
github.com/golang/groupcache	Cache library	Apache License Version 2.0
github.com/golang/protobuf	Protocol Buffers library	Three Clause BSD
github.com/golang/snappy	Compression library	Three Clause BSD

Yes ... there's even more legalese

This is the part where you get to the bottom of the document and the lawyers have put in a bunch of words that say, well, something...!
